THE LINCOLN STAR

60TH YEAR | No. 178 | LINCOLN, NEB., THURSDAY MORNING, APRIL 26, 1962 | 10 CENTS

ABANDONED . . . Bob, Joe, David, Janice and Helen, from left.

Dad Leaves Kids With Cops

. . . COULDN'T CARE FOR THEM ANY MORE

Philadelphia (AP)—Five children, ranging in age from 5 to 13, walked into a police station Wednesday and told policemen their father had left them outside saying, "I can't take care of you any more."

Lt. Thomas Lamb said the children quoted the father as saying, "Go in and tell the policemen there's no place to go. This is the last you will see of me."

The children were Robert Zwalinski, 13, and his brothers and sisters, Helen, 11, Janice 9, David 6 and Joseph 5. They told policewoman Helen Agnew they were awakened Monday by an argument between their father, John Zwalinski, 40, and mother, Eleanor, 42.

They said that after their father left for work as an auto mechanic, their mother also left and did not return. The oldest boy, John, 15, helped get the children ready for school Monday and Tuesday.

Tuesday the father returned and told the children, "I'm sorry I can't take care of you children any more. We're going for a ride."

He drove them to the police station.

Later, Zwalinski telephoned the police station. Persuaded to come by, he told police he had been searching for his wife.

He was charged with child abandonment and a hearing was scheduled for Thursday.

'Profitless Prosperity' Is Industrialists' Theme

. . . WITH SOME GLARING DEPARTURES

By DARDEN CHAMBLISS

New York (AP) — The nation's leading industrialists, now gathering with the shareholders at annual meeting time, are sounding a common theme: Their firms are operating in a "profitless prosperity."

There were glaring departures from this pattern, however, such as General Motors' announcement Wednesday of record earnings of $374 million for 1962's first quarter. This was the second straight quarter the earnings had hit new highs.

But many other companies told of profits climbing slower than sales.

Statements by directors also indicated that the question of price rises, subject of the head-on clash between the steel industry and President Kennedy, is far from settled.

Another area of concern was uncertainty about the government's attitude toward big business, despite expressions of good will from the administration.

But it was the problem of lagging profits — even as sales soared and the nation's health increased—which drew the major attention.

Challenge

On profit troubles, President Gerald L. Phillippe of General Electric said the cost-price situation "has apparently become a continuing challenge of the modern business scene."

He said that production capacity exceeds demand and that with competition holding down prices, and expenses pushing up costs, corporations are in a vise.

He said this is shown in his company by the way sales set a record for 1961, but profits (up 21% from depressed 1961) did not.

American Can Co. President William C. Stolk cited record sales and earnings for the first quarter, but said:

"Measured against the country's long-term economic growth, profits have been seriously lagging. In the past 10 years, profits as a percentage of the Gross National Product (total value of the nation's goods and services) have been steadily lagging."

Joseph L. Block, chairman of Inland Steel Co. — the firm that refused to follow U.S. Steel's $6 a ton price increase and thereby helped bring withdrawal of the increase — also decries what he called the profit squeeze.

He told stockholders that while he still feels a price increase would not be wise now, "eventually the relations between cost and prices will have to be corrected."

He said earnings on investment in the steel industry do not compare favorably with other industries and that improved earnings are needed to modernize and expand facilities.

The chairman of U.S. Steel, Roger L. Blough — who lost to President Kennedy in the price hike attempt — said his firm remains in the same tight position he claimed motivated the $6 a ton increase attempt earlier this month.

He reiterated that more profits are needed for improving facilities and said that failure to modernize could have wide consequences. These include, he said, fewer steel industry jobs, weakness in foreign trade competition and greater problems with the international balance of payments.

"Over a period of time," he said, "a profitless business is the worst kind of employer that an employe ever had."

Many firms told stockholders that the only avenue they have found to better profits has been in cutting costs.

Mrs. Thomas S. Allen Dies; Last Sister Of W. J. Bryan

Mrs. Thomas S. Allen, youngest sister of William Jennings Bryan and last of the Bryan relatives living in Nebraska, died Wednesday at a Lincoln hospital after a long illness. She was 89.

Born Mary Elizabeth Bryan in Salem, Ill., she was the youngest of 9 children, among whom William Jennings and Charles W. were the most distinguished.

She married Mr. Allen in 1898 and had lived in Lincoln since then. A noted Nebraska lawyer, he died in 1945.

Mrs. Allen lived many years in the old Bryan home at 1260 So. 20th.

She attended college in Illinois and at the University of Nebraska. She was a member of the First Baptist Church.

Among her clubs and organizations were the YWCA, DAR, Mayflower Society, Nebraska State Historical Society, Lincoln Women's Club, Thursday Morning Lecture Circle and the University Club.

She is survived by her nephew, William Jennings Bryan Jr. of Laguna Beach, Calif.

Funeral arrangements are pending.

Safeguards Are Many

An Urban Renewal program could result in graft and profiteering—but only if a gigantic conspiracy could be organized between the City Council, the Urban Renewal authority, the federal government and the courts. "Obviously the wholesale denial of people's rights simply could never take place."

See editorial, "Practicality and Choice," the last in a series by William O. Dobler, on Page 4.

1962 TESTS BEGIN

. . . First Of 3 Dozen Shots

By JERRY T. BAULCH

Washington (AP) — The United States fired the first explosion in its new nuclear test series in the atmosphere near remote Christmas Island in the Pacific at dawn Wednesday. It was a middle-range weapon dropped from an airplane.

The brief Atomic Energy Commission announcement gave no details. But other sources said word from nuclear Task Force 8 on the scene was that this first of about 3 dozen shots expected to be touched off in the next two months was successful.

This undertaking to sharpen the tools in America's nuclear weapons arsenal thus was started only a day after President Kennedy gave the final go-ahead. The preparations had been made during the months he has been warning Russia that this country had no other choice unless a safe nuclear test ban could be agreed upon.

U.S. officials braced for a wave of protests, and sought to soften them beforehand. They held the door open for calling off the tests provided agreement could be reached and signed on a test ban with adequate inspections.

To stem some of the protests, the AEC also sought to assure the people of the world that fallout from the U.S. tests would be held to a minimum.

Meager Fallout

The atomic agency promised, as Kennedy and others had done before, that the fallout would be far less than that from Russia's nuclear blasts last fall.

Kennedy was informed of the start of the tests at 1:20 p.m. while cruising aboard the White House yacht Honey Fitz in Lake Worth, near his vacation White House in Palm Beach, Fla. This was about 2½ hours after the explosion.

Dr. Glenn T. Seaborg, AEC chairman, notified Kennedy late Tuesday night that the tests would get under way Wednesday unless weather interfered.

The President, as the White House had told newsmen beforehand, issued no statement on resumption of the tests.

Typical Reaction

Typical congressional reaction was that of Senate Democratic leader Mike Mansfield of Montana and Sen. Richard B. Russell, D-Ga., chairman of the Senate Armed Services Committee.

Mansfield said Kennedy showed great forebearance in holding up the tests so long. Russell said he was reluctant to see the tests resumed, but that national security demands them.

A joint statement by the top Republican congressional leaders, Sen. Everett M. Dirksen of Illinois and Rep. Charles Halleck of Indiana, said of the tests:

"It is an action the joint Senate - House Republican leadership has been recommending for nearly a year and our only regret is that testing was not resumed many months ago."

Terse Announcement

Wednesday's AEC announcement was in the same terse style of its announcements of 29 underground tests the United States has conducted since last fall. It said:

"A nuclear test detonation took place at about 10:45 a.m. (EST) (5:45 a.m. test site time) in the vicinity of Christmas Island.

"The detonation was in the intermediate yield range. The device was dropped from an airplane.

"The test was the first detonation in Operation Dominic, now under way in the Pacific."

Intermediate range is described by the AEC as equal to the explosive power of more than 20,000 tons and less than 1 million tons of TNT — a relatively small explosion in the nuclear field. It's expected that the U.S. tests will be limited to 10 megatons, compared to up to 58 megaton blasts in the Soviet series last fall.

Soviet Gains Feared

Kennedy's decision to give the go-ahead was based on his concern that if the Russians continued testing and the United States held off the Soviets might gain an edge in the delicate nuclear power balance.

Other U.S. officials said the United States still is willing to halt the tests if the Russians actually sign such an agreement.

Wednesday's atmospheric shot was the first by the United States in almost 4 years. It has been almost 8 months since Russia concluded its series.

The big prize in the testing race is development of an anti-missile missile. At present there is no effective defense against the nuclear missile attack. Development of a defense system that could destroy rockets in flight would give the country possessing it a decisive advantage.

Kennedy has left no doubt in various public statements that research in missile defense would be a major purpose of the U.S. tests.

Other purposes are known to include: The development of more efficient nuclear bombs and warheads — more explosive force per pound of weight; the study of the effects of nuclear explosions on radar and radio; and the proof testing of weapons previously developed but not yet tried out.

Power Supply Merger Blasted

PHELPS SAYS PLAN WOULD CREATE 'A MONSTER'

By DON WALTON
Star Staff Writer

Omaha—A member of the Nebraska Public Power Committee Wednesday turned thumbs down on the proposed merger of all wholesale power suppliers into a single district.

Tossing these agencies, as they are now constituted, into one district would create "a monster in our midst," Grand Island utilities commissioner Frank Phelps warned.

By allowing the single agency to continue retail activities now undertaken by Consumers Public Power District and adding rural interests to the merger, Phelps declared, a body "capable of political control of our state" would emerge.

The alternative, he said, must be reorganization of CPPD, the Nebraska Public Power System and the Nebraska Electric Generation and Transmission Cooperative, Inc., into "two or more" districts strictly limited to wholesale service.

All retail functions would be sold to municipalities or rural districts, Phelps suggested, with service areas carefully defined for both retail and wholesale operations.

Bombshell

Phelps offered his proposal in a power bombshell dropped at a joint meeting of the utilities section of the Nebraska League of Municipalities and the Nebraska section of the American Water Works Assn.

In other comments, Phelps:

—Accused rural electric districts who are engaged in fringe area retail competition with municipalities of "contravention of the intent of the REA Act."

—Suggested that CPPD's construction of the Hallam nuclear power plant makes it "a very remote possibility that CPPD will cease to be a going concern in 1972."

—Proposed establishment of an agency — similar to the NPPC — for "control of public power activities" with "power to act in all public power situations."

—Warned that it is "painfully apparent that municipal systems will fade from the picture" if the present trend of encirclement, rising costs, lost time and municipality disinterest continues.

Fight Urged

To counteract the trend, Phelps urged municipal systems to "fight for your existence" by separating from the League of Municipalities, forming their own organization, adopting a legislative program and a public relations plan, and hiring a full-time lobbyist.

Phelps warned the municipals ought to plan ahead for 1972 when CPPD-served cities will be given the opportunity to acquire their own distribution systems at no cost.

What they may face, he declared, is "a propaganda campaign (designed to) brainwash the electorate."

Orthopedic Construction Fund Application Made

By BETTY PERSON
Star Staff Writer

State Institutions Director George Morris reported Wednesday that at the direction of Gov. Frank Morrison he has formally applied for Hill-Burton construction funds to aid in building an addition to Orthopedic Hospital in Lincoln.

A revised estimate places cost of the addition at $255,500, rather than the initial estimate of about $200,000.

Morris, who will appear before the State Hospital Advisory Council Monday to explain the request, said funds will be sought in 3 different categories of Hill-Burton monies: rehabilitation, diagnostic and treatment, and chronic disease.

Federal funds would pay up to 40% of the total construction cost.

Federal Help Expected

"We feel reasonably certain that, with Mr. Pangborn's continued assistance, we will receive federal help on this project," Morris said. Pangborn is chief of the State Health Department's hospital division.

Plans for the structure call for a 3-story addition to the south side of the 4-story administration building of the hospital.

The first story of the building will be used by the artificial appliance facilities.

The second floor will be occupied by the diagnostic and treatment center.

The third floor will contain primarily rehabilitation facilities including educational therapy, speech analysis, diagnosis and therapy, and occupational therapy and vocational program.

Project Needed

Morris said the project is needed to bring Orthopedic "up to an acceptable and desirable standard in its rehabilitation program, and to provide a diagnostic and treatment center which can serve outpatients without bringing them into the inpatient areas."

While primarily an orthopedic facility, he continued, it is recognized that practically all children with orthopedic needs are multiple disability cases requiring a variety of services. This building is designed to provide those services, he noted.

Morris described the new facility as one which will allow a "team effort" on the part of all agencies "to do a complete job for each individual child" from his initial diagnosis, through treatment and the long-range rehabilitation program "necessary to bring them back as functioning members of our society."

Moon's Junk Pile Beckons To Ranger 4

Pasadena, Calif. (AP)— The Ranger 4 spacecraft — its butterfly-like wings apparently clipped by a power failure — headed Wednesday for a certain collision with the moon.

Scientists at Caltech's Jet Propulsion Laboratory, which built the capsule, said there no longer is any doubt it will slam at 6,000 miles per hour into the moon's dark backside Thursday morning.

The Ranger's power failure left the scientists fairly certain that the 730-pound capsule was unable to push out its solar panels.

The protruding panels — giving the capsule somewhat the look of a butterfly — would have picked up rays from the sun and transformed them into electrical energy.

With them still inside the bullet-shaped craft, the scientists only contact with Ranger was its tiny, 50-milliwatt transmitter as the capsule tumbled blindly through space.

The capsule, worth $4 to $5 million, is expected to be destroyed when it smashes into the moon.

The Weather

LINCOLN: Partly cloudy Thursday. Highs middle 70s.

EAST AND CENTRAL NEBRASKA: Partly cloudy and becoming cooler Thursday. Highs 60s northwest to the 70s southeast.

Today's Chuckle

A man is as young as he feels after trying to prove it.

Twelve Nebraskans Merit Scholars

Two Lincoln boys are among 12 Nebraska students named Merit Scholars by the National Merit Scholarship Corporation.

The Lincolnites are Robert M. Pringle Jr., son of T.Sgt. and Mrs. Robert M. Pringle of 5439 Pease Circle, LAFB, and Herbert E. Johnson, son of Mr. and Mrs. Dallas Johnson of 4920 Gladstone.

Pringle, president of the Lincoln High Science Club and member of the El Paso, Texas, public schools' Science Seminar in 1959-1960, won a U.S. Air Force Merit Scholarship.

He plans to major in prelaw or engineering at the University of Nebraska.

To Study Physics

Johnson won an Outboard Marine Scholarship. A member of the Lincoln Northeast High state championship football team, he plans to attend Michigan State where he will major in physics.

Other winners include:

Donald D. Potter, son of Mrs. Mildred K. Potter and Albert A. Potter of Grand Island. Vice-president of the high school science club, Potter will major in chemistry at Grinnell College on a Sears Foundation Merit Scholarship.

Robert B. Leech, son of Almon Leech of Stella. Leech, who attends Bratton Union High in Humboldt, has been a 4-H member since 1954 and was first place winner in physics at the 1962 Peru Scholastic contest. He will major in mathematics at the University of Nebraska.

David L. Giles, son of Mrs. Alice A. Giles of Mullen. A 3-year member of the Mullen High School Honor Society, Giles will major in chemistry at Stanford University.

Robert L. Klotz of Kearney. A Webtex Merit Scholar, he will attend Stanford University and major in engineering.

Coe Chosen

Barbara L. Halliburton of Omaha who will attend Coe College.

Stephen D. Ludington of Omaha. A student at Omaha Westside, Ludington will attend Stanford University.

Judith M. Povilus of Omaha. A student at Nazareth Academy (Ill.), she will study science at the College of St. Teresa (Minn.).

Douglas R. Wenger of Omaha. A student at Omaha Central, he will attend Cornell University to major in aeronautical engineering. He received a Thomas J. Watson Memorial Merit Scholarship of International Business Machines Corp.

Jane E. Russell of Offutt Air Force Base, who attends Ryan Memorial High School, was named an honorary merit scholar.

Ronald Raymond Burke of Harlan, Iowa — who attends Creighton Prep in Omaha, was also named a merit scholar. He plans to study philosophy at the University of Notre Dame.

Saturn, Forerunner Of Moon Rocket, Scores High

95 TONS OF BALLAST IS LIFTED

...Then Dumped

Cape Canaveral, Fla (AP) — Saturn, giant of the international rocket clan, flew its second perfect flight Wednesday in a development program preparing it to take Americans to the moon.

And as a basic research sideline, it produced what missileman Wernher Von Braun called "probably the first synthetic thunderstorm ever generated in space."

The soaring Saturn was blown up intentionally about 2½ minutes after liftoff at an altitude of 65 miles, dumping its ballast of 95 tons of tap water into the upper atmosphere. The experiment, which produced a massive ice cloud and lighting-like effects, was called "Project Highwater."

Highwater did not interfere with the major goal of the flight, which was achieved when the Saturn first stage engine burned out 115 seconds after launching.

Dr. Kurt Debus, director of launch operations for the National Aeronautics and Space Administration, said Saturn's performance "was very close to the nominal" — which translates into lay terms as "darn near perfect."

Later in the day, the crew of the nuclear submarine Sam Houston successfully launched a Polaris from 90 feet beneath the surface of the Atlantic Ocean 50 miles offshore.

The launching was the first for the Houston, the seventh submarine to successfully test the missile. The other 6 are on station, each with 16 nuclear-armed missiles.

"I think I need not point out that we're very grateful that the second Saturn scored a hit," commented Dr. Von Braun, director of NASA's Marshall space flight center, at a post-launch news conference.

He said two more test flights of Saturn's first stage will be made. Saturn 5 will carry a "boiler plate Apollo," a model of the 3-man space ship that will be used in manned lunar flights.

The first flight test of Saturn's high-energy second stage probably will be made in July, 1963, Von Braun said. He expects the Apollo spaceship with astronauts aboard to be sent into orbit about the earth on Saturn No. 11 in late 1964.

Richard Canright, a Saturn program officer, called Wednesday's flight "the first part of a new phase — that is proving reliability. One success may be a miracle, but with two we start building statistics."

WERNHER VON BRAUN

Student Behavior Conference Set

Five colleges in the state will send representatives to the University of Nebraska training conference on classroom behavior of students Tuesday through Thursday next week.

Twenty-five faculty members will attend the orientation workshop sponsored by the department of neurology and psychiatry of the College of Medicine and the Nebraska Psychiatric Institute.

Informal meetings will be held to discuss such aspects as group therapy, social drama and role playing.

Colleges represented, in addition to the University of Nebraska, will be the state teachers colleges of Kearney, Chadron and Wayne, and Dana and Midland Colleges.

Rites Held For Ceresco Senior

Ceresco — Funeral services were held here Wednesday for Berniece Kay Benting, 17, who had been bedfast for the past 6 years.

A member of the Ceresco senior class, she was receiving her education through a radio-telephone teaching system of homebound students.

Her parents had hoped to bring her to school in May to finish out the year with her twin sister and classmates.

Surviving are her parents, Mr. and Mrs. Emerson Benting; brother, Leslie; and sisters, Joyce and Bonnie.

Connelly Chosen

Terry Connelly, son of Mr. and Mrs. Ralph B. Connelly of 3535 O, was one of 12 freshmen at Catholic University in Washington, D.C., to be selected for Phi Eta Sigma, freshman honorary fraternity.

K. Calls For New Charter

Peaceful Coexistence Approval Is Desired

By PRESTON GROVER

Moscow (AP) — Premier Khrushchev Wednesday called for a new Constitution to write into the Soviet Union's basic law the fundamental principles of its foreign relations, including peaceful coexistence. He also asked for the inclusion of more freedoms for the people, but these may turn out to be theories.

The Supreme Soviet without dissent then adjourned a 3-day meeting by designating him to continue running the country at the head of a 71-man Cabinet and to head a commission to write a replacement for the 1936 Stalinist Constitution.

The Cabinet which Khrushchev presented, following the routine resignation of the old one, kept the same faces in the same places with few exceptions.

3 Youths Injured As Car Hits Tree

Three teenagers were injured Wednesday night when their car skidded 120 feet at 23rd and C and smashed into a tree, police said.

The driver, Charles A. Garrett, 15, of 1509 So. 23rd, was taken to St. Elizabeth Hospital for observation of possible chest injuries. His passengers, Richard T. Gilbert, 16, of 1210 So. 22nd, and Pierre L. Larimer, 16, of 2237 Woodscrest Ave., suffered facial cuts.

Grass Fire Leads To Arrest Of Brawlers

A grass fire out of control near West 1st and J led to 5 fighting transients winding up in jail Wednesday evening.

Firement put out the fire and notified police of the fisticuffs under the Burlington Railroad bridge over Salt Creek.

Two of the brawlers were cut and bruised so much that they had to be taken to a hospital for medical attention.

Then, police said, they and their 3 antagonists were jailed as drunk.

SHE SAVED INFANT'S LIFE

Dorothy Lee, student nurse at Vanderbilt Hospital, Nashville, Tenn., holds Terri Mangrum, whose life she saved with mouth-to-mouth resuscitation. Terri stopped breathing when she was brought in for surgery for correction of a lung defect. The pretty nurse put the 6-week-old baby on a table and applied the resuscitation she had learned in a swimming course. Terri's lung defect since has been corrected, but doctors say she wouldn't be alive if Dorothy hadn't been there.

Coloradoan's Plea: Innocent Of Homicide

Arlyn D. Rowan, 28, of Fleming, Colo., pleaded innocent in Lancaster County Court Wednesday to a motor vehicle homicide charge filed in connection with the death Tuesday night of Otto Hagemoser of Seward.

Judge Ralph Slocum set preliminary hearing for May 3 and fixed bond at $2,500.

Mr. Hagemoser, 51, died Tuesday after being struck by a semi-trailer truck driven by Rowan. It was westbound on U.S. 34 about 10 miles west of Lincoln.

Mr. Hagemoser was working as a flagman on a construction project at the time of the accident. He worked for the State Highway Department.

Tersely Told Tales

United Nations, N.Y. (AP) — Soviet cosmonaut Gherman Titov will get a U.N. reception next Monday similar to that given U.S. astronaut John Glenn here March 2.

★ ★ ★

Portland, Maine (AP) — An unseasonable storm deposited up to 7 inches of snow in Maine Wednesday, creating a picturesque but unwelcome winter-like scene.

★ ★ ★

Washington (AP) — Barbara Powers, 27, wife of U2 pilot Francis Gary Powers, has been discharged from Georgetown University Hospital, a spokesman there said Wednesday.

Mrs. Powers, taken to the hospital in a coma last Friday, left on Monday, with the nature of her illness still something of a mystery.

★ ★ ★

New Delhi (UPI) — Prime Minister Jawaharlal Nehru left for the Himalayan foothills town of Dehra Dun for a 3-day rest.

Woman Drowns Near Chapman

Chapman (AP) — Mrs. Ralph Miller, about 40, of Grand Island, drowned in a sandpit south of Chapman Wednesday afternoon.

Mrs. Miller and her husband were on a fishing trip. She was fishing in one sandpit and he in another close by.

Miller told Merrick County Attorney Stanley Torpin that he heard his wife scream and when he got to the sandpit he saw her threshing in the water about 30 to 40 feet from shore.

Miller said his wife couldn't swim and neither could he.

The Chapman Fire Department recovered the body.

Holbrook Girl Hurt Seriously

Suffering from a fractured skull, a 2½-year-old Holbrook girl was reported in serious condition early Thursday at Lincoln General Hospital.

A spokesman said Terry Sams, daughter of Mr. and Mrs. Duane Sams of Holbrook, was also suffering from other skull injuries.

She was reportedly injured in a one-car accident near Cambridge.

Two Die In Separate Crashes

By The Associated Press

A 74-year-old Hubbell man was killed Wednesday when he fell from a farm truck.

He was Lloyd Thomas who was a passenger in a vehicle driven by Myron Deeke, also of Hubbell. Jefferson County Sheriff Frank Knocke said Thomas leaned out of the truck and fell.

The accident occurred on Nebraska 8 one and one-half miles west of Reynolds.

The death of Thomas along with those of 3 Nebraskans who lost their lives in traffic accidents Tuesday raised to 77 the number of highway fatalities in Nebraska this year. On the same date a year ago the total was 87. The current figures reflect one deletion.

Humboldt Victim

Mrs. Fannie Frankhauser, 79, Humboldt, was injured fatally late Tuesday when a car in which she was a passenger went out of control on a county road 2 miles south and 2½ miles west of Humboldt, the Accident Records Bureau reported.

The car driven by Mrs. Hazel Rist of Humboldt went out of control and into a barrow pit. Mrs. Frankhauser was thrown out, the report showed.

Mrs. Rist escaped serious injury, but another passenger in the car, Mrs. Mina Kerl, 66, Wymore, was taken to a Falls City hospital apparently suffering from shock. Also riding in the car, but not seriously hurt, was Mrs. Ellsworth Frankhauser, a daughter-in-law of the victim.

Other victims Tuesday were 51-year-old Otto Hagemoser of Seward and Roberta G. Arduser, 45, Coleridge.

The name of Joseph Miller, 90, Table Rock, was dropped. He was fatally injured April 17 when his car went out of control on a driveway at the Martin Luther Home at Beatrice and struck a tree.

State Accident Records Bureau Director Tom Ryan said the accident occurred on private property.

Nebraska City Wins 'Advancement Contest'

Omaha (AP) — The Nebraska City Utilities Co. was named Wednesday as the winner of an "advancement contest" sponsored by the Nebraska section of the American Waterworks Association.

The judging was on improvement in community relations and management education made by firms. The presentation was a feature of a luncheon of the AWWA and the utilities section of the Nebraska League of Municipalities.

Weaver Aid Being Given To Harrison

Rep. Beermann's Backers Believe

By TED TURPIN
Outstate Nebraska Bureau

York —Are Third District supporters of Rep. Phil Weaver swinging over to help former Congressman Robert Harrison in the race for the Republican congressional nomination?

Many of them are, supporters of Rep. Ralph Beermann believe, because (they reason) Harrison's strength in the old Third District would deprive Beermann of votes, while hurting Weaver little.

Beermann, incumbent from northeast Nebraska's Third District, and Weaver, who represents the First District, were thrown together in the Republican primary when reapportionment reduced Nebraska's congressional districts from 4 to 3.

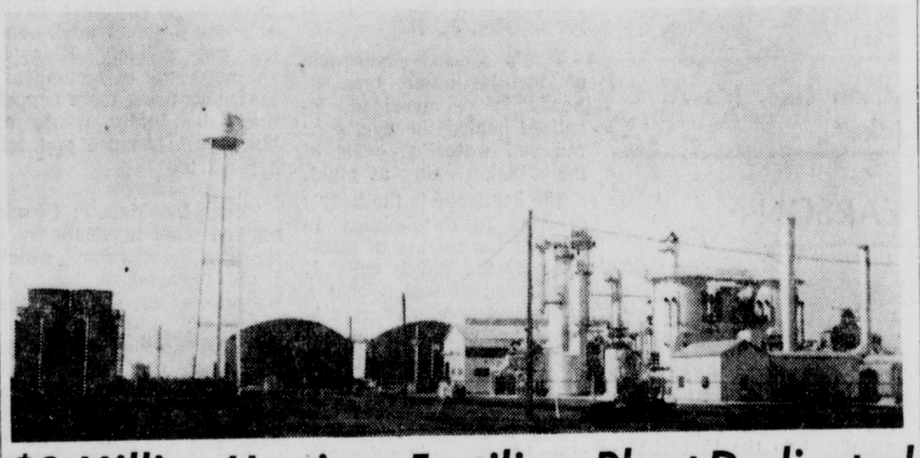

A former Third District congressman, Harrison is originally from Norfolk. Some political observers believe his candidacy may hurt Beermann more than Weaver.

"It looks like all the Weaver campaign workers in northeast Nebraska have decided to back Harrison," a member of the Beermann party said Wednesday in York.

He said Weaver campaign signs have apparently been taken down in that area and other campaign material is "conspicuously absent."

The Weaver strategy, he said, apparently is to push Harrison in the northeast, "thereby getting for Harrison the few votes that have been wavering between Beermann and Weaver."

Weaver intends to push hard in his present southeast area, the Beermann spokesman believes, and is counting on a heavy Lincoln vote.

$8 Million Hastings Fertilizer Plant Dedicated

Consumers Co-Operative Association dedicated an $8 million nitrogen fertilizer plant east of Hastings Wednesday. Five thousand persons turned out for ceremonies. A free barbecue preceded the formal dedication. The plant, shown above, is 3 miles east of Hastings on U.S. 6. It will provide jobs for 75 to 80 persons.

100% State's Legal Papers Now In NPA

For the first time in history, every legal newspaper in the state of Nebraska is a member of the Nebraska Press Association, the trade organization said.

Included are 249 newspapers in the state.

Nebraska is reportedly the only state with 100% membership. A few years ago the state association in Tennessee also had 100% membership.

Membership in the association includes all dailies, triweeklies, semi-weeklies and weeklies in Nebraska. Vern Scofield has been general manager since 1951. A. H. Henningsen of Omaha is president.

Yorty Won't Sue Roberts For Libel

Los Angeles (UPI) — Mayor Sam Yorty said he does not intend to sue an Army major who told a meeting of the Daughters of the American Revolution that Yorty had a "communist background."

Yorty told a news conference that he thought Maj. Arch Roberts sought "martyrdom" when he made his remarks. He pointed out that the Army had already suspended Roberts, former public relations aide to resigned Maj. Gen. Edwin A. Walker.

"I don't plan any libel suit against him," Yorty said. "I think the Army will take good care of him."

Yorty said, however, he has considered legal action against the "Patrick Henry League" which he said circulated pamphlets containing remarks similar to those made by Roberts in Washington.

Long's Body Located After Tractor Upset

St. Edward (AP) — The body of Clarence Long, about 50, was found early Wednesday in a farm field following a tractor accident.

Volunteer firemen, who were called to help find Long, said he went into the field Tuesday morning and had been plowing when a bolt broke on his tractor seat.

Long evidently toppled into the plow, was caught and dragged around the field. The body eventually came free and the tractor and plow continued for some distance.

Mrs. Long and a daughter work in Columbus and Long's absence was not noticed until evening. Firemen were called and located the body sometime after midnight.

The Longs lived in town. The field in which he was working was 4 miles south and half a mile west of St. Edward.

Mistrial Declared In Murder Case

Omaha (AP) — District Judge Robert L. Smith declared a mistrial Wednesday in an Omaha murder trial.

Public Defender A. Q. Wolfe moved for the mistrial late Tuesday after a juror who already had been sworn in said he had formed an opinion in the case.

Charged is Richard Lee Lawler, 26, who is accused in the shotgun slaying last Aug. 29 of 8-year-old Beverly Peterson. The little girl was killed as she sat on the front porch of her home.

No evidence had been presented in the case at the time juror John J. Shavlik announced to the bailiff that he had formed an opinion. Judge Smith seated a woman alternate, Wolfe moved for a mistrial and the trial was recessed until Wednesday.

Still No Bidder

Hastings (AP) — The Hastings College Board met Tuesday and Wednesday and then adjourned without announcing a successful bidder on a new dormitory.

Fraternal Calendar

Top Federal Press Job Goes To Nebraska's Bess Furman

Washington (AP) — Bess Furman, longtime Washington newspaperwoman, was named to head the press information section of the Department of Health, Education and Welfare.

She is believed to be the first woman to hold a top press job in a cabinet-rank agency.

Mrs. Furman, who was a reporter for the New York Times and the Associated Press in Washington, moves up from the No. 2 spot in the department's press section. She takes over the post of Wallace Turner, who resigned to become head of the New York Times' San Francisco bureau.

Native of Danbury

A long tradition of newspapering is behind Bess Furman who says she was born in a Danbury, Neb., newspaper office, which served also as a residence for her family. Her mother and father ran the Danbury News.

Omaha Detectives Get Suspensions Following Chase

Omaha (AP) — Police Chief C. Harold Ostler suspended two detectives who were on the wrong end of a police chase Wednesday.

A cruiser patrolman pursued a car occupied by off-duty detectives Sgts. Milton Straka and Robert Lickert for nearly two miles.

Chief Ostler suspended Sergeant Straka, the driver, for 3 days. Sergeant Lickert was suspended for one day.

No Reason

The chief said the two admitted they had no reason for speeding.

Patrolman Jack Campbell spotted their speeding car and gave chase. He called for assistance when his speed reached 70 miles per hour but Sergeant Straka halted before state safety patrolmen and sheriff's deputies could join the chase.

The detectives told Patrolman Campbell they had been chasing another car. The officer did not ticket them.

Nursing Home Group Picks Dahl

Scottsbluff (AP) — The state association of the American Home Nursing Association elected Clifford M. Dahl of Wayne as president.

Harry Sprague of Red Cloud, was named first vice president and Helene Phillips of Chadron was chosen second vice president.

Sister Anthony Jude of Kearney was named secretary and Norman Peterson of Omaha, treasurer.

Final Tribute Is Paid Sen. Adams

Omaha (UPI) — Friends and associates paid final tribute Wednesday to state Sen. John Adams Sr.

Governor Morrison led the list of state government officials and senators attending funeral services for the veteran lawmaker, who died Saturday at the age of 78.

Sen. Adams, who was seeking his 8th term in the legislature, was its only Negro member. Because ballots already have been printed, his name will appear as a candidate on the May 15 primary ballot in his district.

Survivors included his wife, Hattie, and 3 sons. Sen. Adams was a minister of the African Methodist - Episcopal Church.

Outboard Marine Sales, Profits Up

Lincoln Star Special

Waukegan, Ill. — Outboard Marine Corp. announced Wednesday that net earnings for the 3 months ending March 31 were 52% ahead of the same period last year, while sales were up 12%.

Earnings were $2,035,689 or 26 cents per share on sales of $39,793,229.

For the first 6 months of the company's fiscal year, sales are up more than $4½-million. Earnings in the 6-month period are $551,392, compared with a $112,818 loss a year ago.

Outboard Marine directors declared a cash dividend of 20 cents per share payable May 25.

Report Says Lincoln Has Fewer Liquor Licenses

The City Council is studying a report showing that Lincoln has fewer package liquor licenses per capita than other Nebraska cities without liquor-by-the-drink.

Mayor Pat Boyles said Wednesday that the council probably will discuss the report in the near future.

The council recently enlarged the downtown police foot-patrol area in which liquor stores may be located, but made no more to increase the number of stores, as has been urged.

1940 Ratio

An unsuccessful package liquor applicant recently charged that the number of licenses has been limited to a 1940 level even though the city's population has substantially increased.

The study, prepared at the council's request, shows that Lincoln, with a population of 128,521, has 35 package liquor licenses — a ratio of one for every 3,672 persons.

The ratio for other cities used in the study ranges from one license per 1,030 persons to one per 1,543.

The comparison:

	No. of licenses	1960 Census	Ratio (One license per Residents)
Beatrice	8	12,132	1,517
Fremont	13	19,698	1,515
Grand Island	25	25,742	1,030
Hastings	18	21,412	1,090
Kearney	10	14,210	1,421
York	4	6,173	1,543
Lincoln	35	128,521	3,672

City officials said Omaha was not included because the city has liquor-by-the-drink licenses.

Only Package Stores

The larger Nebraska towns with only package licenses, the same as Lincoln, were used in the study, they explained.

Efforts to put the liquor-by-the-drink issue on the November ballot are anticipated.

A Lincoln group spearheaded a referendum move for a May vote, but later indicated a November vote would be sought because the urban renewal issue is appearing on the May ballot.

E. L. Perry, 54, Holdrege Lumber Dealer, Is Dead

Holdrege — Ernest L. Perry, 54, owner of Perry Lumber Co., died Wednesday.

Funeral services will be 1:30 p.m. Saturday at the First Methodist Church. Burial will be in the Prairie Home Cemetery.

Past president of both the Lions Club and the Chamber of Commerce, Mr. Perry was a member of the Holdrege Masonic Lodge and the Methodist Church. He was a scoutmaster in the Bertrand-Cambridge area for 13 years.

Survivors include his wife, Evelyn; son, Bill of Holdrege daughters, Mrs. Art (Francie) Bates of Goodwell, Okla., Mrs. Lynn (Karen) Ulrich of Manhattan, Kan., and Mrs. Gary (Merry) Johnson of Lincoln; brothers, Robert and Arthur of Lincoln; sisters, Mrs. Lila Watkins of Lincoln and Mrs. Louise Mulliner of Holdrege; mother, Mrs. E. B. Perry of Lincoln; and 8 grandchildren.

Practicality And Choice

By WILLIAM O. DOBLER

We have said that it is not impossible for people to be opposed to urban renewal. It is true that the federal government is involved and some may oppose the plan for this reason alone. We find it difficult to subscribe to such a philosophy under the national circumstances we face and the extent to which federal aid already pours into Nebraska but if you are against anything in which the federal government is involved, your vote will be against urban renewal.

If you are wavering on this question, you might keep in mind that, for one thing, you are paying the federal bill for urban renewal and all you do in voting against the program is deny yourself a share in the contribution you have made. Secondly, the federal government is no monster; it is the representative of all the people of the nation and is no more inherently evil than is your city, county or state government. Thirdly, in urban renewal the federal government has entered a field of activity with which cities have found themselves incapable of dealing — the basis on which even the most ardent conservatives grant the federal government justifiable cause for action.

Confidence In Officials

But what about some of the absurd and extreme claims that are being made against urban renewal? It is not impossible that the program could result in graft, corruption and profiteering. It is not impossible that property could be taken without cause and perhaps even without just compensation.

It is not impossible that a city inspector could be an unscrupulous person and rob or attack someone found unable to protect himself. You can, in fact, conjure up the worst evils you can think of and many of them would be a possibility under urban renewal. Use your imagination and the possible ill effects from the program are practically endless.

★

But what would it take for this to happen? It would require complete dishonesty on the part of the City Council, the authority, the federal government and the courts. Somehow or other, it is a little beyond us to see the likelihood of this happening. Could the authority go in wherever and whenever it pleased and kick people out of their homes and take their property? It could if it could get the City Council to agree to this, could get the federal government to go along and could talk the judges in our state courts into approving. In all, for these drastic things to happen, it would take a gigantic conspiracy on the part of hundreds of dedicated and trustworthy public officials and this just isn't in the cards.

One might just as well say that we should drop the building code requirement on inside plumbing because it is a drastic scheme to flood all the homes in Lincoln and thereby create a bonanza for the home-decorating and furnishing people. To go along with the wild ideas that are suggested on urban renewal is also to assume that the vast majority of builders, developers, realtors and other businessmen in Lincoln are crooks and cheaters. This, too, is a little too far-fetched for us to swallow. And where would the general public and the press be when all of this was going on? Obviously, the wholesale denial of people's rights simply could never take place.

★

Nor would anybody ever wake up some morning to find that the government had suddenly taken over his property. The public hearings at the various stages of each and every individual urban renewal project are so extensive that the situation might almost be classed as red tape. In essence, the protection of the public is so elaborate and certain that it could not be improved upon.

We are quite certain that in this series of four articles, we have not answered all the questions of all the people. There will remain some fears, some misunderstanding and some lack of comprehension. But we have tried to foresee every element of any consequence in this program and explain it to the best of our understanding.

The program has been heartily endorsed by a vast number of public officials and people in private life whose concern for their community is beyond reproach. Where our explanation has failed, it is hoped that the people's confidence and faith in their own elected officials will reassure them and that they can find comfort in the dedication to this program of individuals with long and outstanding records of community service. Lincoln is not going to be dead without urban renewal but what is the question all of us must ask ourselves? It is not how little we can get by on, but rather, how much we can accomplish.

Government's Role

With urban renewal, we can accomplish a great deal. We can give Lincoln the tools it needs to guide the future of the city toward a greater prosperity and a happier way of life for all its citizens. With urban renewal we can look with pride for great achievement. Without, we can view with shame or indifference a state of physical decay, human degeneration and waste of our God-given resources.

"If Theah's Anythin' Ah Like, It's A Good Joke"

DREW PEARSON

Minute Men Fight Arms Record Bill

WASHINGTON — Congressman Victor Anfuso, New York Democrat, is the latest target of the gun-toting "Minutemen" and the other extremist lunatic fringe groups. They have been bombarding Congress with letters opposing a bill by Anfuso that would require private individuals to register firearms with the FBI.

Actually, Anfuso's bill is primarily intended as a measure against juvenile delinquency and to combat the increasing wave of crime in our large cities. However, super-patriots, such as the "Minutemen," who use firearms on so-called "military maneuvers," also would have to register if Anfuso's bill becomes law.

"The alarmists who oppose my bill apparently do not want to help the country solve our growing crime problem," says the Brooklyn congressman.

Besides the "Minutemen," others who are taking a prominent part in the organized crackpot drive against the Anfuso bill include such ultra-right wingers as Dan Smoot, the former McCarthyite pamphleteer of Texas, and Merwin K. Hart, president of the extremist National Economic Council.

In a "council letter," dated April 1, Hart ranted: "Any congressman or senator who votes for the Anfuso bill knowing its real purpose would disqualify himself from ever again expecting to be called an American."

☆ ☆ ☆

Charlie Meriwether, whom the first Catholic president appointed to the Export-Import Bank, though he is the friend of Imperial Wizard Bob Shelton of the Ku Klux Klan, is now back in Alabama electioneering.

Charlie is supposed to pass on bank loans by one of the most important government banking institutions in the world. But twice he has gone back to Alabama to throw a monkey wrench into politics.

The first time, he turned up in Mobile to try to defeat Charles Trimmier, the forthright preacher who blocked a highway appraisal award of $180,000 to Bill DeLaney, friend and financial backer of Gov. John Patterson. After Trimmer intervened to expose the deal, the appraiser gave DeLaney $1.

Trimmer later ran for city commissioner, and Meriwether came to Mobile to defeat him. He failed. The people backed Trimmer.

Right now, Meriwether is backing MacDonald Gallion, Alabama attorney general, in the red hot race for governor. This time Meriwether has lined the Alabama liquor agents on the side of Gallion —Meriwether having appointed many of them when he was No. 1 political operator for Gov. Patterson.

Despite this, however, Meriwhether is slated to have his candidate lose again. Ex-Gov. Big Jim Folsom and Judge George C. Wallace will lead the first round of Alabama primary.

JOSEPH J. MOLNER, M.D.

To Your Good Health

"Dear Dr. Molner: I wonder if the trouble that I have had for seven or eight years is a histamine headache. It is always on the left side, close to my eye. It occurs about once a week or so. The eyes appear reddened and look bad during the headache. These nearly always begin at night, around 2 to 5 a.m., and continue until 2 or 3 in the afternoon. I take aspirin but don't know if it does any good. If it is a histamine headache, are injections necessary for each attack, or could it be cured completely? — Mrs. E. H."

Dr. Molner

That's a good description of the histamine type of headache — one-sided, localized behind the eye, eyes red and watering, onset of the attack coming at night.

The headache is the body's reaction to its inability to tolerate the release of histamine by the body's cells. It is a reaction which occurs in some people, just as others may react by having "hay fever" when pollen causes liberation of excess histamine.

The treatment for histamine headaches is a desensitization process — injecting very dilute amounts of histamine, giving the system a chance to develop more tolerance to it.

Then the amounts are gradually increased until the body can tolerate, with having a headache, the quantities of histamine that are encountered.

No, you do NOT have the injections at the time of each headache. By the time the headache has started, it is too late. The purpose is to prevent, not cure, the headaches.

It may, of course, be necessary to repeat the course of treatment if histamine tolerance declines and the headaches start again.

☆ ☆ ☆

"Dear Dr. Molner: I have a 14-year-old daughter who uses so much black pepper I'm sure it will harm her. When she has an egg you can't even see it for the seasoning. — Mrs. J. L."

Pepper, cinnamon, horseradish — all the condiments add piquancy to food in appropriate amounts. Overused, they destroy flavor. Most condiments, in excess, can cause some irritation of the stomach, especially black pepper.

Your daughter has a distorted sense of flavor. Probably she'll get over it—and it's not unlikely (this is characteristic of teen-agers) that she's using more pepper than she really wants or likes, just because you tell her not to.

☆ ☆ ☆

"Dear Dr. Molner: Please explain what is meant by a 'leaking heart valve,' which I am supposed to have. Is it serious, and what is the treatment? — E. L."

Its seriousness depends on how leaky it is.

And I don't think you are wise in saying that this is what you are "supposed to have," because we don't have to "suppose" such things. We can tell with precision.

To explain, let me start with some fundamentals: The heart is composed of four separate chambers, all surrounded by the heart muscle. When the muscle contracts, the chambers are compressed. When the muscle relaxes, the chambers expand again.

Basically, that's how the heart works.

The chambers are connected or separated by valves. They are one-way valves. When the muscle contracts and exerts pressure, blood is forced forward through the valves, from one chamber to the next (and through the lungs to pick up fresh oxygen).

When the heart muscle relaxes, blood can't, or, at least, should not be able to flow backward through the valves; because they are one-way valves, they close. More blood is drawn into the heart, but it is drawn from the veins. The blood, in short, has to flow in one direction — always.

So what's a leaky valve? It's a valve that doesn't close quite tightly enough. When it closes, it still permits a little blood to flow backward through the valve. The chamber to the rear of the valve accepts some blood from each direction, instead of accepting it from only one direction.

The seriousness depends on the extent of the leak. A little leak can be tolerated. A large leak can be serious.

Your doctor can tell you how serious your problem is. Heart surgery sometimes is the only recourse for a badly leaking valve. If the leakage is minor, the correct thing is to see that the heart is not placed under undue strain; and to protect yourself against infections (streptococcus is what I mean), which might inflame the valve and cause increased leakage. Strep infections, which may lead to rheumatic fever, are the greatest cause of defective heart valves. The happy fact is that we can now use long-lasting antibiotics to prevent further infections in a person we know is subject to that sort of trouble.

Dr. Molner welcomes all readers mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Issue Is Reform

Currently in the Argentine the military authority seems to be succeeding in its effort to erase the electoral gains made by the supporters of the deposed Dictator Juan Peron. This movement is baffling here where in terms of democracy Peron has an exceptionally bad name.

It remains a question just what is going on in Argentina. But some light may be shed on it by a dispute between John W. Culver, historian at the Case Institute of Technology, Cleveland, and German Ornes, editor of El Carib, Santo Domingo, Dominican Republic. They clashed at the 15th annual conference on World Affairs at the University of Colorado.

To the editor the Argentine case is one of the army using Peronism as an excuse to get control of the government. But the historian countered that the Peronist influence is rising because its replacement government failed to carry through its promised democratic reforms.

Sen. Ornes sees dictatorship returning to Latin America. Prof. Culver said that need not be provided the so-called democracies cease trying to put the people "back in their place," and turn to their real duty of meeting the people's rising expectations. There is the ingredient of truth in that. Peron was a black despot, an exploiter of the public treasury, a pro-Nazi and an ugly force in terms of western hemispheric relations. He was also a demagogue. But the affection that remains for him, overlooks his evils, because he actually did foster an easier life for the many. That is what they cannot forget. He inaugurated sufferage for women, economic social and political welfare for the Indians and more generous working conditions for labor. The fact that he robbed from Peter to pay Paul and built on a basis that was neither just nor sound is of record. This does not prejudice his case among his aficionados because it was the reforms rather than his person that were dear to their hearts.

Mount Vernon Vista

Defenders of the spirit of Mount Vernon have struggled manfully against the construction of a sewage disposal plant on the Maryland shore just across the Potomac and the back lawn from which George and Martha Washington used to enjoy the deep, sweeping vista of their new independent country.

The defenders, together with any number of their fellow Americans cannot reconcile themselves to the idea that a disposal plant would be the right thing to show to the shades of George and Martha just how far this great nation has come. If anything has to interfere with the view it should be something of more noble symbolism. But better nothing of that sort.

A month ago it appeared that the defenders had won out. Two far-sighted citizens, Rep. Francis Bolton, of Ohio, and a Dr. Henry G. Ferguson, acquired about 500 acres of the threatened shoreline and offered it to the federal government, provided it bought the remaining 600 acres, thus preserving the original view forever. The House of Representatives, which this current session is not distinguishing itself in terms of statesmanship, disallowed the needed appropriation.

But there is still a chance. A Senate committee has in hand a bill which would accept the private grants and add enough public money to save the land. A public expression would aid passage.

Council, Authority Ducking

Nothing has been solved with a City Council compromise of the zoning dispute near the Muncipal Airport. Abel Construction Co. owns a 14.5-acre tract of land in the path of the proposed new airport runway. If it is permitted to move its heavy industrial operations there to an 8.8-acre tract to the south, it and the Burlington Railroad say it will cost the Airport Authority $50,000 less to get the runway land it need.

Abel wants $125,000 if he gets the south land use he wants but $165,000 if he doesn't. Apparently, the Burlington is also willing to settle for about $10,000 less if Abel, a good customer, gets what it wants. The Burlington is being required to move certain trackage located in the way of the proposed runway.

Yet, the Burlington and Abel deny any deal has been made between them to pressure the city and authority into what they want. Airport Authority Attorney Chauncey E. Barney says there is "no deal with Abel. The authority has only the selfish interest of saving the taxpayer's money."

Such statements are pretty hollow in view of the facts Abel wants to be paid $125,000 for land zoned as AA Rural and Public Use on which the company is illegally operating heavy industry. It wants to be paid $125,000 for 14.5 acres of land when it purchased 12.97 acres of it June 3, 1959 for the huge total of $7,450. And to boot, it demands that the city give it a land use to the south in violation of the city's existing zoning law and comprehensive plan.

If that isn't a deal for Abel, we never saw one. Can anyone go upon land and make whatever use of it he pleases and then be paid a handsome price for the illegal use he has established there? If that represents the selfish interest of the taxpayers, then the taxpayers don't know their own names. It is our opinion that the City Council doesn't even know the facts in this case and that the Airport Authority is so careless and irresponsible that it doesn't give a hang about the money it spends.

Colorado GOP Will Challenge Carroll

WASHINGTON — Colorado has been added to the several mountain states where a hard-fought liberal-versus-conservative Senate race will take place this fall.

The liberal is the incumbent, Democrat John Carroll, who made it himself on his third try in 1956 by defeating President Eisenhower's close friend, Gov. Dan Thornton. His challenger is Rep. Peter Dominick, who swept into the House in 1960 from a swing district in suburban Denver after a vigorous campaign along orthodox Republican lines.

Carroll is 61, Dominick 47. Carroll's career at the polls has been checkered, but his views have been consistent. Dominick is a transplanted easterner, with roots in the rich soil of Wall Street, who came to Denver after Yale college, Yale Law school and honors gained in the World War II Air Force.

Democrats would normally worry about Carroll because he is a prickly character who finds it hard to forgive his political foes within his party and to take advice.

☆ ☆ ☆

With the rise of President Kennedy's fortunes west of the Mississippi, it is believed that the chances of every Democrat, Carroll included, have improved. Republicans still say he will be one of their major targets.

Dominick's career in Washington has been too short to give much of an idea of how he might operate in the Senate. He admits that he seeks to move ahead rather fast but points out that he could hardly run against the senior senator, Gordon Allott, and must take the current when it serves.

While he declines to line up behind any presidential hopeful at the moment, his House campaign suggests his thinking. He says he attacked the incumbent, Rep. Byron Johnson, for favoring the admission of Red China to the United Nations and voting against Defense Department appropriations.

☆ ☆ ☆

He will charge Carroll with favoring centralized government and voting 100 percent "The ADA Way." Reminded that Americans for Democratic Action are a shabby tiger today, Dominick replies that their voting index is significant.

Generalizations are unwise in any state situation, and the Colorado conditions are not yet clear. Neither Carroll nor Dominick have any real opposition for their party nomination. Democrats point out that Carroll always comes up fighting. Republicans recall that Dominick was "a real torpedo" in his House campaign.

Gov. Stephen McNichols, Democrat, will run for reelection on a balanced budget combined with a record of state improvements. This would help the whole ticket. The state has a way, however, of changing hands in unexpected ways and places.

Your Four Cents Worth

Brevity in letters is requested, but length in itself will have no bearing on publication. Writers are advised that needless details and repetitious matter will be edited out of letters. Too frequent contributions from one person on the same subject may be rejected. All letters must be accompanied by writer's true name but may be submitted for publication under a pen name or initials. However, letters will be printed under a pen name or initials only at the editor's discretion.

Urban Renewal

Lincoln, Neb.

One of the advocates or urban renewal explains that the proposed program is not a federal program; "private enterprise would be responsible for at least three steps out of four."

This is correct. The law permits the authority to take your property, clear it by use of local bulldozers and sell it to a private investor. He can develop it into anything from a parking lot to the site of a skyscraper apartment house, so long as the authority declares that the development is for the public good. Any profits that accrue from the development are also local. They belong to the developer, not to the rightful owner of the land.

You get paid "a fair market price" for the property that is taken from you. But when you try to buy elsewhere, you find that prices have gone far beyond the amount you received. If you belong to a minority group, you may have trouble buying anywhere because of race prejudice and the famous "gentleman's agreement" of the real estate dealers.

If you must seek another suitable location for the little business that now brings in your living, you will suffer heavy financial loss before you find it and begin to earn expenses again. The authority may suggest a new location and help you move; but there is no compensation for loss of business income.

Furthermore, private enterprise may mean a resident of Lincoln; it may also mean a firm of professional developers from Chicago or St. Louis.

WINNIFRED LEWIS

☆ ☆ ☆

The Extremes

Lincoln, Neb.

Under urban renewal, not only can dilapidated structures in a given area be condemned, but vacant lots and older buildings in good repair can be foreclosed also—in short, everything goes if the authority so desires.

READER

Editor's Note: The above letter is technically correct. It should be remembered, however, that the writer is speaking of going to extremes and this the authority would have a difficult time doing even if it so desired. It can proceed only in accordance with a previously approved plan which has met the approval of the federal government and City Council and which has been subjected to a series of public hearings. There is no government at any level that could not play havoc with the people's rights and the public welfare if it were so sinisterly inclined and so unresponsive to its public service responsibility.

☆ ☆ ☆

Evil Days

Bladen, Neb.

It is alarming to see what this world is coming to. The cities are a clatter. It is "dodge this" and "dodge that" and there is no pleasure in a city. On the roads there are too many large trucks of all kinds. They raise dust in the air until a person cannot see. This hauling of produce should be left to the railroads. The railroads were established in the early days for this purpose and should be kept as such. There is no better systen than hauling in boxcars on rails.

Millions are asked for the defense of our country. European countries are all lyling in waste. Whom are they going to prepare for? We have had three big wars and it is time to disarm. We were all born equal and all have the same right to live. The Lord has allotted our days and no man has the right to destroy life.

DORA CATCHPOOL

☆ ☆ ☆

Monarchy

Hastings, Neb.

When one tramps on the toes of the steel trust, immediately there comes a cry from the Republican party. Under the guise of "free enterprise," steel felt itself more powerful than the United States government and the people in it. It had assumed a monarchial attitude. Let Abraham Lincoln speak on the subject of monarchy. He saw what was coming a hundred years ahead of his time.

"Monarchy is sometimes hinted at as a possible refuge from the power of the people. In my present position, I would be surely justified were I to omit exercising a warning voice against returning despotism. There is one point to which I ask attention; it is the effort to place capital on an equal footing with, if not above labor in the construction of government. I bid laboring people beware of surrendering a power which they already possess and which, when surrendered, will surely be used to close the door of advancement to such as they and fix new disabilities and burdens upon them, till all of their liberties shall be lost."

Thus spoke the patriotic Abraham Lincoln to our Congress in 1861. With the steel trust defying government pleadings through President Kennedy, a monarchial form of government would have been reached. But he met the challenge and democracy still lives.

Senator Adams

Lincoln, Neb.

The demise of Senator John Adams, Sr. of Omaha finalizes the loss of the Unicameral's greatest humanitarian. His dedicated presentations will continue to echo and re-echo in the halls of legislative immortality. Only an official truly devoted to Nebraska and its citizenry could by virtue of his own initiative and integrity accomplish so much in their behalf.

LEO N. BARTUNEK

Off THE RECORD — By Ed. Reed

"I'm a trusty."

LIFE BEGINS AT FORTY:

Her Husband Still A Go-Getter At Age Of 74

By ROBERT PETERSON

Q. "I'd like to brag a little about my 74-year-old husband. When he was forced to retire at 65 he got a job selling roofing materials and averaged $150 a week. At 70 he and an old crony started a roofing supply business which they recently sold for $8,000 profit. He thought he'd retire but instead took a selling job at a branch appliance store and last week was made manager. If he can do these things why can't other older men?"

A. You seem to be married to a superman—blessed with a rare combination of health, drive, and imagination which few men can claim. His story shows that while age imposes limits for many of us, some elders seem impervious to time and remain active and productive well into the retirement years.

Q. "We're in our 40s and worried by my father who insists on living alone in a small house. He's 80 and forgetful. Last year he left some food unattended on the stove and it boiled over starting a fire. He often loses his key and has to break a window to get in. He was downtown recently, forgot the way home, and the police had to call us to come get him. What should we do?"

A. When elders can no longer care for themselves it's best for all concerned if they're placed in a residence for the elderly which offers protective care.

Q. "My husband is 74, in fair health but does nothing except watch Westerns on TV. He won't go anywhere and doesn't want company. He accuses me of nagging if I so much as suggest he change his shirt or go to the store. I've tried to change him but he hasn't acted like a normal human being since retiring 3 years ago. What can I do?"

A. Sounds like he's one of those lost souls who doesn't want to be helped. If you've done all you can to rehabilitate him, I suggest you leave him with the cowboys and settle down to finding some retirement fun on your own.

Q. "My mother, 72, lives alone, has enough funds and fair health, but eats less than her cocker spaniel—some toast for breakfast, a sandwich for lunch, and maybe a bowl of soup for dinner. She says this is all she wants. I've talked with a dietitian who tells me this doesn't begin to add up to a balanced, adequate diet. What can I do?"

A. Stop worrying. Older people have widely varying needs depending on their body types and physical activity. Until more is known about nutritional requirements it appears that appetite is a fairly sound guide to bodily needs. Most elders desire much less food than younger people because they're less active. And most elders have eating habits which they're not likely to change unless someone comes in daily and cooks for them.

If you would like a booklet "Basic Health Rules for Older People" write to this column c/o The Lincoln Star, enclosing a stamped, self-addressed envelope and ten cents to cover handling costs.

U.S. TO TRIPLE ICBM FORCES

New York (AP) — Gen. Thomas P. Gerrity, head of the Air Force's ballistic missiles program, said "this year we will triple our operational ICBM force and in 1963, we'll triple it again."

Addressing a luncheon at the Overseas Press Club, Gerrity described 1962 as "the year of the big pay-off" in development and availability of intercontinental ballistic missiles.

Starting the missiles program 5 years after the Russians, he said, within a decade "we have wiped out the discrepancy between our missile forces and those of the Soviet Union."

ANGEL

By Mel Casson

"She won't let me touch her unless I dress up like the doctors on TV!"

Only A Visitor

Bardstown, Ky. (AP) — The composer of "My Old Kentucky Home," Stephen Foster, was a native of Pittsburgh, Pa. Foster was visiting a relative in Bardstown when he wrote the song in 1852. He composed the song in the spring house and later went into the home to jot it down.

Morrison Praises Committee On World's Fair Fund Drive

Gov. Frank Morrison expressed pleasure Tuesday with the activities of the Nebraska Day committee, particularly with the fund raising campaign to support the state's program at the World's Fair in Seattle May 25.

Although only $3,105 has been raised to date Morrison said, "with more than a month to go I am sure we can depend on the generosity of our fellow Nebraskans in donating to this campaign to promote the state."

He made his remarks after receiving an interim report from committee chairman, Maj. Gen. Lyle A. Welch.

"I am looking forward, as I know many other Nebraskans are, to Nebraska Day at the World's Fair. It will be a pleasure and a privilege for me, representing all Nebraskans, to take part in this program which honors our state," Morrison said.

The governor urged all Nebraskans to help insure the campaign will be a success and he asked as many as possible to make the trip to Seattle for Nebraska Day there.

Water Still Springs

Salem, Mass (AP)—A spring that supplied the Indians is still producing the purest of water here.

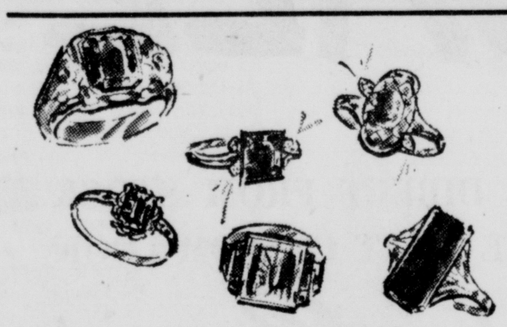

Public Property Supt. John J. O'Rourke says the spring has been on Park Department land "as long as anyone can remember."

The spring has been piped to facilitate filling jugs. People come from miles around daily to get their supply.

Agriculture PR Group Announced

Gov. Frank Morrison Wednesday announced the appointment of 13 men and two women to the permanent committee on public relations for agriculture.

The new committee will carry on the program initiated by the interim committee appointed last October.

The interim committee's program led to a conference March 28 which drew 200 persons, including representatives from Iowa, Illinois, Missouri, Oklahoma, Colorado and Kansas.

Members of the permanent committee are:

William E. Colwell, Hay Springs farmer and rancher; William Waldo, De Witt farmer; Bruce Russell, Farmers National Co., Omaha; Jack Hart, editor of the Lincoln Journal editorial page; Marvin Russell, editor of the Nebraska Farmer; Jack Gilbert, manager of KHOL-TV in Holdrege; Mrs. Robert Clifford, ranch wife, Atkinson.

L. G. Hawley, Safeway Stores, Omaha; Carl Bruns, Chappell farmer; Elvin F. Frolik, dean of the University of Nebraska College of Agriculture; Mrs. Tracy Van Camp of Kearney; Norman Otto, the governor's administrative assistant; Albert Ebers, Seward farmer; LeRoy F. Barry, secretary of the Midwest Farm Equipment Dealers Association, Omaha; William Young, Cozad banker; Melvin L. Hansen, vice president, Travel & Transport Co., Omaha.

The objective of the public relations program is to create a broader, more accurate and more appreciative public understanding of agriculture, its accomplishments and its importance to the economic and social structure of the nation.

Sen. Proxmire Denies Farm Bureau Claim

Sen. William Proxmire, D-Wis., said that he is a strong supporter of the Kennedy administration's bill on medical and hospital care for the aged and denied a charge by the Nebraska Farm Bureau Federation that the program is too costly.

At the same time, however, Proxmire agreed with the contention of the bureau that the bill would probably be amended later to include persons under the age of 65.

"The bill already has provisions for persons 62 years of age or over to receive reduced benefits," Proxmire said.

Levels Challenge

The Wisconsin Senator challenged figures given by the federation which indicated the program would cost about $22.5 billion a year.

He said, however, that whatever the cost, it will be borne by the people who will benefit from the bill and will not be a part of the federal expenditures.

Proxmire also denied a charge made by columnist Drew Pearson that he gave Sen. James Eastland (D-Miss) a free rein with his proxy vote in the Senate Agriculture Committee a few days ago.

Proxmire said that Eastland took the proxy with the understanding that it would be used only if certain proposals which had been withdrawn from the bill earlier were reinserted during his absence.

Not All Chicks Drunks

Washington (AP) — Teetotaler baby chicks — and some that got drunk on beer — indicate that body chemistry may make some people alcoholics, a Texas scientist suggested Wednesday.

Dr. Roger J. Williams of the University of Texas, Austin, told about it in a report to the 99th annual meeting of the National Academy of Sciences.

He said studies at his laboratory and elsewhere indicate that among both experimental animals and human beings, individual specimens are far from uniform — either anatomically, physiologically or in body chemistry.

And the newest idea, he indicated, is that individual differences in body chemistry and in anatomical features might contribute to differences in behavior — for example in how one reacts to alcohol, or whether one has a liking for it.

Even in inbred animals — that is, offspring of brother and sister matings — individuality is exhibited, he said, adding:

"Baby chicks from inbred strains differ from each other about 10-fold in their susceptibility to intoxication by alcohol. Their liking for alcohol also varies greatly, so that some, if given access to a synthetic beer — 4% alcohol — will remain intoxicated most of the time, while most will not drink enough to be affected."

But some chicks, he said, are virtual teetotalers. In the tests with the laboratory-brewed beer, said Dr. Williams, some of the chicks left it alone "practically entirely."

He also said tests with young inbred rats show they vary greatly in their food choices. For example, "if given a cafeteria selection of meat, carrots, salt, butter, sugar and fortified yeast, some rats will eat seven times as much butter as others; some will eat 17 times as much sugar as others . . ."

Declaring that in both animals and men, weights of individual organs, such as the stomach, liver and kidneys may vary from individual to individual even though their overall weight might be the same, the scientist said the alcohol and food tests with the chicks and rats suggest the following:

"It seems probably that the differences in organ weights and endocrine (body chemistry) activities are related to these behavoral differences."

He said that aside from the possibility that individual biochemistry may play a role in whether one likes to bend the elbow, "biochemical factors may often be involved in (individual) susceptibility to diseases — and these would be subject to modification nutritionally or by the use of other chemical agents."

He said researchers Richard B. Pelton and Frank L. Siegel collaborated with him in the studies.

Planners Nix Tavern Zoning

The City-County Planning Commission Wednesday unanimously recommended denial of local business zoning for the southeast corner of 22nd and P, proposed for a beer tavern and restaurant.

In requesting the zoning change, Atty. Leonard Dunker advised that the 3 dilapidated houses on the lot would be razed and a one-story brick building erected.

Dunker represented Mr. and Mrs. Ted Franks, owners of the property now zoned multiple-dwelling, and Mrs. Vivian Robinson, beer license holder at 223 No. 9th.

Several neighborhood residents appeared in opposition to the zoning change as permitting intrusion of business, and particularly a beer tavern, into a residential area.

A petition with 67 signatures was also submitted in opposition.

"Nobody is going to build houses at this location," Dunker told the commission. "This location is part of the police foot-patrol area recently enlarged by the City Council and within the district in which beer and liquor licenses may be granted."

He pointed out there is a liquor store within 50 feet of the proposed tavern location.

The commission approved "A-1" single-family zoning for for the 123-acre Wedgewood Manor First Addition and gave conditional approval for development of the proposed 340-lot subdivision under the community unit plan.

The plan and preliminary plat was approved subject to the lots averaging 9,000 square feet by actual measurement.

Developer Ervin Peterson was advised the subdivision would require an estimated $78,000 storm sewer, of which the city's share would be $11,400.

The subdivision is located on A between 70th and 84th, just east of the Seacrest Field and Seacrest Park sites.

The commission also:

—approved light industry zoning for a 1.3-acre tract on the south edge of Walton, adjoining railroad trackage, for the Farmers Union Co-op of Walton.

—denied restricted commmercial zoning of the northwest corner of 14th and F, now owned by the Bethel Baptist Church, but proposed for an insurance office.

—approved light industry zoning for a 25-acre tract at the northeast corner of Van Dorn and Folsom except for portions now zoned local business. Property owners are T. Clement Gaughan and Ed Barry.

—approved highway-service zoning for a tract at the east-bound crossover between Interstate 80 and West O on condition that the proposed highway-service district ordinance is approved by the City Council. Property owners are Mr. and Mrs. R. W. Smith.

—strongly recommended that the council direct the building inspection and health departments to enforce all provisions of the building and minimum housing codes against all structures.

Lawrence Smith Heads Optimists

New president of the Gateway Optimists is Lawrence P. Smith of 6051 Meadowbrook Lane.

Smith

Other officers are Bob G. Huber, first vice president; Robert H. Wise, second vice president; and Glenn Stippich, Charles Rudge, Jesse Carbaugh and Herbert Phillips, members of the board.

Don Tudor and Edward Lehnert are hold-over members of the board.

Professors Will Determine Regional TV Library Needs

A "task force" of University of Nebraska education professors will determine regional educational needs for the newly established Great Plains Regional Instructional Television Library.

At a special policy-making conference at the Nebraska Center Thursday, it was decided that the professors will investigate the situation immediately.

"We have to get the ball rolling," said Jack McBride, director of the university's television station.

McBride, who advises the library officials, pointed out that at least 4 different courses are scheduled to be offered by next fall.

Areas Not Discussed

The areas of instruction have not been formally discussed.

Finance for the library — the first of its kind in the country — comes from a $112,000 contract with the U.S. Office of Education.

Just 3 months old, the library program will serve 12 midwest states.

Officials of the library claim the program will provide "a system of exchange vital to the improvement of education."

But, they are quick to point out that regional education aims are the library's foremost concern.

Topics of national interest will be featured, however.

"Some of our films quite likely will be used on a national basis," one official said.

The officials, who will continue discussion of the venture Friday, announced that private educational school systems will be allowed to participate in the library's activities.

"All they (the private institutions) have to do is contract like public schools," the spokesman said.

McBride told the group that he thought it important "to start this (the library) off right" because it will be made a national focal point.

On hand for the conference were:

Dr. Gale R. Adkins, University of Kansas; Elaine D. Afton, Station KETC-TV, St. Louis, Mo.; Robert Blake, Sioux Falls, S.D. public schools system; Martin P. Busch, University of South Dakota.

Myron Curry, University of North Dakota; James Davis, Iowa State University; Barton L. Griffith, University of Missouri; Dr. F. Claude Hempten, Station KNME-TV, Albuquerque, N.M.; Lorraine C. Jones, Wichita, Kan., high schools; Charles B. Klasek, University of Nebraska; John A. Montgomery, Des Moines public school system.

Dr. Burton Paulu, University of Minnesota; Robert Reed, University of Wisconsin; Robert R. Suchy, Milwaukee public school system; Clair R. Tettemer, Station KTCA-TV, St. Paul, Minn.; Richard F. Vogl, Station KTCA-TV, St. Paul, Minn.; and Gerald J. Willsea, Denver public school system.

Central Evaluation Unit Urged For Retarded

The Governor's Inter-Agency Committee on Mental Retardation has recommended that the state provide a central evaluation center at the University of Nebraska Medical Center at Omaha for the examination and testing of individuals considered to be mentally retarded.

The recommendation was included in the committee's first annual report to the governor.

Nebraska needs a variety of resources for evaluation of these individuals, the committee said.

There should be a chain of such resources, both public and private, backed by a specific evaluation center which is capable of carrying out specific tests and examinations as indicated in each instance, the report continued.

This is especially necessary since the existing center (located at the Nebraska Psychiatric Institute) is being financed by non-state funds which will likely terminate the present services June 30, 1963, the report said.

The committee has recommended also that the Beatrice Home be given priority in bringing its facilities up to minimum standards.

Also recommended were clarification of laws pertaining to the mentally retarded as affected by the 1961 legislative session; elimination of the phrase "of sound mind" from crippled children's laws, and study of laws on committal and of policies governing transfer of patients from one institution to another.

The committee also released replies from education officials in several Nebraska communities concerning an inquiry into the mental retardation problems of the cities and the present needs in that area.

POSTCARD by Stan Delaplane

A quiet day in the mews house on Hasker street, London, S.W. 3. After great research I have found out what a "mews house" is.

"It's flat with a stable or garage underneath."

That is the word from Mrs. Hawkins. Mrs. Hawkins comes to "char." She cleans the mews house which is rented mainly to Americans. Having been in contact with us for some years, Mrs. Hawkins is no longer surprised by ice cream in the refrigerator. Or the fact that I don't know how to run a coke heater.

Amused, maybe, in a resigned way. But nothing surprises her anymore.

☆

I live in fashionable Chelsea district. A sort of Greenwich village. Beatniks and debutantes. Artists, writers and do-nothing International Set.

It is a stylish address. Mews houses, converted from stables, are as "in" as you can get.

Mr. Hawkins has been rocking my day-dream boat.

"I was born near here," she said. "All slum area it was in these houses. Now they've fixed them up and put in toilets and they rent them for fancy prices. A rundown area for the working classes is what it used to be."

OK. So I live in a slum. I live in a stable.

The Duke of Wellington was chided by political opponents for being born in Ireland. The Iron Duke replied:

"Being born in a stable does not make one a horse."

☆

Martin Flavin, playwright, author, Pulitzer prize winner, lives in a stable.

It is a converted stable in posh Pebble Beach, California.

The rich come to Mr. Flavin's stable and "ooh" and "ah."

They wish they could live in a stable, too.

☆ ☆ ☆

I pay a whacking sum for living in a high class stable. But it is worth every farthing of it.

Where I sit, well-bred horses once munched their hay. We have a bathroom in my stable. That is something they did not have when horses lived here.

We also have a coal fire. I imagine the horses just had horses blankets.

☆ ☆ ☆

The elegant thing to do in my elegant slum is to have a "local." A local is the local pub—a bar.

My local is the Queen's Elm. It is in Fulham road. Its habitues are bearded set designers, corduroy jacketed artists, debutantes, dilettantes and passing truck drivers.

The pub has a "public bar" and a "saloon bar." Both are served from the same back bar, by the same bartenders. But naturally, the saloon bar is more posh. (It is, however, very "in" to slum at times in the public bar. A wonderful place for the girls in black stockings and rumpled hair to demonstrate their utter beatness.)

☆ ☆ ☆

The Queen's Elm is run by Mr. Sean Tracy. He is from Limerick, Ireland.

In Ireland, it is the custom of horse trainers to give the horses a pint of Guinness stout with their mash. "Guinness is good for you," say the ads.

It is so good that the trainer usually has a pint with the horse.

Britain's Colonial Office Has Aristocratic Messenger Boy

By EDDY GILMORE

London (AP) — Britain's colonial office has one of the world's most aristocratic messenger boys —a real live earl.

"I had a very strict father," said the 10th Earl of Breadalbane and Holland but I now have a humble job and I'm happy."

His lordly messengership is John Romer Boreland Campbell, 42, cut off in his father's will.

His official seat is Kilchurn Castle in the Scottish Highlands. His background is impeccable — educated at exclusive Eton College and Sandhurst, the British West Point.

A former lieutenant in the famed Black Watch, he was wounded and twice was mentioned in dispatches for bravery in World War II.

Jock — as his friends call him — succeeded to the title when his father, the 9th earl, died in 1959. The father left a will that cut off his son without a penny.

The 10th earl successfully claimed about one-third of the estate. Approximately 18,000 pounds ($50,400) was granted him, but it is being held in trust.

The earl is trying to have the trust revoked.

"It will cost about 100 pounds ($280) to start the case," he explained, "I'm hoping to have enough money saved by the end of the year to see it through."

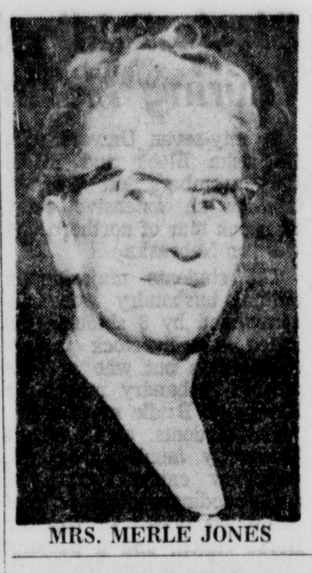

Since his controversies with his father — details of which he refuses to discuss — the earl has worked as a laborer, bartender, doorman and stunt man in the movies.

He's even played the bagpipes professionally.

His colonial office duties are collecting official papers from a central point and distributing them to various offices. For this he is paid 10 pounds ($28) a week.

New Forward Leap

Hong Kong (AP) — A Hong Kong communist newspaper quoted Lim Chuan, vice president of Red China's Naval Institute, as saying Red China now can build its own submarines, surface warships and jet planes. "Today the Chinese Navy is fast growing into a strong and modernized defense force," Lim said.

MRS. MERLE JONES

Jerseys To Cuba

Jersey, the Channel Islands (UPI) — A consignment of pedigree Jersey cattle valued at $14,000 left this British Island for Cuba. It marked the first time Jersey cattle had been shipped to Cuba.

Mrs. Jones Is New President Of Presbyterial

Mrs. Merle Jones of Beatrice Thursday was named president of the Nebraska City Presbyterial Society.

She will serve a 3-year term.

Other new officers and respective positions are:

Mrs. Everett Jones, Beatrice, secretary; Mrs. L. C. Newell, Lincoln, social education and action; Mrs. Robert Smallfoot, Dunbar, national missions; Mrs. Donald Bump, Pawnee City, ecumenical relations; Mrs. George Rieke, Murray, nomination committee; Mrs. Richard Fuller, Lincoln, evangelism; Mrs. W. R. Judah, Hickman, ecumenical mission; Mrs. Lester Eastwood, Mission Creek, vice president; Mrs. Daryl Easley, Alexandria, finance committee; and Mrs. Allen D. Sargent, Falls City, finance committee.

Institutions Budget Workshop Set

The State Department of Public Institutions will hold a one-day workshop on budgeting at the Nebraska Psychiatric Institute at Omaha Thursday, Director George L. Morris reported Wednesday.

He described it as the first in a series of in-service administrative training programs for personnel from the institutions. Superintendents and other administrative personnel from each institution are expected to attend the sessions.

James C. Hodges, assistant director of the Department of Mental Health at Lansing, Michigan, will be a special guest speaker. He will discuss "Program Budgeting — Manager's Panacea or Administrative Gimmick."

Panel Planned

A panel discussion on Nebraska's budget procedures will feature Norman A. Otto, administrative assistant to the governor; State Tax Commissioner Forrest Johnson; Sen. Fern Hubbard Orme of Lincoln, member of the Legislature's Budget Committee, and P. Merle Humphries, assistant state auditor.

Morris will address the group on budget requirements of the Institutions Department.

Penitentiary Warden Maurice H. Sigler will lead a discussion on penal institution budgets; Dr. Cecil Wittson, state mental health director, mental hospital budgets, and Dr. William E. Nutzman, superintendent of the Hospital for the Tuberculous at Kearney, will lead a discussion on developing budgets of other institutions.

Blame Saboteurs

Havana (AP) — The Communist newspaper Hoy said it was presumed that saboteurs set the towering blaze that broke out on scaffolding surrounding the incomplete 20-story National Bank of Cuba.

Grand Island Will Host Bank Meet

Grand Island (UPI) — Federal Land Bank Association managers from central and eastern Nebraska will hold a two day conference here beginning Thursday.

Thomas A. Maxwell Jr., president of the Federal Land Bank of Omaha, will open the meeting. He will review the land bank outlook for 1962 and discuss his upcoming farm credit study in Nigeria.

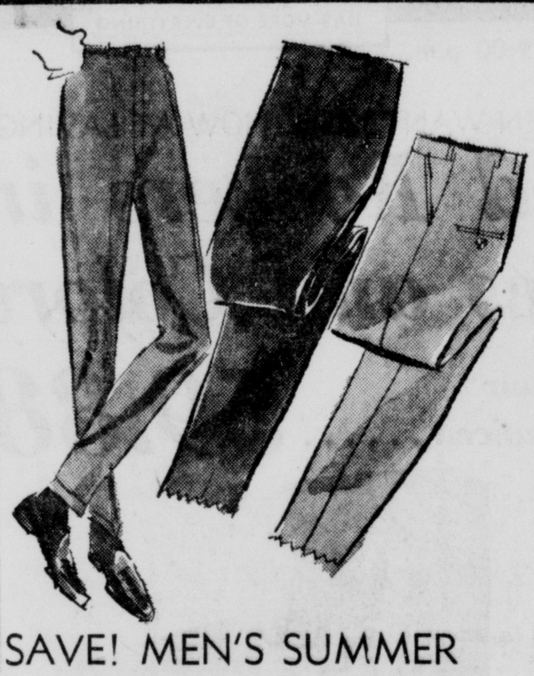

The conference will feature workshops on new business, appraisals, loan servicing and financial operations.

New Oil Reservoirs 'Needed' For State

Sidney (AP) — Nebraska, if it is to hold its place as 14th among the nation's 33 oil producing states, must find some major new oil reservoirs this year, industry observers said.

Though the 25 million barrel production of last year is not immediately threatened, it was said some new reserves would need to be found to replace those fields being depleted, or cut back for engineering studies.

Last year the oil industry spent more than $40 million in Nebraska for leasing exploration, drilling and operating wells, and accounted for $67 million worth of oil being produced.

Industry spokesmen, noting that oil production wasn't really underway in Nebraska until 1949, said that deeper production in thicker formations must be found. These holes should produce 25 years or longer.

D. G. Hamilton, a Wichita, Kan., operator, is looking for such deep production in a series of 17 wildcat tests he plans in Box Butte, Sioux, Scotts Bluff and Morrill counties. If he is successful, he will be the first to establish commercial production north of the North Platte River in the Panhandle area.

New Constitution

Bathurst, Gambia (AP) — A new constitution comes into force Friday granting internal self-government to this West African British Colony and protectorate.

Departing for the tour are, left to right, Alvin Leska, Broken Bow; Herbert Kraeger, Plattsmouth; Bruce Jameson, Weeping Water; and Dr. D. B. Hudman, associate professor of Animal Husbandry at NU.

Block, Bridle Club Members Touring North, West Areas

Twenty-seven University of Nebraska Block and Bridle Club members left Wednesday for an extensive 4-day livestock tour of northern and western Nebraska.

The students majoring in animal husbandry were accompanied by 8 students enrolled in a livestock production course but who are not animal husbandry majors or Block and Bridle members.

The students, along with 4 University faculty members, will view cattle swine and sheep feeding operations, beef cattle ranches, a Quarter Horse ranch, and a packing plant and will tour the North Platte Experiment Station and Fort Robinson Beef Research Station at Crawford. The entire group is traveling by bus, with the tour co-sponsored by the Nebraska Breeders and Feeders Association and the Block and Bridle Club.

Faculty members making the trip will be Dr. Robert Koch, chairman, Dr. Donald B. Hudman and Prof. Richard Warren, Department of Animal Husbandry; and Dan Lutz, assistant Extension editor.

Warm Day Brings Record Water Use

Omaha (AP) —Temperatures which pushed into the 80s Tuesday contributed to a record water useage in Omaha for an April day.

The Metropolitan Utilities District reported Wednesday it pumped 81,580,000 gallons to its customers.

Norfolk Hospital Escapees Held

Omaha (AP) — Two girls who escaped from the Norfolk State Hospital were held here Wednesday.

The two, Virgina Shuler, 22, and Elaine Allen, 19, said they hitchhiked from Norfolk to Valley where they were picked up Tuesday night by two boys and taken to an area west of Omaha.

To escape the attentions of the two youths, the girls then fled screaming. William Andresen, who lives in the area, heard the screams and ran out to see a car pull away at high speed.

The girls were scheduled to be returned to Norfolk Thursday.

In The Lion's Lair

San Francisco (UPI) — The San Francisco Civil Defense office isn't overlooking a possibility. In a survey of 58 potential public fallout shelters, Civil Defense Director A. G. Cook listed the lion's lair at the city zoo.

Newspaper Business Moves Toward Space Age

New York (AP) —The newspaper business moved toward the space age Wednesday.

Newspaper publishers were shown how news stories may one day be relayed at high speed — 1,000 words a minute — through a communications satellite in space.

The demonstration, with a full-size model of the "Telstar" communications satellite, was given at the 75th anniversary convention of the American Newspaper Publishers Association.

Late Spring

The satellite itself, developed by the American Telephone & Telegraph Co., will be launched into space by a Thor-Delta rocket at Cape Canaveral, Fla., late this spring.

More than 1,200 publishers at the convention also were told by ANPA president Mark Ferree of Scripps Howard newspapers, New York, that the association has set up a 3-man scientific advisory committee. The committee will assess ways of adapting the latest scientific findings and equipment to newspaper technology.

Eugene J. McNeely, president of AT&T, narrated the satellite demonstration. A 250-word story was relayed through the satellite model, hung from the ceiling of the grand ballroom of the Waldorf-Astoria Hotel. It was sent between two stations on the ballroom stage.

Added Diversity

McNeely said the use of the satellite simply means "additional diversity and reliability" for microwave techniques his company has used for years with relay towers.

Even without satellites, he said, the world is "pretty well covered" by communications links such as cables and overseas radio.

The satellite model looks like a large white beach ball nearly a yard in diameter. It is spotted irregularly with blue squares, and a "rabbit ears" antenna sprouts from the top. It weighs 170 pounds.

2,500 Words

McNeely noted that at present newspapers can use regular telephone lines to send up to 2,500 words a minute.

Soon, he said, entire newspaper editions will be sent by facsimile from one city to another.

In the future, McNeely predicted, a newspaper's data will be "sent over telephone lines and 'printed' — if that is the word — in many places not now possible."

For One Year

Feree announced that the ANPA Scientific Advisory Committee would work for one year. It will assess new methods and materials, evaluate transmission problems, and review developments by the Defense Department and the National Aeronautics and Space Administration.

Athelstan F. Spilhaus, dean of the University of Minnesota's Institute of Technology, will be committee chairman.

Members will be Trevor Gardner, chairman and president of the Hycon Manufacturing Co., Monrovia, Calif., and Dr. John Pierce, executive director of research-communications principles division, Bell Telephone Laboratories, Murrayhill, N.J.

Dues Increase

He called for a dues increase, primarily to meet the cost of a current expansion of the ANPA's Easton, Pa., research center and to add engineers and other personnel. The expansion will triple the floor space of the center.

Ferree said that newspapers are prepared to use satellite communications "and other increasing opportunities of the space age with the imagination . . . vigor . . . zest . . . (and) daring equal to the splendor of the challenge."

He said those who would "have the public believe newspapers (are) fading away" are irresponsible critics.

Ferree said the newspapers have never shied from constructive criticism. But, he added, "a new stridency has crept into some of the 'professional' criticism leveled at newspapers—something quite the opposite of constructive criticism."

He did not single out any critic.

Moslems Attack Europeans

Algiers (UPI) — Moslem mobs attacked European on the fringe of the Algiers Casbah Wednesday in furious reprisal for a bombing by Secrete Army (OAS) terrorists that killed two Moslems and wounded at least 20 others.

Angry Moslems battered European passersby shortly after an estimated 35-pound explosive charge booby trap in the trunk of a parked car went off in a thronged square in the lower Casbah.

The Moslem mobs beat a European woman with iron bars and dragged her along the ground, then attacked a city bus and severely beat 4 European passengers. They also kicked and pummeled a European youth suspected of being an OAS gunman.

Only the swift intervention of Moslem auxiliary troops and Zouave infantrymen of the French army kept the European victims from being killed in the violence that swirled in and around government square — where the Casbah spills out into the European city.

Paratroopers — the toughest troops in Algeria & cordoned off the lower Casbah section.

The day's terror toll throughout Algeria was at least 24 killed and 40 wounded, raising total casualties since Jan. 1 to 3,931 killed and 8,275 wounded.

The OAS bomb explosion in the luggage compartment of the car was so violent that wreckage and splinters were scattered 200 yards across the square. Shop windows were blasted to bits.

Moslem auxiliary troops guarding the Casbah entrances became suspicious of 3 Europeans who had parked the car and they yelled to Moslems walking in the sunshine to run for shelter.

After the blast, soldiers and police rushed to contain the crowd emerging from shelter.

WEATHER DELAYS ANOTHER X15 TEST

Edwards Air Force Base, Calif. (UPI) — An attempt by the X15 rocket plane to flash to its second fastest speed — 4,020 miles per hour — was called off minutes before air-launch Wednesday because of weather.

The flight was reset by the National Space Agency for Thursday.

Heavy clouds over the foothills of the Sierra Nevada forced the flight with Air Force Maj. Robert White at the controls to be postponed.

Thief Has Pity For His Victim

Someone took the wheels and left the car, a Union College student discovered Wednesday morning.

Roger Frick found his 1955 sedan missing both front wheels outside his dormitory. The front axle was propped up on a rock.

Estimated loss was $35, police said. Frick had only one consolation -- the thief had left the hubcaps.

U.S. Army Field Band Performs At Pershing

The U.S. Army Field Band will give a free concert in the Pershing Auditorium at 8 p.m. Saturday. The program will include popular, military, and semi-classical numbers. Broadway hits will be sung by a soldiers' chorus.

The army band has given concerts in all the 50 states and in 15 European countires, as well as in the Orient.

Tempo Of City Construction Reported Fast

New homes are sprouting at a record pace in Lincoln.

Building permits for 132 new single-family residences totalling $1,692,974 have been issued so far in April by City Building Inspector Ed Vorhees' office.

Additionally, multiple-dwelling permits with a total of 24 living units and totalling $179,783 have been issued.

With 5 days still remaining in April, the construction total is $3,162,138 for the largest April in recent years.

The 1962 construction pace now totals $6,423,969. This is nearly $1 million ahead of the comparable figure for last year, which established an all-time record high.

Residential construction so far totals 388 "living units" as compared with 353 for the same period last year. Last year's final total was 1,228.

Major non-residential construction started in April included the Nebraska Boiler Company plant at 70th and Cornhusker Hwy., $309,700; Delta Zeta sorority house, 2401 No. 51st, $130,000; Homestead Nursing Home, 4735 So. 54th, $282,000, and a new city fire station, 901 No. Cotner, $57,000.

Three new grocery stores were started: Safeway Stores, 1435 No. Cotner, $130,000; Food Fairs, 831 No. 27th, $79,000; and Schrier Bros., 1000 South, $60,000.

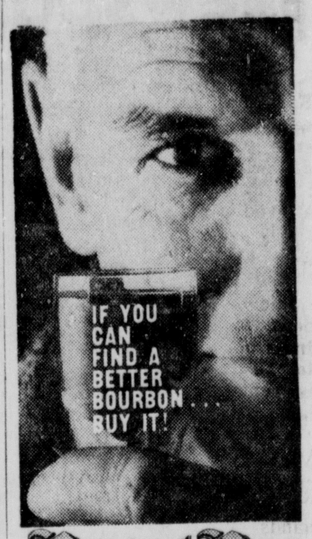

Procurement Meet

Des Moines (UPI) — Top procurement officials from about 40 federal government agencies and prime defense contractors will meet here May 10 for a one-day Midwest industrial procurement session.

Ways Of Luring Industry Topic

More than 30 northeast Lincoln residents have been invited to attend a luncheon at the Colonial Inn Thursday where Chamber of Commerce plans and programs, especially in the field of attracting industry, will be discussed.

Chamber officials who will speak at the luncheon include: Phil Mahoney, chairman of the Lincoln area relations committee, A. James Ebel, Chamber president; John Fraker, executive vice president, and Jim Garvin, industrial manager.

Thwart Soviet Walkout From Disarm Meeting

Geneva (UPI) — A possible Russian walkout from the 17-nation disarmament conference was thwarted Wednesday when news of the American Pacific nuclear explosion arrived after the session already had ended. But delegates anticipated a Soviet protest move Thursday.

The United States turned down a last-minute effort by India and the communist bloc to halt the Pacific test at British-controlled Christmas Island.

Russian Deputy Foreign Minister Valerian Zorin accused the U.S. and Britain of "attempting to wash their hands before the peoples of the world and shrug off their responsibility for renewed testing."

But American Ambassador Arthur H. Dean told the conference that although the U.S. wants and still hopes to sign a test ban treaty it will not trust Russia's word again and accept an unpoliced test moratorium.

The sharp Soviet-American exchange came as delegates anxiously awaited news from the Pacific.

At one point reports from the Swedish seismographic station at Uppsala indicated that the blast had taken place. But additional details defined the recorded earth shock as an earthquake.

Ponder Refugees

Damascus, Syria (UPI) — Dr. Joseph Johnson, special delegate of the United Nations Palestine Conciliation Commission, opened talks on the problem of Palestinian refugees with top Syrian leaders.

86 NU Alumni Plan Trip Abroad

Eighty-six persons will take off from Chicago May 1 for a 23-day tour of Europe sponsored by the University of Nebraska Alumni Association.

Those making the trip include 22 from Lincoln, 14 from Omaha, and four each from Broken Bow and Seward, who are members of the Alumni Association and their families.

Six countries — England, Holland, Germany, Switzerland, Italy and France—will be visited by those joining the land tour. Westminster Abbey, the floral gardens at Kenkenhof, the Black Forest, Lake Lucerne, the Rome Colloseum and the Louvre are included in the agenda.

The flight is especially chartered from Chicago by the Nebraska Alumni Association for members and their families. The 1963 tour will be held during the summer.

'Churches Shouldn't Be Fallout Shelters'

Churches ought not to be used as fallout shelters, according to a Wesleyan University philosophy professor, Dr. William C. Mountcastle.

"The church ought not to allow itself to be caught up in the war system" and that includes allowing churches to be used as fallout shelters, he said.

His remarks came at a Wednesday evening discussion of the use of church buildings as fallout shelters. The discussion was sponsored by the division of social betterment of the Lincoln Council of Churches.

About 25 ministers and laymen representing 10 Lincoln churches attended the meeting.

Drake Speaks

Other speakers were George Drake of the local civil defense office who explained that churches, along with other buildings, were being sought as fallout shelters.

But, he pointed out, before a church or any other building can be considered for a fallout shelter, a license or privilege between the building owner and the federal government must be signed.

There is nothing forced about using churches as fallout shelters, he said.

Prof. Theodore Jorgensen of the University of Nebraska physics department told of conditions probable under atomic attack.

Another speaker was the Rev. Meredith Rogers, pastor of the Antelope Park Church of the Brethren, who presented reservations concerning civil defense and fallout shelters which appear in a paper, "Statement on the International Situation," adopted by the General Brotherhood Board of the Church of the Brethren at its meeting in November 1961.

He said that similar statements have been adopted by the Christian Social Concerns Committee of the Methodist Church and the American Friends Service Committee.

Health Group Ponders Donations Suggestion

A proposal that the Citizens Advisory Health Council be allowed to accept donations will be considered at the council's meeting Thursday noon at the YWCA.

The Health Council, a part of the Lincoln Community Council, also will hear reports on plans for the health fair, a survey of nursing homes, and the activities of the committee on alcoholism. Officers will be elected.

NEWSPRINT CONSUMPTION TO SET RECORD

New York (UPI) — The American Newspaper Publishers Association (ANPA) Wednesday said that newsprint consumption in the United States is expected to set a new record of 7.7 million tons in 1962.

On a per capita basis, a report presented to the annual ANPA convention said, consumption for the year should reach 82.9 pounds, with daily newspaper circulation at an all-time high of more than 60 million on the basis of a million.

Arrest Republican

New York (AP) — William C. Taubert, 65, Republican leader of the 10th ward in Westchester County, was arrested on an indictment charging him with acceptance of bribes while serving as an inspector for the state department of labor.

CHEF'S SALAD BOWL

This has a bit of everything for health, taste, color, and appearance. It can be anyone's conception, or varied to fit in available ingredients.

Into salad bowl tear 1 small head of washed, crisp, cold lettuce and 1 small bunch of romaine (or other greens). Over this, add ½ to 1 cup chicken or ham slivers (cooked), ½ cup swiss cheese slivers, ¼ cup carrot slivers, and ¼ cup celery slivers. Toss lightly, garnish with slices of 2 hardboiled eggs, 1 tomato cut in wedges, 1 orange peeled and sliced, and watercress. Ideal with French Dressing or dressing of your choice—or try simple, tasty . . .

ROQUEFORT SOUR CREAM DRESSING

Blend 1 cup sour cream, ¼ cup mayonnaise, and ½ cup Roquefort cheese pieces. Chill before using.

KITCHEN TALK - - -
1. Make salads simple, but orderly and neat.
2. Lettuce and all greens should be dry before dressing is added.
3. Dressing should be added to salad only when ready to serve.
4. Juicy fruits and vegetables should be well drained.

Midland Approves Luther Merger

Fremont (AP) — The Midland College Board of Trustees voted Wednesday in favor of consolidation of the college with Luther College of Wahoo.

The combined colleges will be known as Midland-Lutheran College.

The Midland board action follows a decision by the Nebraska Conference of Augustana Lutheran Church March 21 to cease operation of Luther at the end of the present school year.

The conference-approved merger will be effective Sept. 18 when articles of incorporation to form the new institution will be presented to the secretary of state in Lincoln, according to President Paul W. Dieckman of Midland.

The college consolidation was the result of United Lutheran Church, which operates Midland, and Augustana Lutheran Church, which owns Luther, and two other Lutheran bodies planning to merge.

The 4 churches will form the Lutheran Church in America.

Nebraska News

Douglas Medics To Conduct Mass Polio Clinics

Omaha (AP) — Reversing the decision it made a month ago, the Omaha-Douglas County Medical Society has decided to conduct mass immunization with Sabin oral polio vaccine this spring.

A 3rd type of Sabin vaccine has been released since the earlier decision was made.

Clinics will be set up to dispense vaccine on Sundays. A physician and nurses will staff each, and a small charge to cover cost of the vaccine will be suggested to those who can pay.

Trio Honored

Albion — Albion Junior Chamber of Commerce members honored 3 at the annual bosses' night banquet. Jack Lough, Albion publisher, was cited as "boss of the year"; Vern Borer as "outstanding Jaycee of the Year"; and Bob Spiegel, "fireman of the year."

State Jaycee Meet Will Be Sidney's Biggest Of History

Sidney (AP)—Sidney was preparing Wednesday for the biggest convention of its history — the annual meeting of the Nebraska Junior Chamber of Commerce.

The sessions May 4 through 6 are expected to be attended by possibly 1,000 persons. Indications so far are that 700 will attend.

The Sidney Chamber, which is handling reservations, said it may soon need to appeal to townspeople to make available rooms in private homes.

The convention will open with registration and there will be a dance and Dutch lunch Friday night. A rodeo is scheduled Saturday morning along with a golf tournament.

Park Head Named

Crete — New president of the Crete Sertoma Club is Glenn Park. Other officers include Ed Novak, Lester Lee, Ham Walenta, Loren Ulrich and Terry Bouska, vice presidents; Morris Rhea, secretary-treasurer; and Rudy Buzek, sergeant-at-arms.

The first general business meeting is scheduled Saturday afternoon. A social hour will follow, with the evening banquet at the Elks auditorium. A dance will follow.

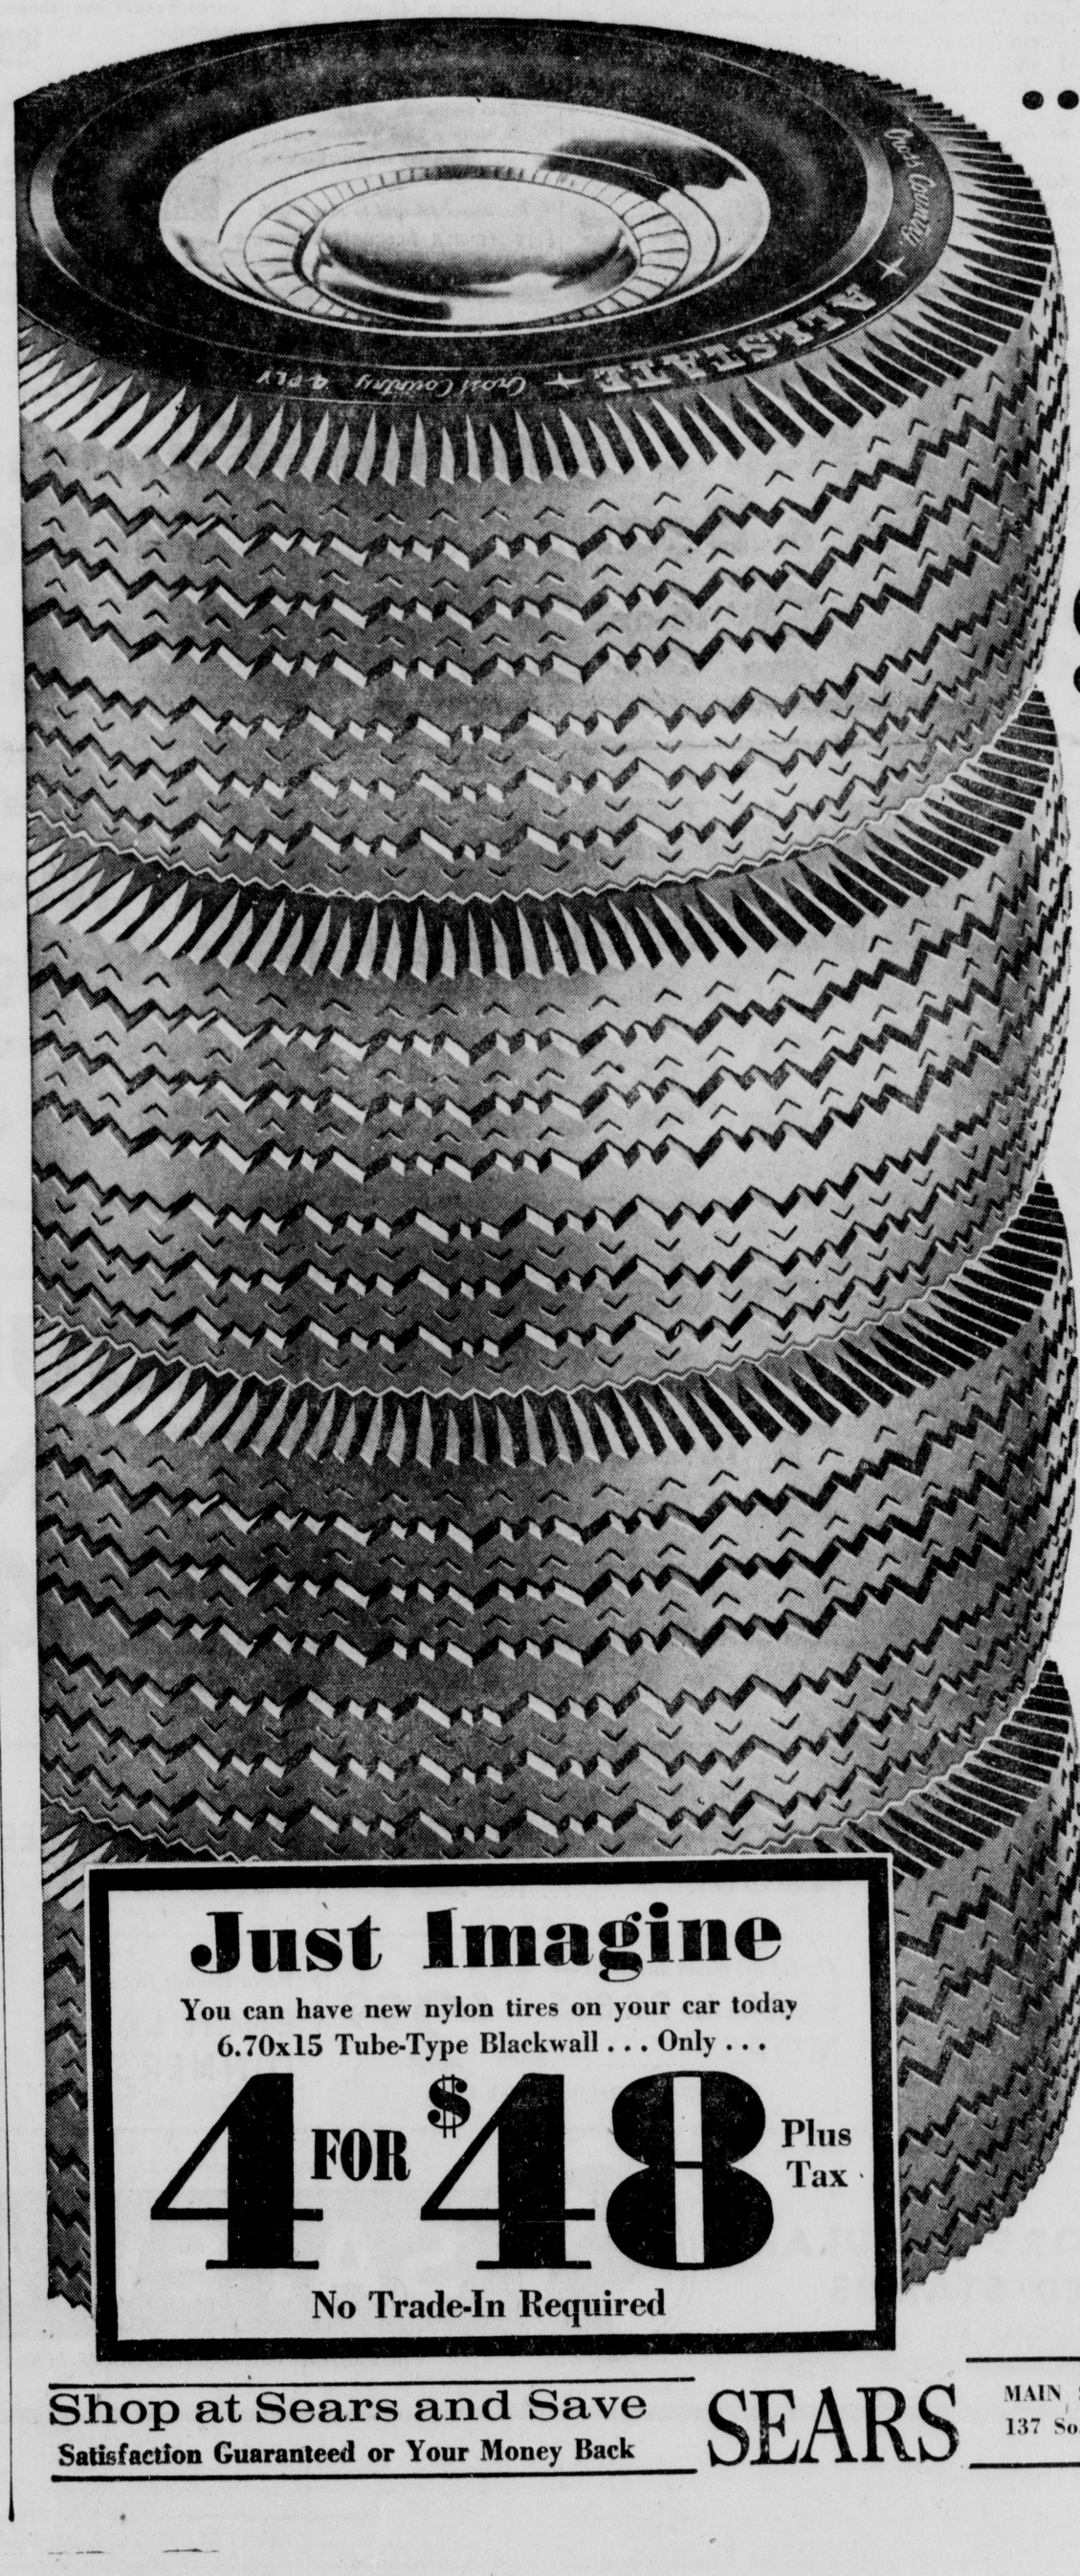

The activities Sunday will include a business session at which officers for the coming year will be named.

U.S. To Stay So Strong No Nation Will Dare Attack Free World

Washington (AP)— Secretary of State Dean Rusk said Wednesday night that until the arms race is limited, the United States is committed to maintaining military might so strong that no nation would rationally attack the free world.

Rusk disputed Soviet Premier Khruschev's forecast that Russian production will match America's by 1970.

The secretary predicted that over the next 9 years the Western industrial countries will boost their output by more than $500 billion compared with $300 billion for the communist bloc.

Rusk made the remarks in an address prepared for the School of Advanced International Studies of Johns Hopkins University.

Since his speech was one of a series presented at the Pan American Union, the U.S. foreign affairs chief dealt mainly with the Kennedy administration's alliance program of aid to Latin America.

But while he did not refer directly to U.S. resumption Wednesday of atmospheric nuclear tests, Rusk outlined the reason why his government is committed to maintain defensive might able to withstnd Red attack. He said:

"In the world as it is today, the chapter which we are called upon to write involves both strength for defense against aggression and a mighty creative effort to build a decent world order.

"The United States has accepted, as a matter of necessity, the maintenance of a military force of such undeniable power that no rational decision could be made to attack the free world.

"It is a burden we gladly

DEAN RUSK

bear and would as gladly lay aside as soon as possible. We know that security does not lie in an unlimited arms race and we have made sober and persistent efforts to turn that race downward and to strenghen the processes of peace."

Rusk said that despite discouragements in seeking disarmament agreements, the United States will continue to strive for them.

As for communists' claims that they are overtaking the Western world economically, Rusk ridiculed the Marxist system with statistics. He said these show the Reds are providing more statism with less for the individual than the free enterprise way provides.

Rusk said U.S. production will continue to outpace Russian output, growing by $300 billion in annual gross national product by 1970 compared with a possible $170 billion increase by the Soviet Union.

He noted Khrushchev's own admission of agricultural failures and said the real wages of nonfarm workers in Russia by 1958 had dropped 5% under what the Russians got under communist rule 30 years earlier.

Soviet city dwellers, Rusk continued, had only about the same housing space by the end of 1960 as they had under the pre-communist czarist regime.

Rusk contrasted this with numerous gains registered in the non-communist world, including examples in the Latin American republics.

The gulf that divides the rich nations and the poor nations, he said, is "a wall of glass" and its shattering is the central issue of our time.

Rusk said the United States is ready "to contribute in every appropriate way to the building of free, politically stable and independent nations."

Highway Projects With Consultants To Be Announced

State Engineer John Hossack said Tuesday he expects to announce within a few days the highway projects on which it will be feasible to use consultant engineers.

Gov. Frank Morrison recently announced that he was instructing the State Highway Department to use consultants to help speed designing on the state's primary and secondary road systems.

Hossack said there were only about 8 to 10 projects in the current road program on which it would be feasible to use consultants.

Most of the projects currently scheduled are far enough along that consultants are not needed, he said.

"We're going to pick some projects farther in the future," Hossack said.

Tax Workshop Gets Duxbury Endorsement

Richard M. Duxbury, Lincoln attorney and candidate for the Legislature from the 18th District, took issue Wednesday with those who have criticized the tax workshops which have been conducted throughout the state by the University of Nebraska.

Duxbury noted that he attended NU's most recent seminar on systems of state taxation and said he found it to be "completely objective and very enlightening."

'Should be Encouraged'

"Certainly the discussion of relevant facts and figures on state taxation by men learned in the subject should not be condemned but rather encouraged," he stated.

"The University is to be commended for affording between 700 and 800 community leaders throughout the state the opportunity to study and learn of probably the greatest problem facing our state today, that is how to modernize our method of taxation.

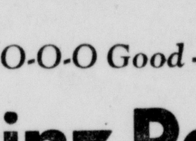

"It is certainly as much a function of our University to provide this service to the people of the state as it is to advise us on family nutrition, controlling corn root worms, and how to combat aphids and clover mites," Duxbury concluded.

Yameogo Sees Pope

Vatican City (AP) — Pope John XXIII received in private audience President Maurice Yameogo of the Republic of Upper Volta. It was his first meeting with the head of one of Africa's new states.

ADVERTISEMENT

ANSWER by OUR

Urban renewal has been described as a "scheme to tax the masses to promote the economic schemes of sophisticated investors." Is this a fair description?

No. It is a deliberate attempt on the part of anti-urban renewal forces to defeat urban renewal by the "divide and conquer" technique. By using propaganda phrases such as "the masses" versus "sophisticated investors" they intend to substitute prejudice for reason.

For a fair description, read the ordinance upon which we are voting, which says, in part: "The elimination of deteriorated, substandard and blighted areas . . . is desirable, necessary and for the best interests of the City of Lincoln."

A handbill issued by the opposition asks, "Do we honestly need to declare that free enterprise is not moving Lincoln ahead?" What about the fairness of this question?

No one has contended that private enterprise "is not moving Lincoln ahead". But anyone with eyes open to the truth knows that we are beginning to develop areas of decay which will become slums if we don't act now to prevent it. If it was attractive to private enterprise to buy up and redevelop these areas it would have done so. There must be a profit motive. This is the American enterprise system.

Urban renewal is a partnership between public action and private enterprise. It has worked in 500 cities and it will work here. It will give private enterprise the incentive it must have to act in the American way.

U.S. Starts Test Series With Reluctance, Regret

Washington (AP) — A U.S. spokesman said this country started its nuclear tests Wednesday with reluctance and regret, because it had to in defense of the Free World and because the Soviets won't sign a workable test ban treaty.

In making this statement to newsmen shortly after the United States set off its first in-the-air atomic explosion in 3½ years, State Department Press Officer Lincoln White also said:

1. **The United States will immediately stop any series of tests it is conducting if the Russians sign an effective treaty providing for inspections against cheating — an action which Moscow has shown no sign of taking.**

2. The United States will not halt its new testing solely on the basis of a Soviet declaration of willingness to sign an effective treaty. White said the West has had too much experience with Red paper pledges. He referred to the uninspected moratorium which Russia broke last September with massive nuclear tests secretly prepared.

Most Cynical

3. If the Soviets walk out of the 17-nation Geneva disarmament conference because of the U.S. tests — as some reports have indicated they would — the Reds would be perpetrating "perhaps the most cynical act in history."

White noted that the Russians kept right on talking about a test ban last fall when they were triggering their explosions, and the Western powers stayed at the conference table. Subsequent negotiations — while the Russian tests were continuing — resulted in the East-West agreement producing the Geneva conference now under way.

The State Department spokesman reported that Japan's ambassador, Koichiri Asakai, Tuesday conveyed to the U.S. government once again the opposition of Japan — the only nation ever to have suffered atomic bombing — to the resumed U.S. tests in the Pacific.

Jap Cops Toss Mob For Loss

Tokyo (UPI) — Snake-dancing Japanese college students marched on the U.S. Embassy here Wednesday and clashed with riot police in the first of an expected wave of demonstrations against the American nuclear tests in the Pacific.

The band of about 100 students, belonging to the fanatical leftist Zengakuren organization, met stiff resistance from police who drove them across the city for miles in a series of footballlike rushes.

Many policemen and fist-swinging, kicking students suffered minor injuries in more than a dozen scuffles that tied up traffic in a section of a downtown area during the evening rush hour.

The demonstration broke out after the Japanese government, in a formal statement, protested against the tests. The government said it was "deeply disappointed" over President Kennedy's decision to go ahead with them.

McELWAY RENAMED AP PRESIDENT

New York (AP) — Benjamin M. McKelway, president of the Associated Press since 1957, was re-elected by the Board of Directors. He is editor of the Washington Star.

Paul Miller, editor and publisher of the Rochester, N.Y., Times-Union, publisher of the Rochester Democrat and Chronicle and President of the Gannett Co., Inc., was elected first vice president, succeeding Bernard H. Ridder Jr., of the Duluth, Minn., News-Tribune.

Miller was with the Associated Press for 15 years as Washington bureau chief and an assistant General Manager before joining the Gannett organization in 1947.

The directors re-elected Harold A. Fitzgerald of the Pontiac, Mich., Daily Press as second vice prseident, Harry T. Montgomery as secretary, and Robert R. Booth as treasurer.

Senate Opens Major Civil Rights Tussle Over Voter Literacy Tests

Washington (AP) — The Senate opened a major civil rights battle over voter literacy tests Wednesday with Southerners planning a filibuster and the leadership hoping to stop them but backing away from any drawn-out "trial by physical stamina."

Majority leader Mike Mansfield, D-Mont., said he would offer a petition to shut off debate when "all the wisdom of which the Senate is reasonably capable has been exhausted."

If the vote fails by a substantial margin to achieve the required two-thirds majority, the legislation will be set aside, Mansfield said. If it is close, debate will be resumed and a second attempt made later.

If this fails too, then the administration bill will be dropped rather than try to settle the issue by physical stamina, Mansfield added.

His remarks came after he and Republican leader Everett M. Dirksen, R-Ill., offered the proposal as a substitute for a minor measure already cleared for Senate action.

The bill, denounced by Southern Senators as unconstitutional and politically inspired, would exempt anyone with a 6th grade education from state literacy tests required to vote in federal elections.

Proponents say the tests, required in 21 states, have been used in the past to prevent Negroes from voting, regardless of their educational background.

Mansfield, outlining his views in a 31-page statement, said he would defer action on the substitution move if Sen. James O. Eastland, D-Miss., Judiciary Committee chairman, and Sen. Sam J. Ervin Jr., D-N.C., whose subcommittee conducted hearings on the bill, would agree to report it out within a week. The Judiciary Committee has not acted on it.

There was no indication Eastland and Ervin would accept the offer, and there was considerable doubt a two-thirds vote could be mustered to halt the anticipated Southern filibuster.

Mansfield said the debate would take place within regular Senate working hours. If interest becomes intense he said a limitation on committee meetings might be necessary.

—A-TEST SITE—

Christmas Isle Home Of Friendly Folk

. . . Lizards And Crabs

Washington (UPI) — Christmas Island, site of Wednesday's U.S. atmospheric test explosion, is a British-owned atoll which is inhabited by friendly natives and harmless lizards, land crabs and rat-like creatures known as jerboas.

Its name comes from the fact that the first European explorer to discover it — Capt. Cook — came upon it on Christmas Eve, 1777.

The natives who live there now may have had a spectacular view of Wednesday's explosion.

The Atomic Energy Commission said that the tests would be conducted in such a way that it would not be necessary to evacuate the islanders, but this could be done if necessary.

In 1955, the British began to convert the sand and coral possession into a nuclear testing site. Nine hydrogen explosions were set off there in 1956, 1957 and 1958.

1,300 Miles From Honolulu

The island lies about 1,300 miles south southwest of Honolulu and 140 miles north of the Equator. It measures 30 miles long and between 5 and 15 miles wide, with numerous lagoons cutting into its land area.

During World War II, the United States, with British permission, developed it into a key link in the allied air communication route to the far Pacific. About 10,000 Americans were garrisoned there at one time.

When the United States withdrew in 1948, the British found that most facilities had fallen into disrepair. They installed their own.

Two 6,000 foot paved airstrips are in good condition; the port can accommodate medium-sized and small landing craft; the roads are in excellent condition.

McCarthy Re-elected

United Nations (AP) — Michael D. McCarthy of Ireland has been re-elected chairman of the U.N. Statistical Commission. The 18-nation group will develop a program for collecting world basic industrial statistics in 1963.

Union College Slates Reunion

Union College's 3-day alumni reunion program will be held May 3-5, honoring with special ceremonies returning members of the classes of 1912 and 1937, the 25th and 50th anniversary graduates.

About 5 Class of 1912 returnees are expected and 10 to 12 members of the Class of 1937.

The program will begin next Thursday, May 3, with an All-Alumni banquet in the Union College dining hall. Dr. W. A. Howe, president of the alumni association, will preside, and the college president, Dr. David Bieber, will speak.

Convocation Set

Friday morning an honors convocation will be held, with Dr. C. N. Rees, president of the Southern Missionary College, Tenn., as speaker.

Other Friday activities include a nurses' capping ceremony at 6:45 p.m., and the traditional ceremony of "Hanging the Golden Cords" at 8 p.m. in the college auditorium. C. B. Watts, president of the Okinawa Mission, will speak.

H. V. Reed, president of the South Carolina Conference of Seventh-day Adventists, will speak at the Saturday morning Sabbath services; and a sunset vesper service is scheduled for 6:45 p.m. at the College View Adventist Church. K. D. Johnson, president of the North Dakota Conference, will speak.

The homecoming activities will conclude Saturday evening with a social and business meeting for alumni at 7:30 p.m. in the church annex followed by a program, "Promenade," presented at 8:45 p.m. in the auditorium by the college music department.

Several hundred alumni are expected to return to Union College for the annual reunion.

Date Set For Law Officers' 9th Institute

The 9th annual Nebraska Law Enforcement Institute will be held May 21-25 at the Nebraska Center for Continuing Education.

The institute, sponsored jointly by the University of Nebraska and the Police Officers Association of Nebraska, will feature Fred E. Inbau, professor of law at Northwestern University, an expert on interrogation by lie detector.

Captain Patrick J. O'Malley of the East Cleveland (Ohio) police department, will speak on traffic control, and Carl F. Hansson, former chief of police in Dallas, Tex., will discuss police administration.

Also on the program are Nebraska peace officers, judges, and attorneys, and U.S. government agents.

Lincoln Police Chief Joe Carroll said attendance at the institute will be compulsory to his 38 policemen having less than 18 months of experience. Other officers also will be encouraged to attend.

Directory Of Industries Out

The 1962-63 directory of Nebraska manufacturers is available now, its publisher, the Division of Nebraska Resources, announced.

Included are 2,069 manufacturing and processing firms in 239 towns. Processors of food and kindred products continue to be in the state's largest group, followed by printing and publishing industries.

Besides informing Nebraskans of the industrial activity in their state, the biennial directory is intended to give manufacturers in other states who may seek new or additional plant locations an accurate view of the extent and types of industry existing in the state, a particular locality or any given field of endeavor.

The book is divided into 3 sections, the first being an alphabetical listing of all firms together with the towns in which they are located.

In the second, each community's entries are available as a whole. This section also includes the firm's street address, products, manager and approximate number of employes.

The 3rd part classifies the companies according to products, so that all firms manufacturing a given item are visible at a glance.

The directories cost $4 each.

TEAROOM MODELING

Thursday, April 26, 1962

11:15, 12:00, 12:45, and 5:15, 6:00, 6:45

Dear Sun Worshiper

Our bright new sportswear collection has arrived in all its feminine glory. Waistlines are defined and often belted (even swim suits have belts), skirts are full and swinging and the colors show your giddy side.

There's excitement in the choosing—so many beautiful groups of sportswear by famous makers . . . but all the fun is in the wearing—so many ways to look your sporting best.

Swim suits, shifts, dresses and separates . . . you'll see them all Thursday on the runway at our special Tearoom showings. **Luncheon modeling at 11:15, 12:00 and 12:45. Dinner modeling at 5:15, 6:00 and 6:45.**

SPORTSWEAR—SECOND

Hepatitis Count Up 29; Benkelman Area Reports 24

The State Health Department said that a previously unreported rash of hepatitis cases in Dundy County has boosted the total number of cases in Nebraska in 1962 to 94.

According to the department, 24 cases have occurred in the county which were previously unreported. Most of the cases were in the Benkelman area the department said.

The state wide total compares with 298 cases reported in a similar period a year ago.

In addition to the 24 cases in Dundy County, 5 other cases were reported during the past week. Three were in Douglas County and Lancaster and Sarpy counties each had one case.

Reds Hit Again In Viet Nam

Saigon (UPI) — South Viet Nam government troops scored their second victory in 24 hours Wednesday, killing 20 communist guerrillas in a battle only 7 miles from Saigon.

An official announcement said 107 communists had been killed in the last two days of fighting.

News of the clash followed disclosure that 16 U.S. Marine helicopters participated in Tuesday's successful army attack against some 300 Red Viet Cong soldiers.

South Vietnamese troops, dropped from the 'copters in front and behind the communists, killed 87 of them in the battle that took place about 100 miles southwest of Saigon, the government said.

It was unclear whether Marines or South Vietnamese piloted the helicopters. U.S. Marine Corps officers told newsmen only that one of the planes was hit by communist gunfire during the battle.

No additional details about Wednesday's fighting were available except that one company—between 100 and 130 men—of guerrillas was engaged at Binh Chanh village.

Government losses, if any, were not reported immediately.

Hearing Ends On Insurance Plan

A hearing before State Insurance Director Frank Barrett on the Insurance Department's approval of an insurance program was completed late Wednesday afternoon.

The hearing was requested by the Nebraska Association of Insurance Agents and 11 Nebraska citizens who are protesting the department's approval last January of a rating plan filed by the National Bureau of Casualty Underwriters.

Briefs will be submitted to Barrett by counsel for the opposing sides May 20 which means it will be at least a month before the insurance director can render a decision.

'CARMICHAEL

Dad'll Take Him

London (UPI) — Prince Philip will take his son, 13-year-old Prince Charles, to his old Scottish school of Gordonstoun, when Charles starts his first term there, it was learned.

Women Study Urban Renewal Over Coffee

Nearly 1,000 women gathered in 99 coffee groups throughout the city Wednesday morning to watch a televised presentation on urban renewal presented by the Organization for Urban Renewal.

Over a hot cup of coffee with pre-school youngsters on their laps, the women discussed the points brought out in the presentation.

At one coffee held in the Belmont area, several women pointed out that they felt the program would be an excellent one if it were able to accomplish the goals it seeks.

It could become a "vicious circle," one woman pointed out in that oftentimes persons who are moved out of a "blighted" dwelling, will merely create another one elsewhere.

Several of the others agreed with her noting that they had experienced such happenings in their residential area.

One woman said that a family which had lived in a dilapidated, home amid unsanitary conditions regressed into the same atmosphere in a short period after efforts were made to improve the dwelling.

Several agreed with the presentation that in the long run urban renewal would be of less cost to the taxpayer than to not have it.

A coffee to watch a similar presentation May 8 is scheduled by the Organization for Urban Renewal.

Men's Reformatory Radio Reception Set

C. V. Keller, superintendent at the Men's Reformatory, reported Wednesday that wiring and installation of headphone sets for radio reception have been completed in the reformatory's maximum security cell block.

Programs from local radio stations will now be available to all cell block inmates, he said. Selection of the program schedule will probably be made through majority vote of the inmates, he added.

New U.S. Tests Bring Overseas Criticism And Moral Support

By The Associated Press

The United States' resumption of nuclear tests in the atmosphere Wednesday touched off a mixed chorus overseas of denunciation and disapproval, regret and moral support.

Communists bitterly assailed the move. Pacifists protested. Backers of Washington's decision said the Soviet Union, by its own testing late last year, had left America no choice.

In Western Europe, many newspapers expressed regret that the United States resumed its tests over the Pacific Ocean, but laid the blame on the Soviets for not agreeing to an international test inspection system.

Tragedy

"President Kennedy's decision to resume tests in the atmosphere is a tragedy," said Britain's mass circulation Daily Mirror. "It means the nuclear arms race is again in full spate. But the world must realize the responsibility for this tragedy is not Kennedy's. It is Khrushchev's."

Austria's mass circulation Kurier splashed the banner headline: "USA: Sorry, But We Had No Other Choice."

In London, a small group of young Americans, mostly students, picketed the American Embassy to protest the test resumption and other anti-nuclear groups geared for fresh demonstrations in Britain.

First communist reaction was quick and predictable. Without mentioning that the Soviets broke a test moratorium last September to launch a major series of nuclear blasts, East Germany denounced the U.S. move as "one of the greatest crimes in the history of humanity."

Murder

"It is murder of the born and unborn," said the East German official news agency ADN.

Radio Moscow opened with a brief announcement of the test renewal, immediately followed by reports of anti-nuclear agitation overseas.

In Scandinavia, NATO allies Norway and Denmark indicated regret coupled with understanding of Washington's position.

Norwegian Foreign Minister Halvard Lange said "it is the Soviet Nyet (No) to all proposals for effective international inspection which has led to the new American test series."

Prime Minister Viggo Kampmann of Denmark said it could only be assumed the United States would resume testing after the Russians broke the nuclear moratorium.

Some 50 ban-the-bomb demonstrators sat on the sidewalk outside the U.S. Embassy in Copenhagen to protest the new explosion.

Fallout Reports To Be Skimpy

Washington (AP) — The scarcity of weather stations in the equatorial Pacific east of Christmas Island will rule out detailed forecasts of the meanderings of early fallout from U.S. nuclear tests.

So the Weather Bureau does not plan to make public charts of the fallout as it did when fallout from the Soviet tests last fall passed over the Northern Hemisphere.

Bureau fallout specialists said, however, that based on the usually prevailing wind patterns in the Tropics latitudes where the tests are being held, the early fallout would be essentially limited to a world-girdling belt between 2,000 and 3,500 miles wide in the Tropics.

In an interview, the bureau men were speaking about tropospheric fallout — the component of radioactive debris that may be released at atmospheric levels below 55,000 feet within two weeks to a month after an explosion.

This type of fallout — half of any given amount of which would fall in about 20 days — is to be distinguished from stratospheric fallout which takes anywhere from a few months to several years to come down.

President Kennedy and other U.S. officials stressed before the tests began that they would be conducted under conditions which restrict the radioactive fallout to an absolute minimum, "far less than the contamination created by last fall's Soviet series."

PRIMARY PREVIEWS—

Only Republicans Face Opposition In Bids For Nomination To County Offices

EDITOR'S NOTE: This is the 7th in a series of 8 articles previewing the May 15 primary election.)

By GERRY WRIGHT
Star Staff Writer

Barring any write-in candidates, the primary election for county offices will be purely a race between Republicans, while the November general election will see only the two Democratic incumbents on the ballot.

In an attempt to regain control of the county, 3 members of the Republican party are running for the second district county commissioner post, while 4 Republicans have tossed their hats into the county clerk race.

Both positions are presently held by Democrats.

Six of the county officials, all Republicans, have no opposition on either ticket, while the remaining two each face one other Republican candidate.

The spotlight will undoubtedly be on the county clerk and second district commissioner races.

Two former county commissioners and a well-known businessman are vying for the Republican nomination to the second district county commissioner post now held by Democrat Ralph Harlan.

Certified Public Accountant Del Lienemann, who served on the county board from 1955 to 1958, lost to Republican Jack Schuetz in the 1958 primary and Schuetz was defeated by Harlan.

The 41-year-old Lienemann, a former board chairman was an unsuccessful candidate for governor on the GOP ticket in 1960, and had considered filing for the gubernatorial post prior to filing for commissioner early this year.

Another name familiar to Lancaster County voters is Ira J. Vorhies, who served on the board from 1948 to 1951 and has held several other county jobs.

Presently an employe of the county treasurer's office, the 65-year-old candidate was deputy sheriff for two years, clerk of the county court for 10½ years and has been a junior examiner in the State Auditing Department and served as state athletic commissioner for 4 years.

Keen Competition

Ivan L. Devoe, Lincoln real estate broker, is expected to give both former county commissioners keen competition, although he has never sought election to public office before.

Devoe, 64, well-known in the insurance business for 26 years prior to joining Sweeney-Burke Realty Co. about 4½ years ago, also is prominent in Masonic circles, having served as Potentate of Sesostris Temple of Shrine and being a 33rd degree Mason.

Democrat Ralph Harlan, 59, who has no opposition in the primary, will undoubtedly be a difficult incumbent for the primary GOP victor to defeat in the general election.

Harlan, who is serving his second year as county board chairman, was elected to the board in 1958 and has a strong following in the rural areas.

A cattle feeder and farmer from Hickman, Harlan has sought to promote the interests of the rural Lancaster County residents during his term, making him a popular candidate for re-election.

4 For Clerk Bid

The county clerk position attracted 4 GOP hopefuls who anticipate meeting in the November election Incumbent Carl Hartman, who has no primary opposition.

Present County Court Clerk Harold Hamlin is expected to give the other 3 candidates a "tough battle," having served in his present post at the court house for 7 years.

Hamlin, 52, was an unsuccessful candidate for county commissioner in 1954.

A former employe of the county clerk's office, Glenn H. Talbot is also seeking nomination to the post.

A 59-year-old former farmer, Talbot is presently employed by a local grocer. He served in the clerk's office for 4½ years prior to the election of Hartman.

A 3rd strong candidate is John "Tom" Allen, who was in the drug business at 14th and South for 14 years, and built and established Allen's Alley at 1410 South.

Although the 50-year-old businessman has never been an office candidate, his name has become well-known in political circles as campaign manager for candidates in former elections.

The 4th possibility for the GOP nomination is Chris W. Platz, who has been in the automobile business for 30 years.

The 58-year-old native of Lancaster County has become well-known through his business, Platz Motors at 16th and O.

No Demos Running

A May 15 victory in the sheriff and 3rd district county commissioner races assures the winners of election to the post since no Democrats are running.

Present Commissioner Kenneth Bourne, who defeated his opposition by nearly 1,200 votes in 1958, faces the same opponent, Ralph Reger, again this year.

Bourne, who is in the rental property business and owns service stations has served on the board for one 4-year term, having been the only Republican commissioner since the election of Democrat William Grossman from the First District in 1960. Grossman is not up for re-election this year.

Reger, 38, is a Burlington Railroad switchman.

Tried To Withdraw

Norman W. Brown, who filed against Sheriff Merle Karnopp on the GOP ticket near the filing deadline, tried to withdraw after March 16 due to employment difficulties, but was unable to do so according to law.

Brown, 37, who is a self-employed photo-journalist and student, moved to Lincoln 7 months ago from McCook where he was farm editor for the McCook Gazette.

Karnopp, 52, who has had some 20 years of law enforcement experience, is a graduate of the FBI National Academy and is serving his 12th year as sheriff of Lancaster County.

He served as a deputy sheriff for 8 years prior to his election to the sheriff's post.

One Non-Political Post

The only non-political candidate at the county level is Juvenile Court Judge W. W. Nuernberger.

Judge Nuernberger, 34, was appointed to the post in December, 1960, following voter approval of establishment of the separate juvenile court.

The following 6 Republican county officeholders have no opposition in the May 15 primary:

County Treasurer Carl Berg, 69, seeking 7th term, was first elected in 1938, having served in the post since 1936, filling the unexpired term of the late William Albers, under whom he sreved as deputy.

Assessor Arthur Davis, 66, was appointed to the post in October, 1950, and was elected to his first term later the same year. He is seeking his 4th term.

Acting County Engineer Hugh Dillon, 58, is seeking first term as engineer, having served in the office for 20 years and as deputy for nearly a year. He was appointed as acting engineer following the death of Louis W. Weaver.

County Attorney Paul Douglas, 34, is seeking re-election to his first full 4-year term, having been elected in 1960 to fill the two-year vacancy left by District Judge Elmer Scheele. He served as deputy from 1956 to 1959, at which time he was named chief deputy

Register of Deeds Kenneth Ferguson, 36, is seeking his second term, having finished out the unexpired term of the late J. G .Vaughan, prior to his election in 1958. He served as deputy from 1951 to 1958.

District Court Clerk Wilford Sanders, 60 a 42-year veteran of the office, is seeking his 3rd term. He served as chief deputy from 1935 to 1955 when he was elected to his present post.

Longer Work Week

Seoul (AP) — South Korea's military junta, announcing its determination to get more work out of government agencies, decreed a 50-hour week for government employes in place of the present 44 hours.

Wright Speaks To Librarians

Lincoln Star Special

Fairbury — The southeastern district meeting of the Nebraska Library Association attracted some 60 persons here for an all-day session.

Local librarian Mrs. Naomi Ellsworth and the Fairbury Library Board hosted the affair, which included a noon dinner. Donald Wright of Chicago, representing the American Library Association, spoke on cooperation within the community.

Among those participating in discussion were Agnes Arthaud, director of the University of Nebraska Home Extension Services; Jane Pope, state library commission consultant; Louise A. Nixon, state library commission executive secretary; Mrs. Paul Scott of Auburn; and Mrs. Bertha Magnusson of Wahoo.

A symposium was presented by Mrs. Wayne Collings and Kay Ewart of Lincoln, and Mrs. Lucia Weick of Falls City. The association president, Helen Oeschger of Omaha, was unable to attend.

This Will Be Different

Taipei, Formosa (AP) — Candidates for the May 24 Miss Nationalist China beauty contest have been forbidden by the selection committee to wear bathing suits or dresses with slits more than 4 inches above the knee.

Baron Munchausen Bemoans Decline Of Dialecticians

New York (UPI) — All Jack Pearl had to do was ask one question and millions of Americans across the nation laughed.

"Vas you dere, Sharley?" was the question.

The question was inevitable and took nobody by surprise but nevertheless it tickled the funnybone because if was always anticipated.

This was a weekly occurrence in the golden days of radio, in the middle 1930's, when Pearl was cast in the role of the fabulous Baron Munchausen, the most magnificent liar in history.

Tell Tall Tale

As the Baron, Pearl would tell a tall tale in a strong German accent and when his straight man, "Sharley," who was Cliff Hall, lost his patience and said it was absolutely impossible, Jack would pause for a moment and would ask: "Vas you dere, Sharley?"

Everyone who listened to Pearl in those days thought the Baron was a very funny man, and this was a great tribute to Jack because he was able to win sympathy for a German at a time when Hitler was distorting the image of his people.

And perhaps herein lies Jack Pearl's philosophy: never ridicule a man because he speaks with an accent, because there is nothing wrong.

Pearl today is upset because comedians are fearful of using Negro, Jewish or Italian dialects.

"There are too many crusaders these days," Pearl said in an interview in his apartment on Manhattan's Upper East Side recently.

If a dialectician speaks with a Jewish or Negro accent, the antibias grous heap abuse upon him, Pearl said.

Pearl, who is a Jew, regrets that the Jewish dialect is disappearing because he considers it warm and human and nothing to be ashamed of.

He also feels that the warmth and wit of the Negro is being lost to some degree because white comedians fear they will be pilloried politically if they speak today in the accents of the Amos 'N' Andy of yesteryear.

Pearl was, and still is, one of the greatest dialecticians in show business. He attributes his success in this art to a good ear for sound and natural curiosity.

Listen Closely

"Whenever I would hear someone speak with a strange accent, I would listen to every word he said," Pearl recalled. "I would follow him and get as close as I could, without him knowing it, and try to hear everything."

In his early days Pearl worked with Gus Edwards — so did Eddie Cantor, George Jessel, Walter Winchell and many others who were to become big names in radio.

Then Pearl went into burlesque, which led him to stardom on Broadway before radio and the movies beckoned. And his creation of Baron Munchausen, which made him one of the most beloved of all entertainers, became a Frankenstein's monster that killed his chances of becoming a dramatic actor.

Pearl set forth his thoughts on this subject in some notes he jotted down a few hours before the interview.

"Years ago I left everything I'd been successful at to try straight drama," Pearl wrote. "It's the one thing I really wanted to do. They never gave me a chance. A tragedian! They said. You're the Baron, remember? Why they'd laugh you off the stage in 5 minutes."

6 Curfew-Free Nights

Seoul (AP)—South Korea soon will have the longest period of curfew-free nights since World War II. The military government says it will lift the midnight-to-4 a.m. curfew for 6 days beginning May 5 for celebrations of the first anniversary of the May, 1961, coup.

Stage Hand Dies In Artificial Lake

Munich, Germany (AP) — A stage hand drowned when a boat capsized Wednesday on an artificial lake devised at the Geiselgasteig Movie Studios for the shooting of "Captain Sinbad," a German-American production.

Police said 24-year-old Askar Lindner and 3 other workers took to the boat, also made for the film, during a break in filming.

The 3 others were rescued immediately. Police divers recovered Lindner's body half an hour later.

Studio officials said the lake is about 90 by 140 feet and 20 feet deep where the boat sank for undetermined reasons.

Officials Checking Real Estate Firm; Major Leaguers Main Stockholders

Springfield, Ill. (UPI)—Assistant Illinois Secretary of State Robert Cronson said Wednesday night he would issue a temporary prohibition order against sale of securities by a real estate combine which lists major league baseball players as its main stockholders.

Cronson said a preliminary investigation shows that "it appears to us there has been sold a substantial volume of securities in violation of the law."

Cronson said he would act against CIA Inc., a Delaware-based corporation which owns buildings on Chicago's South Side.

The firm's president is R. Patrick Wagner of Chicago, a 31-year-old one time semi-pro baseball player. Wagner is listed at his Chicago headquarters as president of Consolidated Investment Associates Inc., and has said that 80 of 115 investors in that firm are past or present major league baseball players or other persons prominent in the sports world.

Persecution

Wagner said he would not reveal the names of the baseball players who have invested in his enterprises because "due to the unfair publicity that has been received . . . the persecution . . . this would be unfair to our investors."

The young real estate operator said his enterprises had been conceived as a field of investment for baseball players. He said that he met with agents of the Federal Securities Exchange Commission Wednesday but denied that any state or federal laws had been violated.

He said he planned to meet with state officials Thursday.

He said Consolidated Investment's board of directors included Billy Pierce, former Chicago White Sox pitching ace now playing with the San Francisco Giants; Ken Boyer, St. Louis Cardinals 3rd baseman; Bob Shaw, former White Sox pitcher now with the Milwaukee Braves; Jim Hegan, former Cleveland Indians catcher; Jimmy Dykes, once manager of the Cincinnati Reds and now a Braves coach; and Harry Jagielski, who played with the Oakland Raiders professional football team last season.

Vice President

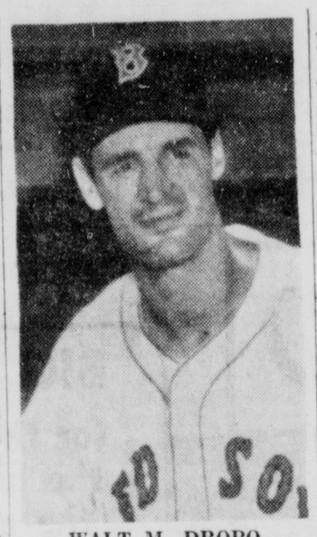

The firm's vice president is Walt Dropo, onetime Chicago White Sox first baseman now engaged in the investment business in Boston.

The 1961 financial report of the firm indicated that investors in the company received a 20% return. Wagner said the high rate of return was "because of the low down payment or relatively small amount of equity money" involved in the investments.

Also under Wagner's control, the secretary of state's office said, are 8 real estate companies and 5 land trusts. The entire combine controls 22 apartment buildings on Chicago's South Side.

Code Violations

Building inspectors in Chicago this week said that a large number of building code violations had been discovered in 10 buildings owned by the combine. Wagner did not deny this but said the company follows a policy of eliminating all violations as soon as improvement loans can be made.

WALT M. DROPO

An official of the secretary of state's office in Chicago told United Press International that evidence of an apparent sale of stock which was not registered for sale in Illinois was discovered only Wednesday afternoon.

The official, Al Forgue, said CIA Inc. and the other Wagner-controlled firms had not been licensed to sell stocks on the public market. There is an exemption under corporation exemption, which allows less than 25 investors to put up money in a corporation before the stock is registered for public sale. Forgue said CIA has more than 100 investors.

"There is the apparent violation," Forgue told UPI.

Cronson said he would issue the temporary prohibition order Thursday under his authority as head of the securities department of the secretary of state's office.

Comparable

Dropo said "We saw several of the buildings and they seemed in comparable condition with others in the same area. Basically, our program was a long-term investment. We planned to rehabilitate the buildings if there were any violations."

Pierce said "I've seen one or two of the buildings and I would not call them slum buildings. Wagner showed them to me. He lived in the same hotel that I did and he seemed like a man of high integrity. I don't think he is the type of person who would go out and buy slum buildings."

Dykes said "As far as I knew everything was above board. I was only in one building and it looked fine to me."

Boyer said he had never voted as a director of the firm.

Road Repair Cost Fixed At $40,000

It will cost around $40,000 to prevent two highways damaged by March floods from being washed out in the future, State Maintenance Engineer John McMeekin said Wednesday.

McMeekin said embankment repairs will be needed at two locations on the Elkhorn River as a result of the flooding.

One location is U.S. 275, one mile north of its junction with Nebraska 91. McMeekin said it will take $25,000 for bank protection here.

Another $31,000 will be needed to repair 130-feet of pavement ripped up by the waters in that area.

The other $15,000 will go to correct a problem a half mile upstream from the Nebraska 57 bridge across the Elkhorn south of Stanton.

In that location, flood waters chewed away the south bank, increasing pressure on a bridge abutment as the flow returns to its regular channel, he said.

Chamber Furthers Opposition

. . . TO SEPARATE ASSESSMENT PRACTICE

A Chamber of Commerce move to further its opposition to the present separate city-county tax assessment practice narrowly escaped a shipwreck when a directors' vote on a tax committee's resotion saved it from tabling by a 7 to 6 vote. Once past the shoals the resolution carried by 8 to 2 with about half the directors abstaining.

The motion to table was introduced by Chamber Director Walter Jancke after Col. L. D. Densmore offered a committee resolution branding the dual assessment as an unnecessary expense and a burdensome duplication of services.

The resolution asked Chamber effort to persuade the City Council to eliminate from its projected strong mayor proposal, scheduled for referendum decision later this year, the provision referring to the council sitting as a board of equalization.

The move was sharply opposed by Chamber Director William O. Dobler.

Dobler criticized the resolution for introducing an irrelevant issue into the question of whether or not Lincoln wishes a strong mayor form of government. He also admonished the directors that they had earlier worked successfully for a study of the dual assessment arrangement.

"That study has not yet been completed, but you are already taking sides. This is an inconsistency that will not be lost on the Lincoln citizens," he said.

Dobler added, "As best I can determine, the residential taxpayers will experience a 10% increase if the city assessment is dropped and turned over to the county. Since the county business-residential assessment ratio differs from that of the city I would assume that business taxes would receive a lighter burden."

The criticism drew rejoinders supporting the county assessment formula as one based on scientific analysis and superior to that used by the city.

Chamber Director Joe R. Seacrest defended the elimination of the equalization provision. He said its inclusion in the general proposal for a strong mayor form of government would require its reaffirmation by voters who may wish to change the form of government, but who are against the two level tax assessment practice.

Following the adoption of the resolution Seacrest won directors' support for a vigorous pursuit of the pending official study of the two level assessment problem.

United Cutting Flights, But Claims Advantages

United Airlines summer schedules will reduce Lincoln flights from 6 to 3.

But Customers Service Regional manager Don S. Fowler of UAL insisted to the Lincoln Chamber of Commerce directors that "United is not pulling out of Lincoln. An examination of the new scheduling shows decided advantages."

Fowler said his company was pursuing its task of fitting its feeder line service more neatly into its growing jet service.

Fowler outlined the abbreviated summer schedule to the full chamber directorate after a 4 hour session with the committee on air service, not all of it harmonious. Unless altered, the new schedule will be effective late this month and in early June. Besides adjusting services, the schedule will accommodate flight changes due to the beginning of daylight time.

Flights Outlined

As outlined, Lincoln will have an 8 a.m. shuttle flight to Omaha; another eastbound flight at 6:45 p.m.

A third eastbound flight will be supplied by Frontier Airlines leaving Lincoln at 11:16 a.m.

United will offer an 11:55 a.m. westbound flight for arrival at Denver at 12:40 p.m. to connect with a jet flight which will reach Los Angeles at 4:25 p.m. and San Francisco at 9:05 p.m.

Fowler said the flights were weighted two to one eastbound to accommodate the flow of Lincoln traffic. Two thirds of Lincoln traffic, he said, moves east.

Fowler said the plan of organization of UAL service ties in the nation's principal industrial centers, and adjusts its feeder system for most expeditious connections with those major points.

"We now have 89 jets in flight this year. We have 16 gates at Chicago's terminal O'Hare airport where last year we had but 7. We have been able to greatly decrease waiting time. Our new Lincoln schedule is devised to time closely with the jet schedules, he said.

Chamber directors objected to the lack of accommodations for one day out-and-back service from the east.

★ ★ ★

Truck Charges Change Opposed

Lincoln Chamber of Commerce directors have directed their rate expert John Dupont to appear before the State Railway Commission May 22 to oppose intra-state rate and minimum charge increases by Nebraska truckers.

Rate and Traffic Chairman Louis Beans told the directors the truckers' request would obtain a 10% across-the-board increase within Nebraska and would raise the minimum charge from 25 cents to 50 cents in shipments from Lincoln and Omaha.

Beans described the minimum charge as discriminatory and asserted that the general rate increase would force higher shipping rates in Nebraska than those existing in neighboring states.

Interstate Traffic Up

The traffic volume on Interstate 80 at the Douglas-Sarpy county line increased 18% in March over the same period a year ago and 11% over the volume recorded in February of this year.

The volume for the first 3 months of 1962 is now also 17% over that recorded during the similar period in 1961, according to State Department of Roads statistics.

An average 24-hour volume of 6,166 vehicles was reported, compared with 5,207 for March of 1961 and the 1961 average volume of 6,025.

The Interstate checkpoint was one of only 5 points at which the volume increased over March of 1961. At '13 other points the volume was less than a year ago.

Checkpoints reporting traffic volume with location, March 1962 volume, March 1961 volume, and the 1961 annual average volume:

—U.S. 26 east of Scottsbluff: 2,665; 2,743; 2,965.
—U.S. 30 west of Elm Creek: 2,847; 3,293; 4,059.
—Neb. 4 west of Davenport: 268; 294; 304.
—U.S. 77 and 275 north of Fremont; 3,858; 4,036; 4,655.
—U.S. 6 north of Gretna; 1,084; 1,102; 1,315.
—U.S. 73 and 75 south of Union: 2,552; 2,656; 3,168.
—U.S. 20 west of South Sioux City; 2,419; 2,595; 3,131.
—U.S. 20 east of Chadron: 900; 1,035; 1,179.
—Neb. 2 and 92 west of Broken Bow; 1,180; 1,254; 1,462.
—U.S. 6 and 34 west of Arapahoe; 1,399; 1,425; 1,857.
—County road east of Stromsburg; 170; 167; 174.
—Neb. 9 north of West Point; 458; 401; 463.
—County road east of Pickrell; 120; 128; 142.
—Neb. 7 south of Ainsworth; 373; 392; 475.
—County road north of Chapell; 174; 150; 179.
—16th and 17th streets at B in Lincoln; 12,181; 11,367; 11,915.
—Interstate 80 at Douglas-Sarpy Co. line; 6,166; 5,207; 6,025.

Pen Hospital's Improvement To Cost $10,200

For $10,200 the State Department of Institutions can fix up the hospital at the State Penitentiary so all forms of surgery can be performed there.

Engineer Carl Botsford and Division Director Verne Pangborn gave this estimate to Institutional Director George Morris following a survey of hospital facilities at the prison. The changes would enable the hospital there to meet minimum standards for all kinds of surgical work.

"This will eliminate the use of Orthopedic Hospital surgical facilities for penitentiary and reformatory inmates who need a general anesthetic," Morris said.

The attorney general ruled recently that other state institutions could not use the orthopedic hospital for crippled children here.

E-Week Tour To Feature Science Wonders

Engineering Week at the University of Nebraska, always a showcase for some of the latest advances in scientific and technical knowhow, will be open to the public for the 50th year next Thursday, May 3.

Undergraduate engineering students spend their spare-time hours for a month to put on an exhibition which has been seen each year by thousands of Nebraskans. The open house will be held on the University's City Campus from 2 p.m. to 10 p.m.

A few of the highlights this year include demonstrations of huge radio tubes of yesteryear contrasted with tiny transistors used today, a rainfall simulator (to measure rate of rain soaking), and a shock tube to study such things as the sonic boom produced by aircraft.

One display includes the actual firing of an ion engine (plasma jet), a propulsion system which is believed by scientists to be the space flight engine of the future.

The engineers will have a display showing how the silo of the intercontinental ballistic missile is constructed.

The electrical engineers will put visitors on television, and have constructed a small digital computer using a telephone dial to explain its use.

Visitors to Bancroft Hall will see cylinders of concrete explode under forces of a machine capable of exerting 440,000 lbs. P.S.I.

Heavy Haul

Buffalo, N.Y. (AP)—Patrolman John Brach had no trouble at all catching a burglary suspect when he saw him leaving a closed restaurant in the middle of the night.

"He was so loaded down with coins he could hardly move," said Brach, who counted out $63.48 in change from the man's pockets.

Please pardon our present appearance. We were so very concerned about YOUR appearance in the Easter Parade—so busy cleaning and spotting and pressing your clothes to make you sparkle and shine, that—well, truth is, you caught us resting our feet after the Easter Rush.

However, we wanted to take Time Out, anyway, to tell you that we sincerely appreciate your fine patronage during the pre-Easter season, and hope our 50 years' service did you proud.

But now it's BACK TO WORK, Globe people!
Because Globe is here 365 days a year to keep our customers looking fresh and handsome as a holiday EVERY day.

Thanks again for the Easter rush. Come see us soon. (At any of our 4 convenient locations!)

Fallout Shelter Survey's Second Phase Will Be Undertaken Soon

The State Civil Defense director, Maj. Gen. Lyle A. Welch, Wednesday said the second phase of the national fallout shelter survey will begin in Nebraska soon.

According to Welch, the second phase is designed for taking a closer look at buildings already identified as having fallout shelter potential.

As in the first phase, work will be done by local architectural and engineering firms under contract to the U.S. Corps of Engineers.

Under the terms of the Office of Civil Defense directive, to the Corps of Engineers, the firms will determine the feasibility and estimated cost of building modifications which will improve the degree of protection already existent.

Study Ventilation

Attention also will be given to increasing ventilation in the shelter area and determining the need for addition of auxiliary electric power.

During the second phase, architect-engineers will mark with a decal or sticker areas of existing buildings, caves and mines, which already have a protection factor of 100 or better.

They will not mark these areas unless they are capable of housing 50 or more persons and meet minimum habitability requirements established by the Office of Civil Defense.

Welch said the recently completed first phase, which involved physical inspection of buildings and plans, showed the buildings in Nebraska which have shelter space meeting minimum requirements. This is the space which will be given a more thorough inspection in the second phase.

Asked To Sign

Owners of such buildings will be asked to sign a privilege form to permit use of such space for shelter during an actual emergency, he said.

Welch pointed out that there is no plan for the federal government to bear the cost of making these improvements for the majority of privately owned buildings.

Congress is currently considering legislation which would enable the Office of Civil Defense to defray a portion of the cost of constructing shelters in new buildings or modifying existing buildings operated by public or private non-profit institutions engaged in health, education or welfare activities.

State To File New Bid For Fort Robinson

Nebraska has been asked to file a new application requesting the transfer of 77 acres of Fort Robinson from the federal government to the state.

A letter with new forms was sent by the U.S. Department of the Interior to State Historical Director W. D. Aeschbacher asking they be filled out and signed by him and Gov. Frank Morrison.

The original application sent to Washington was not complete.

Nebraska officials were advised to send the new one to the Interior Department's regional office in Cheyenne, Wyo.

"The recreation and public purposes act is very specific and detailed in the requirements to be met for its use in conveying public land," the letter said.

It added that similar requests have been "approved at the field level where no serious complications are involved."

The land in question contains some areas of important historical significance.

State agencies which have operated at Fort Robinson the past 5 years have been under a 90-day revocable permit.

The State Game Commission operates Fort Robinson as a state park, the University Museum has the Trailside Museum, and the State Historical Society operates a facility interpreting the history of the area.

Title to the old military reservation is held by the U.S. Department of Agriculture which operates a beef research program in co-operation with the University of Nebraska College of Agriculture and other states.

Discuss Transporting Radio-Active Material

Col. C. J. Sanders of the State Safety Patrol reported that Lt. James E. Kruger has represented the State Patrol at the Midwest Conference on Safety in the transportation of radio-active material held in Chicago.

Sanders said the objective of the conference was to acquaint various governmental agencies and other interested persons with the hazards and problems involved in the movement of radio-active material by air, rail, water, and highway transportation systems.

Milford Graduate, Evans, Selected By Peace Corps

Glen Evans, former Berwyn resident who was graduated in January from the Nebraska Vocational Technical School at Milford, has been selected for work in the U.S. Peace Corps and has been assigned to two years in Tunisia, the State Education Department reported Wednesday.

Since his graduation from a course in auto mechanics technology, Evans has been employed by the Herpelsheimer Auto Co. in Seward.

He becomes the first Milford Trade School graduate chosen for the Peace Corps.

50 CITY PAY HIKES OKAYED

The City Council approved pay raises for about 50 employes in the city water and light departments.

The pay adjustments will average 10% and will cost $17,000 annually, according to City Personnel Director Ray Ramsay. The adjustments are retroactive to April 1.

Ramsay said the adjustments, recommended by the City Personnel Board, will bring city salaries for power linemen and plant operators in line with recent increases made by Consumer Public Power District and the NPPS K Street power plant.

The money will come from water and light revenue and not from tax funds. Water and light employes did not receive pay adjustments granted other city employes last September.

COAST GUARD RULES:

Bluebelle Sunk By Harvey, A Ruthless High Seas Killer

Miami (UPI) — The Coast Guard concluded Wednesday that skipper Julian A. Harvey of the ketch Bluebelle murdered his heavily insured wife and 3 of his passengers with cold calculation, then scuttled his ship and saved himself.

But the captain, who later committed suicide, abandoned the sinking Bluebelle in the Bahamas last Nov. 12 without making sure that one passenger — 11-year-old Terry Jo Duperrault was locked in her cabin, the Coast Guard said.

The child survived through a "near miracle."

The victims of the tragedy were Harvey's wife, Mary Dene Jordan Harvey; Dr. and Mrs. Arthur Duperrault of Green Bay, Wis., and two of the Duperraults' children, Brian, 14 and Renee, 7.

Harvey needed money, the Coast Guard said, and was the sole beneficiary of his wife's insurance policy, which would pay $40,000 double indemnity if she died accidentally.

The handsome, 44-year-old Harvey was rescued at sea the day after the Bluebelle went down on a Sunday night in the blue waters of Northwest Providence channel.

Harvey told authorities the Bluebelle had been caught in a squall and that the mast snapped, plunging through the hull and causing a fire aboard the craft.

There was no one to challenge the story until 4 days later when Terry Jo was found bobbing among whitecaps in the Atlantic on a tiny, white balsa lifefloat.

WAKE UP RARIN' TO GO

Without Nagging Backache

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain, —you want relief—want it fast! Another disturbance may be mild bladder irritation following wrong food and drink—often setting up a restless uncomfortable feeling.

Doan's Pills work fast in 3 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headaches, muscular aches and pains, 2. by soothing effect on bladder irritation, 3. by mild diuretic action tending to increase output of the 15 miles of kidney tubes.

Enjoy a good night's sleep and the same happy relief millions have for over 60 years. Large, economy size saves money. Get Doan's Pills today!

Dairy Announces Milk Price Cut

A Lincoln dairy manager said Wednesday that he plans to reduce milk prices to the consumer May 1, as a result of the recent slash in government milk support prices which lowered prices paid farmers for milk.

"Our company plans to reduce milk prices one-cent per quart on quarts, half-gallon and gallon home deliveries May 1. This will also affect skim milk and 2% products but not cottage cheese and other manufactured products," said John M. Spray, manager of Beatrice Foods Co.

"Where milk prices raised in July 1960, as they did in Lincoln, I feel the consumer is entitled to a reduction which we can give from paying less for milk and effected economies that we have developed in processing and distributing," added Spray.

Other dairymen expressed the desire to determine if the government would take further action to increase support prices with additional legislation before discussing the prospects of a drop to the consumer.

Lawrence Liebers of Skyline Dairy Co. said: "It is normal and traditional to reflect lower prices to the consumer."

Fair Postponed

Jakarta (AP) — The government has postponed indefinitely Indonesia's international trade fair, planned for September, because of the crisis over Dutch-held West New Guinea.

Fun Party For Cheerleaders

The 1961-62 cheerleaders at University High School have given their last cheers for the team, but the 1962-63 school spirit whipper-uppers have a full season ahead, as do the reserve cheerleaders.

On Tuesday evening Miss Tranda Schultz, daughter of Mr. and Mrs. C. Bertrand Schultz, entertained at supper at her home when her guests were last year's and this year's Uni High cheerleaders.

In the picture, left to right, are Miss Schultz, Karen Clark, Bettie Bauer, Jeanne Groth, Tish Hoyt, Rosemary Rudolph, Connie Ketelhut, Diane Fischer, Gayle Bozarth, Gail Harvey and Ruth Jorgensen.

Service Circles

Last Thursday afternoon Cindy and David Downing jointly celebrated their birthdays with an Easter egg hunt. Cindy was five, and David was celebrating his seventh. Fourteen guests enjoyed the afternoon festivities. The celebrants are the son and daughter of Capt. and Mrs. Don Downing.

Capt. and Mrs. Downing recently had as house guests their parents from Texas. Mrs. Downing's parents, Mr. and Mrs. H. E. Ellis are from Fort Worth, and the Captain's family are from Midland.

Capt. and Mrs. Raymond Narusko have Mrs. Narusko's parents, Mr. and Mrs. Jack P. Breen Sr. of Sacramento, Calif., as their house guests. The Breens' flew their own plane from California to meet their new granddaughter, Suzanne.

Capt. and Mrs. Alfred Hunt had visiting them over the holiday, the Captain's mother, Mrs. Lena Hunt and his brother-in-law and sister, Mr. and Mrs. E. K. Carder from Des Moines, Ia.

Just a note to keep you up on the bridge tournament that the OWC is sponsoring . . . In the advanced group, Mrs. Jerry Berkowitz and Mrs. Jack Herbert are leading; in second place we have Mrs. Walter P. Morton and Mrs. Robert L. Baker. In the intermediate group, in first place we have Mrs. Lester Shobe and Mrs. Brent Horn. Mrs. Anna Smith and Mrs. Pat Hamblin are in second.

The Catholic boys and girls of military personnel, in the 9th grade through the 12th grade are going to have a Hawaiian Luai at the Chapel Annex Friday evening at 6:30 o'clock.

BRIDES

Announcing the members of her bridal party this morning is Miss Dianne Loewenstein, whose marriage to Larry Axthelm will be an event of Friday, May 18.

For her maid of honor, the bride-to-be has chosen Miss Janet Wolford of Kearney, and her bridesmaids will be Miss Karen Axthelm, her fiance's sister, and Miss Kay Christiansen. The bride-elect's sisters, Miss Dearwyn Loewenstein and Miss Delaine Loewenstein, will be junior bridesmaids, and the flower girl will be Miss Luann Meyer of Wahoo.

Lighting the candles for the 8 o'clock ceremony, to take place at the Second Baptist Church, will be the bride-elect's brother, Dennis Loewenstein.

Wedding

The marriage of Miss Margaret Jean Hamilton, daughter of Mrs. Fred B. Hamilton and the late Mr. Hamilton, to Stuart Theodore Rogers, son of Mr. and Mrs. Kenneth W. Rogers of Sherman, Conn., was solemnized on Saturday, March 31, at the Congregational Church in Sherman. The service was read by the Rev. Ronald Wade at 3 o'clock.

Miss Betsy Gray of Hartford, Conn., was the maid of honor, and the bridesmaids were Miss Janice Kirkman, Albany, N.Y., and Miss Carol Rogers, Sherman, sister of the bridegroom.

Carl Ollivier of Springfield, Mass., served as best man, and the ushers were Robert Palmer, Morrisville, Vt., and Douglas S. Sinclair, Sherman.

Mr. and Mrs. Rogers are residing at 77 Westford Ave., in Springfield, Mass., where they are attending Springfield College. The bride is a former student at Earlham College, Richmond, Ind., and served as a citizenship interne for the American Baptist Convention.

Brides-Elect In The News

Revealing plans this morning for a June wedding is Miss Nancy Arnold, daughter of Mr. and Mrs. Carl G. Arnold, who will become the bride of Valdis Lusins on June 10. The service will take place at Grace Lutheran Church.

For her maid of honor, Miss Arnold has chosen Miss Linda Kneeland of Houston, Tex., and her bridesmaids will be Miss Susan Brand, Miss Joan Ideen and Miss Joyce Ideen.

Elmer Lusins will serve his brother as best man, and the ushers will be Don Howe of North Platte, William Arnold, Robert Goodban, Robert Masters and Dennis May.

Honoring the bride-elect next Sunday afternoon will be Miss Joan Ideen and Miss Joyce Ideen who will entertain 25 guests at their home.

A May bride-elect who was honored last week is Miss Karen Kay Brungardt, who will become the bride of Ronald Charles Eagan on Saturday, May 26.

Honoring the soon-to-be bride on Wednesday evening, April 18, was Mrs. Hugh Thorne who entertained 14 guests at a dessert-supper and miscellaneous shower at her home.

Coed Was Late April Bride

MRS. WILLIAM L. BAXTER, JR.

Cathedral candles, and Easter lily arrangements against a background of greenery, appointed the chancel of the Franklin Methodist Church where the wedding of Miss Suzanne Stolz, daughter of Mr. and Mrs. Paul M. Stolz of Franklin, and William L. Baxter, Jr., son of Mr. and Mrs. William L. Baxter of Omaha, took place on Sunday afternoon, April 22. The Rev. Richard W. Dinsdale solemnized the 4 o'clock service, and the wedding music was played by Miss Alma Kleen. The trio of vocalists included Miss Gayle Blank, Miss Diane Smith, and Mrs. Gaylan Abood.

The attendants, Mrs. Gerald Kaes of Ponca City, Okla., the matron of honor; and bridesmaids, Miss Jean Baxter of Omaha, sister of the bridegroom, and Miss Mary Stolz, appeared in alike costumes of pink organza over taffeta. Their hair bows matched the shade of their frocks, and each carried a bouquet of pink and white feathered carnations.

Jerry Dickenson of Wahoo served as best man, and seating the guests were Gene Mayberry of Pender, Gail Hunt of Omaha, and Milton Schmeckls of Cozad. Art Armbrust and John Bjork, both of Omaha, were groomsmen.

For her wedding the bride chose a gown of peau de soie and lace. Lace fashioned the bolero bodice, designed with a high throat line and elbow-length sleeves, beneath which the bell-shaped skirt of peau de soie extended into a chapel train. A bow of the peau de soie held to the head her bouffant veil, and she carried a bouquet of white orchids encircled with lilies-of-the-valley.

Following a short honeymoon trip Mr. Baxter and his bride will come to Lincoln where they will reside at 3220 Potter St.

The bride is a junior at the University of Nebraska where she is a member of Alpha Omicron Pi sorority. Mr. Baxter is a graduate of the University of Nebraska where he is now taking graduate work. He is a member of Theta Xi fraternity.

It Seams To Me

The Right Way To Alter

Patricia Scott

Don't get "all shook-up" over the fact that you're not a standard size, having measurements that coincide perfectly with a pattern. Not many women are. Just lift here, and fold there and all will be well.

Q. Until I read your pattern alteration booklet, my clothes made me look malformed. I have one hip quite a bit higher than the other and as you can imagine, my skirts looked horrible. But now that I alter my patterns first, I no longer have that trouble. Can you tell me what to do with dresses already made? They are mostly flared skirts, and the lower hip side seems to droop. Can you help?—Mrs. T. McC.

A. I'm glad you have the pattern problem licked. For the dresses, rip the bodice from the skirt. Lift the skirt at the waistline where the low hip is until you are happy with the way the skirt falls. Mark the new waistline, and mark the side seam if it must be adjusted put bodice and skirt together. Then be sure to check your hem length. It will have to be lengthened on the side you lifted.

Q. I have trouble making professional looking belt loops on dresses. Someone once showed me a method in which a type of slip-knot is used, but I forgot just how to do it. Could you please explain it to me?—Mrs. W. K.

A. Use a double strand of thread which matches your dress or belt. On the wrong side of the seam, fasten the thread to the lower edge of the belt line on the dress. Take several tiny stitches one on top of the other. Bring the thread to the right side and take a tiny stitch at that point. Leave a loop large enough to get your fingers through. Put your fingers through the loop and then pull another loop through, closing the first loop. Continue on doing this until the loop is slightly longer than the width of your belt. The needle isn't used while you are making the loops. Now, pull the needle through the last loop. Then fasten the end of the loop to the side seam of the dress above the belt. Bring the needle through to wrong side and secure with several tiny stitches (see illustration).

Q. How can I tell the right from wrong side of materials? Some are easy to distinguish, but others look exactly the same. I've been looking at some gingham check for days and still can't tell the difference.—Mrs. D. A.

A. That's understandable. Gingham check is the same on both sides. Some fabrics are the same on both sides and others are so nearly the same that either side may be used. If after careful examination you can't tell the difference, use either side. But be sure to cut all pieces on the same side because the difference might show up in a different light.

CHATTER in the CORRIDOR

BY MARY PAT SULLIVAN

Good morning from Pius! Spring is here and so are many new school activities. The Athletic Banquet is the big event of the season. It will be held on April 30 at the Cornhusker Hotel. The "Eccentrics," a combo, will be featured at a dance following the banquet. The climax of the evening will be the presentation of the Directors' Thunderbolt Trophy to an outstanding senior boy. Remember, everyone is invited!

On April 12 the Pius band gave its first concert for 1962. Under the direction of Philip Murphy, its 51 musicians presented an evening of wonderful music. Their program ranged from overtures to marches to modern numbers, including songs from "The King and I."

Years of hard study are paying off financially for many Pius X seniors. Entrance Boards are announcing names of students found worthy of scholarships and grants. Paul Dolan is the winner of a NROTC Scholarship. Paul wishes to attend Marquette University where this scholarship will provide tuition, books, fees, and $50.00 monthly. Barbara Holden is the recipient of both the Nebraska Regents' and the Nebraska Freshman Scholarships. Bob Knight was awarded a $100.00 scholarship to the University of Nebraska by the KFOR Sportscasters Club. Jean Kezeor won an Ak-Sar-Ben Scholarship as the result of her performance in a competitive exam. A $100.00 scholarship was awarded to Sue Dickinson by the Lincoln Star for her outstanding achievements in Journalism.

Sienna College in Memphis, Tenn. will be the destination of Caryol Mahoney next year. Caryol won a four year, full tuition scholarship. Congratulations to all these seniors!

Last, but by no means least, is the style show on May 17 which the sewing classes will present. Each girl will model her own creations! Guess that's all for now. Have a good day!

Regional Meeting

MRS. ALLEN JOHNSON

Meeting in Omaha at the Hill Hotel next Sunday will be newspaper women from the four-state area of Iowa, Kansas, Missouri and Nebraska, who will attend the annual meeting of Region 6 of the National Federation of Press Women.

Mrs. Allen Johnson of Pilger, regional director, will preside at the meeting, which will open at 9 o'clock Sunday morning, following the annual meeting of the Nebraska Press Women on Saturday.

A 10:30 o'clock brunch Sunday morning will feature an address by Dr. Gertrude Manchester Hall of Bloomington, Ind., first vice president and acting president of the national federation. Director of publicity at Illinois State Normal University at Normal, Ill., Dr. Hall is in charge of press relations for the university.

Dr. Hall also will address the state meeting at the Saturday night banquet.

All Ready For LHS Hobo Day

Hobo Day — in case you didn't know—is a big day for Lincoln High School students who show up for classes wearing truly inspired costumes contrived from odds and ends found in attics and closets. In fact, the more bedraggled the better.

Getting in the mood for the annual event, Miss Patty Ikerd and Miss Paulette Ikerd, twin daughters of Mr. and Mrs. Floyd Ikerd, entertained a group of senior classmates at a buffet supper and slumber party on Tuesday evening.

All set for a tandem bike ride are (from the left) Gloria Gardner, Patty Ikerd, Carol Tichota, Jan Hatfield, Leola Swartz, Sandie Ness, Sharon Tichota, Paulette Ikerd, Scottie Matiss, Joyce Carr and Hally Macoy.

Guests, Travelers In Suburbia

KESSLER HEIGHTS

To Hastings last Saturday went Mr. and Mrs. Lonnie G. Thomas and their children, Michael, Julie, and Michelle, who were the guests of Mrs. Thomas's mother, Mrs. Floyd Arvanette, and Mr. Thomas's parents, Mr. and Mrs. Cletus Thomas. The family returned to Kessler Heights Monday afternoon.

And traveling south to Salina, Kan., last Saturday were Mr. and Mrs. Robert C. Connell and their sons, Jimmy and Steven, who were the houseguests of Mrs. Connell's parents, Mr. and Mrs. John Pankau, in Salina. They returned home late Sunday.

Understand that there were Lincoln residents visiting in Fairbury last week end — Mr. and Mrs. Ted Karabatsos and their children, Kay and Steve, who were the houseguests of Mr. Karabatsos' parents, Mr. and Mrs. Tom Karabatsos. They left Lincoln Saturday and returned home Monday evening.

SOUTH HILLS

Easter guests at the home of Mr. and Mrs. Alvin C. Freeman last Sunday were Mr. and Mrs. Virgil Mart and Mrs. Grace Fulton.

Arriving in South Hills last Thursday was Mrs. Henry Carlin who is in Lincoln for a visit with her son and daughter-in-law, Mr. and Mrs. James H. Carlin, and children, Mike, Jean, and Janice Marie, who was born on April 9. Mrs. Carlin will visit in Lincoln for several more weeks.

The Easter guests at the home of Mr. and Mrs. Homer D. Powell were Mrs. Powell's brothers-in-law and sisters, Mr. and Mrs. Robert Yost and their daughter, Linda, of Elwood, and Mr. and Mrs. William Maher and Pat, of Falls City, who arrived in Lincoln last Friday. They returned home Sunday afternoon.

Journeying to Manhattan, Kan., last Thursday were Mr. and Mrs. Donald W. Miltner and their youngest son, Duane. In Manhattan, they were the houseguests of Mr. and Mrs. Charles Darnell until Sunday evening.

And the Miltners' son Don also took an Easter vacation while his parents and brother were in Kansas. Don visited his paternal grandparents, Mr. and Mrs. Fred Miltner, in York.

And going to Cozad last Friday were Mr. and Mrs. Ted W. Thompson and their sons, Scott, Bruce, and Brad. After visiting with Mrs. Thompson's parents, Mr. and Mrs. Carl Gustafson, and Mr. Thompson's father, W. T. Thompson, the family returned to Lincoln Monday evening.

Word from the home of Mr. and Mrs. Donald E. Gould tells of additional Easter guests. Visiting last week end were Mrs. Gould's brothers and sister-in-law, Mr. and Mrs. Lloyd Stevenson and children, Gary and Larry, of Omaha; and Duane Stevenson of Geddes, S.D.; and Mrs. Gould's brother-in-law and sister, Mr. and Mrs. Johnny Kramer and their daughter, Miss Karen Kramer, of Yankton, S.D.

Miss Kramer, incidentally, is a student at the University of South Dakota in Vermillion.

HOLLINGSWORTH HEIGHTS

And from Hollingsworth Heights, comes news of more Easter travelers—Mr. and Mrs. Al Stroh and their sons, George and Joe who left Lincoln last Thursday for Shelbyville, Ind., where they were the houseguests of Mrs. Stroh's mother, Mrs. Edward Ferleman. Before returning home yesterday, they visited Mr. Stroh's brother-in-law and sister, Mr. and Mrs. Henry McElroy, in Kansas City, Mo.

Madam Chairman

A Host—And Guests

At the beginning of the current week Charles W. Swingle celebrated his birthday anniversary with considerable help from his grandsons, David (left) and Alexander Morrison, of Denver.

David and Alexander arrived with their mother, Mrs. Wayne Morrison, on Sunday, in ample time for the birthday. We think you also should know that David and his grandfather share the same birthday date.

Mrs. Morrison and her sons plan to spend two weeks as the guests of Mrs. Morrison's parents.

The Talk Around Town

There is talk of guests, parties—babies, the school crowd and this and that this morning. We could begin the day's work almost any place in our interesting news collection, but we choose to start with the guests.

* * *

We hear, for instance, that Dr. and Mrs. Emerson Ward of Rochester, Minn., will be arriving either Sunday or Monday to spend several days as the house guests of Mr. and Mrs. Robert H. Talbot.

Dr. Ward doubtless will devote much of his time to the meeting of the Nebraska Medical Association, which opens its sessions in Lincoln early in May, Dr. Ward is to present a paper at the meeting, and is to participate in several of the program features.

* * *

Already in town is Mrs. Lester Glenn of Birmingham, Ala., who is the house guest of her son-in-law and daughter, Mr. and Mrs. Robert H. Davidson.

The courtesies for Mrs. Glenn, who arrived earlier this week for a two weeks stay, began on Wednesday morning when Mrs. Davidson was a coffee hostess at her home.

On Friday afternoon Mrs. Elton Turner will pay courtesy to Mrs. Glenn when she entertains informally at her home.

* * *

There is a new face in the talcum powder set as of Tuesday, April 24. He is James Richard Blue who arrived on Tuesday at Bryan Memorial Hospital. The young man is the son of Mr. and Mrs. William D. Blue, and his mother is the former Mary Elizabeth Kinsinger, daughter of Mrs. J. Kinsinger, and Pi Beta Phi at Nebraska. Two other members of the baby's immediate family are his two year-old brother, John, and his paternal grandmother, Mrs. Max J. Blue.

Will Head Council

New officers of the Women's Inter-Club Council were elected Tuesday at the luncheon meeting of the group held at the University Club.

From the left are Mrs. Fred J. Kundert, corresponding secretary; Mrs. J. D. Miller, recording secretary; Mrs. Willis Hecht, president; and Mrs. Eber E. Tice, vice president.

A talk on urban renewal was given following the luncheon by Mrs. Eleanor Brown and Donn Davis.

Then, from Flagstaff, Ariz., comes news of the arrival of Miss Lori Ann Torgerson on April 19. Miss Lori Ann is the daughter of Mr. and Mrs. Malcom Torgerson, formerly of Lincoln, and we might add that she has a great-uncle and aunt, Mr. and Mrs. H. D. Ford, who reside in Lincoln.

* * *

Off to the southwest on Monday were Mr. and Mrs. Walter I. Black, and Mr. Black's father, John Black of Emerson. It was a two-car caravan to McAllen, Tex., since Mr. Black is on a business trip, and Mrs. Black has plans for Mojave, Calif., and a visit with her father.

Mr. Black and his father will return to Lincoln from Texas, and in mid-May Mr. Black will join Mrs. Black in Sacramento, Calif., for a brief holiday.

* * *

News from the University of Michigan this morning tells us that Miss Gretchen Groth, who is completing her sophomore year at Michigan, was one of 20 Michigan coeds to be tapped "Wydren", the junior women's scholastic and activity honorary. Miss Groth also was elected coordinating vice president of the Michigan Women's League, an organization which governs all women's activities on the Michigan campus, including Pan-hellenic regulations. She will be the only junior to serve on the League's executive board.

Miss Groth is a member of Gamma Phi Beta sorority at Michigan.

♣ K Q J 8 6

The bidding:

East	South	West	North
1 ♥	1 ♠	2 ♥	Pass
3 ♦	4 ♣	Pass	5 ♣
Pass	Pass	Dble.	

Opening lead — two of diamonds.

Here is a hand played in a team match. At the first table South became declarer on the bidding shown.

A diamond was led to the ace and that was the only trick taken by the defense. Declarer made the rest by ruffing two spades in dummy to establish his long suit. He scored 650 points for making five clubs doubled with an overtrick.

At the second table the bidding went:

East	South	West	North
1 ♦	1 ♠	2 ♦	2 ♥
4 ♦	4 ♠	5 ♦	Pass
Pass	Dble.		

Clubs were never mentioned at this table. South led the king of clubs against five diamonds doubled. North overtook with the ace and returned his singleton spade.

South won the ace and played the jack of spades which North ruffed. North returned a club, knowing from the opening lead that his partner had the queen, but East ruffed, cashed the ace of diamonds, and later lost a diamond to the king to go down two — 500 points.

As a result, the net score for the North-South pair at this table was that their team lost 150 points on the deal. However, they missed a golden opportunity to exact an 1,100-point penalty against five diamonds doubled.

The fault was largely North's. When he ruffed the jack of spades, he should have returned a heart. South would trump the heart, lead another spade for North to ruff, and another heart lead would then produce the sixth trick for the defense.

The hand demonstrates the value of the suit-direction convention. When South led the jack of spades, having a wide variety of spades to lead from, he had chosen to play his highest spade, thus indicating he wanted the high suit returned (as between hearts and clubs) after North ruffed.

If South had wanted a club return, he would have led back his lowest spade to call for a low suit return. North's disregard of the ruffing convention cost him 600 points.

We Hear That

Mrs. Delynn Peterson and her two daughters, Kay and Janis, arrived from Kimball last week to be the over-Easter guests of Mrs. Delynn's parents, Mr. and Mrs. Raymond Glantz. Mr. Delynn joined his family in Linclon for the Easter weekend and accompanied them home on Monday.

Dear Abby

Will Power Is What It Takes

Abigail Van Buren

DEAR ABBY: My man smoked three packs of cigarettes a day and chewed up a whole box of snuff, too. He said that his mouth felt like the bottom of a bird cage. He got a prescription from his doctor for something that was guaranteed to curb his desire for smoking. I don't know what it was, but I know I saw a miracle happen because my husband hasn't smoked in 4 years.

OLLIE'S WIFE

☆ ☆ ☆

DEAR ABBY: One day, twelve years ago, I decided that smoking was a filthy, stupid and expensive habit, so I made up my mind to quit. This is what I did. The moment I walked into a room, I announced, "I'VE QUIT SMOKING." After that I couldn't very well bum a cigarette off anyone, and I didn't carry them myself. I knew that I didn't dare beg a smoke or I'd make myself look like a real jerk. It was a matter of pride.

NO JERK

☆ ☆ ☆

DEAR ABBY: after having the cigarette habit for 40 years, I took my cigarettes out of my pocket and said, "You have been bossing me around for 40 years, now I am going to boss YOU around." I put away the pack and never smoked again. That was 15 years ago. I'm now 92 and feel fine.

W. H. E. (Ontario)

☆ ☆ ☆

DEAR ABBY: When I had to have a cigarette before I could open my eyes fully in the morning, I knew I had better quit. I tried to taper off, but that never works. I finally walked into a church one morning (it wasn't even of my own denomination) got down on my knees and prayed to God to deliver me of the habit. And do you know I haven't smoked or even had the desire to, since? When everything else fails, try prayer.

AN ORDINARY GUY

☆ ☆ ☆

DEAR ABBY: My husband smoked like a chimney. He had a lung X-ray taken at the suggestion of his physician. A dark shadow was discovered on his lung. Fortunately it was NOT cancer, but my husband snipped off that part of the X-ray and taped it to a package of cigarettes. He carries it with him constantly and now every time he is tempted to smoke, he looks at that X-ray and takes a peppermint drop instead.

GRATEFUL

☆ ☆ ☆

DEAR ABBY: Here is a proven method for overcoming the cigarette habit. If a person smokes 40 cigarettes a day, he should cut down to 39 the first day, 38 the second, 37 the third and so forth. It takes a lot of willpower, but if I could do it (I was a 4-pack-a-day smoker for 32 years) anybody can.

WILLPOWER WILL

☆ ☆ ☆

DEAR ABBY: A psychologist once told me that in order to break a habit, substitute another one. So instead of reaching for a cigarette, reach for a piece of gum, a carrot stick or a piece of licorice. It really works. When you finally get your sense of taste and smell back again, you will never go back to smoking. It happened to me after 30 years.

SUBSTITUTOR

☆ ☆ ☆

DEAR ABBY: I sat down one day, at the age of 48, and started to add up the amount of money I had spent for cigars since I started to smoke them at the age of 24. When I realized that $5,000 had gone up in smoke, I lost my appetite for smoking.

SMART TOO LATE

Stop worrying. Let Abby help you with that problem. For a personal reply, enclose a stamped, self-addressed envelope.

Delta Zeta Plans State Day

Nebraska alumnae of Delta Zeta sorority at Nebraska Wesleyan University will be in Lincoln Saturday to attend the group's State Day program.

Planning to attend are Miss Charlotte Dobry and Miss Teresa Timmons, Greeley, Colo.; Mrs. Larry Abker, Bruning; Mrs. Howard Hall, Geneva; Mrs. Martin Park, Columbus; Mrs. Jerry Wallerstedt, Oakland; Mrs. Oscar Wiberg, Gering; Mrs. Donald E. Bornemeier, Murdock; Mrs. Richard Gentry, Falls City; and Mrs. Lloyd Ang, Valparaiso.

Coming from Omaha will be Mrs. Robert Hall, Mrs. Daniel Ranney, Mrs. Ralph Eckwall, Mrs. Robert Benton, Mrs. Harlon Weatherbee, Mrs. Charles Voorhees, Mrs. J. W. Benjamin, Miss Sue Wilkie and Mrs. John Gaskill.

The State Day will open with a 10 o'clock coffee at the chapter house.

NEW WAY TO BE SUDDENLY SLIM

Are you a woman whose figure is on the good side but might look perfect? You'll be thrilled by the new easy way science has discovered for you to become Suddenly Slim. If you're more than 15 pounds overweight, then this idea is not for you. If your weight problem falls within this range, then you can realize a new, smoother figure today, without diet or exercise.

Suddenly Slim is an all-new kind of 4-oz. girdle constructed of science fibers. A startling innovation is the sheer front panel. This is permanently stiffened by a science process and cannot give or sag. It's surrounded by a slimming action border. A featherstitched panel down each side of this girdle will contour your hips if they are a problem. The girdle itself is of "wonder" Lycra spandex fiber. It feels like nothing on but has such slimming strength it gives your figure everything that's possible with a foundation.

"Suddenly Slim" is the peak achievement of the designer-genius, Olga.

Be "Suddenly Slim" today in either girdle or panty version. Call Foundations, Miller & Paine, 432-8511 now.

Washington Suffers 8th Loss In Row

Boston (AP) — Boston, with home runs from Fank Malzone and pitcher Gene Conley, sent the last place Washington Senators to their 8th straight loss Wednesday.

In addition to clouting a two-run homer in the 5-run Red Sox 4th inning, Conley limited the Senators to 5 hits while winning his second game against one defeat. He had 8 strikeouts.

Malzone put Boston ahead 3-0 in the 4th with his first home run of the season. Carl Yastrzemski and Jim Pagliaroni had walked before he hit his homer.

Chuck Schilling then singled and Conley hit starter Jim Hannan's first pitch into the left field screen for a 5-0 lead.

The Senators were unable to get a runner as far as second base until Bob Johnson and Ken Retzer singled and John Schaive doubled in the 8th for Washington's only run.

The Sox added their last two runs in the 7th. Conley walked, Yastrzemski singled and Pagliaroni drove a double into a strong wind and off the left field wall, scoring both.

The temperature at the start of the game was 78, but a wind shift in the 6th inning with Boston ahead 5-0, dropped the mercury 22 degrees to 56 within 10 minutes.

Purkey Wins 3rd Straight For Cincy

Cincinnati (AP) — Bob Purkey of the Cincinnati Reds went the distance Wednesday night for the first time this season as he won his 3rd straight game by throttling the New York Mets with 4 hits for a 7-1 victory.

Purkey was a 16-game winner for the Reds last year.

Vada Pinson, who had driven in 20 runs in the Reds' first 14 games, added two more to that total as he rapped Met pitchers for a double and two singles.

Bob Miller, formerly with the St. Louis Cardinals, was the starting and losing hurler for the Mets. He was followed by Bob Moorhead, Al Jackson and Sherman Jones.

The Mets didn't get a hit off Purkey after the 4th and he walked only one.

After spotting the Mets a first inning run on two hits and Gus Bell's infield out, the Reds took command in the next two frames. They tied the count in the second and scored 3 times in the 3rd as they came up with 4 singles and were helped by a hit batsman and a walk.

Pinson and Wally Post each drove in a run and another tallied on a double play.

Three more runs came in the 7th as John Edwards opened with a double and Leo Cardenas followed with the Reds' second triple of the season. A walk and Pinson's single, coupled with an error by Bell on that hit brought in the other runs.

Eagle-Alvo Wins Loop Track Meet

... WESTLAKE SCORES BIG

HOW THEY SCORED			
Eagle-Alvo	50½	Malcolm	17½
Murdock	33½	Nehawka	17½
Avoca	33½	Central	10
Bennet	32	Palmyra	1
Elmwood	28½		

By MIKE COONEY
Star Sport Writer

A one-two finish in the low-hurdles broke up a tight team race and started Eagle-Alvo to the Mustang Conference track championship at Nebraska Wesleyan Wednesday afternoon.

Coach Fritz Bull's Eagles had been locked in a tight struggle with Avoca for the team trophy until the 10-point finish in the hurdles gave them a substantial lead they never relinquished.

Arnie Westlake, the meet's high scorer with 15½ points, won the race over the low barriers with teammate Steve Mack second. These points assured Eagle-Alvo of the championship.

Avoca managed to salvage a tie for second with fast finishing Murdock at 33½ points, 17 behind the winners.

Westlake, and Murdock's Jim Panska were the individual standouts.

Panska collected 15 individual points with firsts in the broad jump, and 220 and a 3rd in the 100. The Bulldog strongboy also ran anchor on the winning 880-yard relay team.

Westlake added a 4th in the shot and a tie for 4th in the high jump, to his hurdle slam.

Eagle-Alvo collected the team honors by virtue of greater depth. The Eagles placed in every event but the discus, although they won only 3 events.

Two meet records were set on a warm, but windy day.

Wayne Dunkle of Elmwood added 3 inches to the high jump mark with a 5-8½ effort. All 5 place winners were over the old standard.

Arlin Hollenbeck, Elmwood's smooth striding distance man, lowered his own mile record with an easy 4:56.6 win.

BET OF $15,000 NOT CONFIRMED

New York (AP)—It couldn't be confirmed officially but the clubhouse at Aqueduct buzzed Wednesday with the story of a man who bet $15,000 Tuesday on Parrott's Polly, the 3-5 favorite, to show and saw the horse finish last in a field of 7.

Had Parrott's Polly placed 3rd or better, the bettor would have won $750. The race was won by Frangula, who paid $47.50 for $2.

Two weeks ago a man reportedly bet $12,000 on Green Ticket, a 4-5 favorite, to show and repaid a profit of $600 when his judgment proved correct.

5 Errors Give KC 9-8 Edge

Detroit (AP) — The Kansas City Athletics capitalized on Detroit's sloppiness in all 5 of their scoring innings Wednesday before holding off a Tiger comeback as they gained a 8-9 victory. The messy game was featured by a parade of 35 players.

Only two of the rambunctious Athletics runs were unearned, but 5 infield errors, a passed ball and a wild pitch helped immeasurably in their 5th triumph in 6 games.

The A's held 6-0 and 9-4 leads before Bob Grim halted a 4-run Detroit rally in the 8th.

Grim was the 4th pitcher for the Athletics, who used 14 players. The Tigers employed 21 players, 5 of them pitchers.

The A's sailed to a 6-0 lead behind Jerry Walker, who picked up his 3rd victory without defeat. Walker's wildness hurt him in the 6th when Detroit scored 4 times and cut the Kansas City lead to 6-4.

Cards-Colts Marathon Ends In Tie After 17

Houston, Tex. (AP) — Ken Boyer's run-scoring single in the 9th ining gave the St. Louis Cardinals a 5-5 tie with the Houston Colts and the two teams struggled for 8 more scoreless innings before curfew halted play after 17 innings early this morning.

BOXER RECOVERING

Boxer Tunney Hunsaker and his wife, Phyllis, walk in Bluefield Hospital as the fighter prepares to go home. He was hospitalized after receiving brain injury in fight April 6 with Joe Shelton of Cleveland. Similar injury killed former welterweight champion Benny (Kid) Paret.

Homers Spark Cubs By Bums

... BANKS, RODGERS HIT

Chicago (AP) — Eighth inning homers by Ernie Banks and Andre Rodgers, who returned to shortstop after missing 8 games because of a knee injury triggered the Chicago Cubs to a 9-6 victory over the Los Angeles Dodgers and pitcher Larry Sherry Wednesday.

Banks' 4th homer, a blast to the right field catwalk, tied the score at 6-6. It was the first hit off Sherry this season. He previously pitched 7 innings in 4 games.

Sherry's troubles deepened when he hit Billy Williams with a pitch, and then delivered a wild pitch to put the Chicago outfielder on second base.

George Altman was passed purposely before Rodgers' homer reached the last row of the vacant center field seats.

The belated bombing gave Don Elston, 3rd Cub pitcher, his first decision of the year. Elston yielded just one hit, Tommy Davis' single, in pitching the last two innings after Glen Hobbie started and Jackie Curtis southpawed through the 6th and 7th innings.

The Dodgers got to Hobbie for a quick run in the first on Maury Wills' leadoff double and Jim Gilliam's single.

The Cubs balanced this on singles by Williams and Altman in the second ahead of Rodgers' sacrifice fly as the veteran shortstop started his 5 RBI performance.

Ron Santo smashed a three run homer off starter Johnny Podres, who retired after 7 innings, to give Chicago a 4-1 edge in the 3rd.

The Dodgers' second run was Duke Snider's No. 3 homer with one out in the 4th. Los Angeles' 4-run 5th was one of the oddest ever seen in Wrigley Field.

Second baseman Ken Hubbs and Lou Brock, rookie center fielder, collided chasing Willie Davis' short fly. It bounced away for a home run inside the park. It was Willie's 3rd of the year.

LEMON HITS TWINS INTO 3-1 VICTORY

Baltimore (AP)— Jim Lemon blasted a two-run pinch homer with two out in the 9th inning Wednesday night as the Minnesota Twins defeated the Baltimore Orioles 3-1 and snapped a 4-game Oriole winning streak.

The 400-foot drive, on a 3-2 pitch from Chuck Estrada, drove home Zorro Versalles who had singled with one out. It was Lemon's first hit of the season, in his 3rd appearane as a pinchhitter.

Lemon batted for winning pitcher Don Lee, who allowed Baltimore 3 hits through the first 8 innings. The only Oriole run came on a homer by Jack Brandt in the 7th.

McCLATCHEY PEPS HUSKERS

Singles In 13th For 2-1 Victory

... ENDS PITCHING BATTLE

By DON BRYANT
Star Sports Editor

Little Dave McClatchey, who almost got saddled as a goat, calmly ripped a single in the bottom of the 13th inning Wednesday afternoon to give the Nebraska Cornhuskers a 2-1 victory over pesky Concordia of Minnesota at the NU diamond.

The Husker left fielder had dropped two fly balls to set up earlier Concordia threats, but redemption was achieved with his bat.

McClatchey's single, which drove in Don Schindel from 3rd base, climaxed a tremendous pitching dual between 3 Huskers and Wayne Sondreal of Concordia, truly a hard-luck chucker.

Neither of the NU runs were earned as Concordia contributed 7 errors (NU had 5).

Sondreal pitched 12 1-3 innings and overshadowed some fine chucking by the Huskers. He allowed only 8 hits, whiffed 6 and didn't walk a man until the 13th.

But that one started his downfall. Schindel forced No. 3 Nebraska pitcher Ernie Bonistall — the winner — and then stole second base. On the play the throw down to second sailed into centerfield and Schindel sprinted to 3rd.

Wayne Odell was summoned to hold the line, but McClatchey drilled his first pitch through the second base hole to give the Huskers the rubber game of the series.

Husker George Landgren was tagged for two hits and one run in the first inning, then zeroed in to blank Concordia on one hit through the 5th inning.

Tom Ernst came on for two frames of hitless pitching before Bonistall took over in the 8th.

Ernie 3 times worked himself out of serious jams, two set up by Husker miscues.

After a single off Landgren in the 3rd, Concordia didn't get a hit until Curt Josephson doubled in the 10th. Two more singles were all the visitors could muster as the 3 NU hurlers limited them to 6 hits.

Nebraska had scoring chances in the 5th, 9th, and 10th, but couldn't come up with a key hit until McClatchey delivered in the 13th.

Concordia now moves across town to tackle Nebraska Wesleyan in a series, while the Cornhuskers await an invasion by the Missouri Tigers. Mizzou comes in for a Big 8 doubleheader Friday and a single game Saturday.

Coach Tony Sharpe's Huskers are now 8-5 for the season and 4-4 in the Big 8.

No Move Asked By Gottlieb

New York (AP) — The board of directors of the National Basketball Association adjourned their spring business meeting Wednesday without receiving a formal application from Eddie Gottlieb, president of the Philadelphia Warriors, to move his club to San Francisco.

A spokesman, however, said the possibility of such a move was discussed informally when other owners asked Gottlieb regarding newspaper accounts of such a shift.

Some newspaper stories have Gottlieb selling his Philadelphia franchise to San Francisco interests with Syracuse then moving to the Pennsylvania city. Los Angeles already is a member of the NBA and a second West Coast city would cut travel costs.

During their session Wednesday the directors discussed the schedule for the 1962-1963 season. Another 80-game program such as last season likely will be played. Final decision will be made May 3 when the meeting is resumed.

—LOPEZ DELIVERS CRUCIAL SINGLE—

YANKS RALLY IN 9TH TO TRIP CHISOX, 7-6

New York (AP) — Hector Lopez hammered a two-run line single to center in the 9th inning Wednesday with the bases loaded, giving the New York Yankees a 7-6 victory over the Chicago White Sox.

Left-hander Juan Pizarro kept the Yankees in check for 8 innings but an error by Luis Aparicio with one out opened the gates for the New Yorkers, who went into the 9th trailing 6-3.

Roger Maris followed the boot with his second single of the game, and when Pizarro walked Mickey Mantle, Ed Fisher, a knuckleball pitcher, came on in relief.

Pinch hitter John Blanchard greeted him with a single, scoring Boyer.

After Fisher delivered a ball to Moose Skowron, Turk Lown took the mound for Chicago. He walked Skowron, forcing in Maris, and then served the single to Lopez that scored Mantle and Blanchard.

Earlier the White Sox jumped on starter Whitey Ford and 3 successors for 17 hits.

Fisher was charged with the loss and the victory went to Roland Sheldon, who worked the 9th.

The victory snapped a 3-game Yankee losing streak.

Jim Landis was the big gun for the Sox, with a double that bounced into the distant left field bull pen, an enormous triple, and a solo home run, his 5th of the season.

The double combined with singles by Al Smith, Floyd Robinson and Mike Hershberger got the Sox off to a two run lead in the first.

Landis' triple came in the 8th and he scored when Jim Coates cut loose with a wild pitch.

After Landis' home run in the 5th, the Yankees got a pair of runs in their half on doubles by Ford and Clete Boyer, and a single by Mantle.

Maris' two singles ended a long batting slump that saw him go hitless in 16 appearances at the plate.

Skowron, Yankee first baseman, homered to right field in the 8th with the bases empty.

4-Hitter By Rookie Ups Los Angeles

Los Angeles (AP)— Rookie southpaw Bo Belinsky pitched a 4-hitter and scored his second victory in two tries Wednesday night as the Los Angeles Angels pulled out of a 4-game losing streak by defeating the league leading Cleveland Indians, 6-2.

Belinsky, who had a 9-10 record last season at Little Rock, allowed only one earned run and struck out 8 while walking 5.

Right-hander Pedro Ramos, making his first start for the Indians, went 4 innings and took the loss. The Angels scored two runs in the 4th, getting the first one on a 380-foot homer by Leon Wagner, his 4th of the season.

Knights, Rockets Meet In Regional

...ST. LUDGER DEFENDS

Pairings have been announced for the Class A and B regional baseball tournaments.

Defending Class A state champion Lincoln Southeast will play Lincoln Northeast in the regional finals May 8.

Creighton St. Ludger, defending Class B titlist, will collide with Leigh in the first round of regional play at Dodge on May 3.

The pairings:

Class A—District 1, Lincoln Northeast at Lincoln Southeast, May 8; District 2, Central City at Lincoln Pius X, May 8; District 3, Papillion at Boys Town, May 8; District 4, Omaha Cathedral at Omaha Bishop Ryan, May 3, winner to play Omaha Holy Name at Ryan, May 8.

Class B—District 1, Loomis at Guide Rock, May 3; winner to play Elmwood at Adams; Bennet v. Adams at Adams, morning, May 8; finals, afternoon, May 8; District 2, at Uehling, Omaha St. Joseph's v. Arlington, May 3; winner to play Uehling; Springfield v. Bennington, morning, May 8, finals, afternoon, May 8; District 3 at Dodge, Emerson Sacred Heart v. Winside and Leigh v. Creighton St. Ludger, May 3; winner Sacred Heart-Winside game v. Dodge and winner Leigh-St. Ludger v. Homer, morning, May 8, finals, afternoon, May 8; District 4 at Seward Concordia, Belgrade v. Garland, May 3; winner to play Concordia; Brainard East Butler v. Humphrey St. Francis, morning, May 8, finals afternoon, May 8.

Regional winners qualify for the state tournament at the University of Nebraska diamond on May 21-22.

In the Class B firing on May 21, winners of Districts 4 and 3 meet at 9:30 a.m., and the winners of District 1 and 2 collide at 11:30. The finals are set for 3 p.m. May 21.

Class A competition finds the winner of Ryan v. Cathedral-Omaha Holy Name squaring off against the Southeast-Northeast victor at 9:30 a.m., on May 22 and the winner of the Papillion-Boys Town v. winner of Pius-Central City, at 11:30. Class A finals will also be played at 3.

Rocket Netters Bump Southeast By 5-2

Lincoln Northeast won 3 of 5 singles matches and both doubles events to take a 5-2 tennis win over Lincoln Southeast.

Only two matches went more than two sets with Bill Ferguson of Northeast downing Kile Johnson, 4-6, 6-4, 7-5, and Don Hampton of Northeast teaming with Roger Galloway for a doubles win over Southeast's Johnson and Henry Cox.

Results:

Bill Ferguson (NE) over Kile Johnson, 4-6, 6-4, 7-5; Roger Galloway (NE) over Bob Brogden, 6-0, 6-1; Henry Cox (SE) over Don Hampton, 6-4, 6-1; Robb Cole (SE) over Dave Freedstrom, 8-6, 6-3; Paul Craig (NE) over Bill Muggy, 6-4, 6-1; Hampton-Galloway (NE) over Johnson-Cox, 7-5, 4-6, 6-4; Ferguson-Freedstrom (NE) over Brogden-Cole, 6-3, 6-4.

Tyrell Homer Peps Rockets

A two-run homer by Les Tyrrell in the 5th inning provided what proved to be the winning run in Northeast's 5-2 win over Lincoln Southeast Wednesday afternoon.

Tyrrell belted his homer over the 360-foot fence in left-center with Jerry Motz on base to give the Rockets a 3-2 lead.

Southeast jumped out in front with two runs in the first inning as Mike Jennings singled, went to second on John Roux's base on balls and scored on a single to center by Tony Sharpe Jr.

NCAA Baseball Meet In Omaha, June 11-15

. . . GRANT STUDY PLANNED

New Orleans (AP) — The executive council of the National Collegiate Athletic Association approved a $5,000 appropriation Wednesday to study the possibility of establishing a national scholastic minimum for college athletes.

The NCAA organized a committee last year to investigate such a possibility with Dr. Robert F. Ray of the Univeraity of Iowa as its chairman. The appropriation approved Wednesday opens the way for a study of such a test.

Ray explained that the Atlantic Coast Conference and the Big 10 now have such tests and if the prospective athlete cannot show he is predictably able to do college work, he is not awarded a grant-in-aid scholarship.

There was little news of note coming out of Wednesday's opening session. The report of the 4-man committee on infractions comes under scrutiny today with no indication of any penalties in sight.

There have been reports the University of Colorado is in line for discipline because of the alleged "slush fund" operated by former coach Everett (Sonny) Grandelius, who was fired as head man of the Buffaloes on March 17.

The group also approved 4 additional championships for its college division, adding golf, track and field, tennis and wrestling to the national titles already established.

The executive committee also endorsed the recommendation of the American Association of College Baseball Coaches that the NCAA national baseball champion meet a comparable team from Japan in Honolulu, Hawaii. If the NCAA champion agrees — and the NCAA cannot make its champion participate — the best 3-of-5 series would be played in July in the Hawaiian Islands.

In other action:

The dates for the National Baseball Championships were set at June 11-15 at the University of Omaha.

Set March 29-30, 1963 for the National Gymnastics tournament at the University of Pittsburgh, and picked March 14-16 for the National Ice Hockey championships to be held at Boston College.

MOWBRAY SHARP

Bill Mowbray fired a 74 to take low gross honors in the Iron Derby Stag at Lincoln Country Club Wednesday.

Don North and Tom Ludwick recorded 37's in 9-hole play.

Cepeda Peps Giants Past Pirates With Home Run

. . . FIGHT NEARLY BREAKS OUT

Pittsburgh (AP) — Orlando Cepeda drove in 4 runs with a double and a homer Wednesday night in sparking the San Francisco Giants to an 8-3 victory over the Pittsburgh Pirates.

Cepeda, who has been troubled with a groin injury, doubled home the first Giants' run in the first inning. He drove in 3 more in the 6th with his 4th home run of the season, a drive over the left field wall.

A near-fight occurred in the 6th when Pirate starter Bob Friend sailed a pitch over San Francisco batter Ed Bailey's head after Cepeda's homer. Bailey took a couple of steps toward the mound, and Pirate catcher Don Leppert grabbed him as both benches emptied. The umpires quickly restored order, and Bailey walloped a solo homer into the right field stands for the 5th Giant run.

Friend was replaced at the start of the 7th and was charged with his first loss after winning 3 straight. He gave up 5 runs on 7 hits.

Rookie Gaylord Perry was credited with his first major league pitching victory against no defeats, although he needed a good relief stint from Don Larsen to wrap up the game.

Perry was touched for 7 hits in 5 full innings. He gave up two runs in the 4th when Dick Stuart singled, Don Hoak tripled and Friend followed with a single after Bill Mazeroski had been purposely passed.

FOUR-HITTER TOSSED AT PHILLIE BATS

Milwaukee (AP) — Milwaukee right-hander Ron Piche made his first start of the season a sparkling affair Wednesday night, tossing a 4-hitter to beat the Philadelphia Phillies 7-2 with home run help by Ed Mathews and Joe Adcock.

The 26-year-old Piche pitched the Braves to their second straight victory and 5th of the season, striking out 4 and walking only one.

The Phillies were held to 3 singles and a 5th-inning double by Sandy Amaro.

DeWitt Is Winner In Cloverleaf

HOW THEY SCORED

DeWitt	120⅔
Western	33⅓
Dorchester	22⅔
Diller	16⅓
Plymouth	13
Milligan	11
Tobias	7

Crete—DeWitt easily outdistanced the field Wednesday in copping the Cloverleaf conference track meet with 123⅔ points.

Western was second with 33⅓ while Dorchester finished 3rd with 22⅔.

DeWitt won 10 of the 14 events and tied for first in another event—the pole vault. Dorchester's star, Dan Tesar, did not compete because of a pulled leg muscle, thus hampering the Bulldogs in the 440 and the field events.

FIELD EVENTS

Shot put—Duane Bulloch, Dorchester, 46-5; pole vault—(tie) Wattjes, DeWitt; Smith, DeWitt; Sysel, Dorchester, 10-6½; high jump—Krebs, Diller, 5-8¼; broad jump—Smith, DeWitt, 20-9; discus—Tietjen, DeWitt, 128-9.

TRACK EVENTS

100—Holz, DeWitt, :10.7; 220—Smith, DeWitt, :23.7; 440—Holz, DeWitt, :55.7; 880—Siems, DeWitt, 2:10.6; 120 HH—H. Wattjes, DeWitt, :15.9; 180 LH—Smith, DeWitt, :21.4; Mile—Strokebrand, DeWitt, 5:02.7; 880 Relay—Western, 1:40.5; Mile relay—DeWitt, 3:54.4.

Matador To Visit Hemingway's

Madrid (AP) — Spain's top matador, Antonio Ordonez, said Wednesday he will visit New York early next month to have a look at the last will of Ernest Hemingway, "part of which affects me directly."

Ordonez left by plane for Paris en route to Mexico for a bullfight in Tijuana, April 29.

The matador was a close friend of Hemingway and his widow Mary, who invited him to New York.

Former Phils Whiz Kid Given Release By Yanks

WINNER OF 234 GAMES

New York (AP) — Robin Roberts, a 234-game winner for the Philadelphia Phillies in the National League, was given his unconditional release Wednesday by the world champion New York Yankees.

Roberts, a 35-year-old right-hander, never threw a ball for the Yankees in the regular season. However, he did appear in 5 exhibition games and worked 11 innings, allowing 15 hits and 8 runs.

The former Phillie Whiz Kid of the 1950 pennant winners was purchased by the Yanks for $25,000 last Oct. 16. His contract reportedly called for a $29,000 salary.

"It was a gift and a gamble," said Roy Hamey, the Yanks' general manager who announced the release. There was press box speculation that Roberts was cut loose at such an early date to give him a chance to hook on with some other club.

"I regret that I have not been able to pitch Roberts more," said Manager Ralph Houk. It is our feeling that he should have every chance to get another job and it is for that reason that we are releasing him at this time."

Roberts packed immediately and left Yankee Stadium for his home in Meadowbrook, Pa., near Philadelphia, before the game with the Chicago White Sox.

"I want to stay in baseball as an active player," he said. "Naturally, I am a little shocked at this release but I think I am still capable of pitching."

Roberts, who won 20 or more games in 6 straight years from 1950 through 1955, was very definite about one thing. He did not plan to retire.

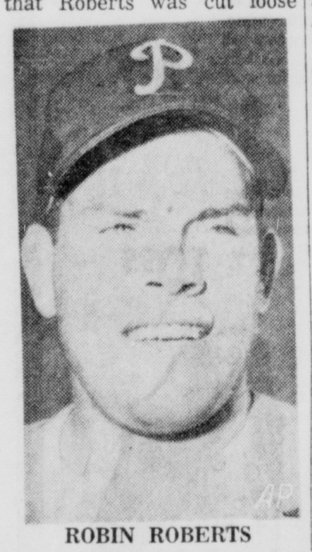

When asked if he would contact any other clubs or wait until they called him, he said, "I don't know right now. I just know that I want to stay in baseball."

When Bob Carpenter, owner of the Phils made the deal last October, he said he "overcame the only sentiment I have ever had in baseball."

Roberts was passed up in the expansion draft held after the 1961 World Series. When he was sold to the Yanks all clubs in the National League passed on waivers, after his 1-10 season with the Phils.

At the height of his career, Roberts led the National League in complete games for 5 years from 1952 to 1956. His biggest season was 1952 when he won 28 and lost 7. He pitched in one World Series, 1950, and appeared in 5 all-star games.

The Yankees also optioned Hal Stowe, a 24-year-old left-handed pitcher, to their Richmond farm of the International League.

Giambra Not Hurrying

Miami Beach, Fla (AP) — Joey Giambra, scheduled to meet Florentino Fernandez in a nationally televised 10-round middleweight fight at Miami Beach Auditorium Saturday night, opened training.

Neb. Game Commission Reports Top Sauger Run

... NEAR GAVINS POINT

The State Game Commission Wednesday reported one of the best sauger runs in recent years is in progress below Gavins Point Dam.

The commission said limit catches of sauger averaging 14 inches and up to 3 pounds are being brought in every day.

Bob Downing of Norfolk, law enforcement supervisor, said the hot spot is on the Nebraska side of the dam, west of the boat dock . . . Minnows are preferred bait, with best results coming from fishing just off the bottom.

"This is definitely one of the best, if not the best sauger run I've ever seen here," Downing said.

The Commission said fishing has improved considerably all along the Missouri, with channel catfish, crappie, bullhead, carp, and bass being caught in Burt and Dixon counties.

Conservation officer Max Showalter said bass fishing has picked up near Nebraska City. John Woolsey of Nebraska City caught 26 catfish and 32 other fish within a 24-hour period recently. The following day he brought in 18 catfish and 19 sturgeon.

The Louisville lakes have been producing good bass and carp fishing. Donald Kane of Omaha took a 3¾-pound largemouth at Lake 3, and George Lane of Omaha landed two largemouth averaging 11 inches at Lake 2.

The Commission said trout fishermen have been connecting in Brown and Long Pine creeks in Brown County. The run in the Panhandle has slowed down, although a few trout were caught in 9-Mile Creek in Scotts Bluff County.

Walleye fishing has begun in Lake Minatare, and some catfish and white bass have also been caught there. Walgren and Smith lakes in Sheridan County were producing bullhead, bluegill, crappie and bass.

John Cooper of Fairbury caught a 22-pound yellow catfish in the Little Blue River west of Fairbury. He used a set line with bluegill for bait. Catfish and carp fishing have been good on both the Little Blue and Blue Rivers. Bass up to 5 pounds have been taken from Alexandria Lakes in Jefferson County.

Bridge Agreement Reached

Ames, Ia. (AP) — An agreement with South Dakota for repair and replacement of flood-wrecked Interstate 29 bridges across the Big Sioux River at Sioux City was approved Wednesday by the Iowa Highway Commission.

One of the twin bridges was undermined by flood water and collapsed during last month's flood.

Engineers later recommended that steel piling be placed around the piers of the other span to protect them from future damage.

Under the agreement South Dakota is to design and supervise construction of the project. The two states are to share equally in the cost, which will be supplemented by federal emergency aid funds.

The South Dakota Highway Department is to receive bids April 30 on removing parts of the old bridge, clearing away debris which would interfere with proper construction, and the placement of stabilizing fill around one pier.

Other work involved in the project will be let later on, on a unit-bid basis.

Wheel Tax Hike Eyed By Dworak

Omaha (AP)— Mayor James Dworak said money needed for street resurfacing and storm sewer maintenance should be secured without raising the mill levy, and raised the possibility of a wheel tax increase.

The present wheel tax is $8 for cars with graduated increases for heavier vehicles.

Dworak noted this is the last year of street resurfacing funds provided in a $4.5 million general obligation bond issue voted 10 years ago. Storm-sewer bond funds also run out this year.

County Savings Bonds Goal Is $4.5 Million

A quota of $4,490,400 has been set for U.S. savings bond sales in Lancaster County during May and June. The Treasury Department schedules its freedom bond drive during these months.

Sales for the first half year count toward the goal, according to Clifford G. Weston, county sales chairman. March sales were $631,463, bringing the total for the first 3 months of 1962 to $2,180,281.

Over Nebraska, March sales totaled $6,802,746. The 3-month total was $26,157,975.

Fewer Holdup Alarms Heard During 1961

Holdup alarms put all available police units on alert only 85 times in 1961, as compared to 95 in 1960.

The number of alarms received climbed steadily since 1954, when there were 26, to 1960's high. Police Chief Joseph Carroll said most of the calls received from the automatic alarm systems turned out to be false.

"About half of these were set off accidentally by someone," the chief said, "and half resulted from the malfunctions in the systems."

Carroll attributed the fall in number of alarms received to correction of defects in systems installed in the last few years. He said the number of alarms rose through 1960 were because many automatic alarms have been installed by Lincoln businesses since 1954.

Carroll added that there was no way to estimate the cost of a false alarm.

Lincoln Boy, 9, Bumps Parked Car With Bike

Nine-year-old Daniel McCabe of 2666 High suffered cuts Wednesday afternoon when his bicycle ran into the rear of a parked car on 27th between Sherman and High.

Police said the boy, who was treated at St. Elizabeth Hospital, was looking to his rear as a traffic precaution when he struck the car.

Gas Taxes Jump 17% In February

A total of 30,001,316 gallons of motor fuel on which taxes were paid was imported into Nebraska during February, the State Department of Roads said.

This does not include refund gallonage nor that used in aviation or agriculture.

The gallons taxed during February increased 17% compared with the gallons taxed during February of 1961.

During the first two months of 1962 the gallons taxed increased 13% compared with those taxed during the same period a year earlier.

Jockeys Get Lists

London (UPI) — The British Broadcasting Corp. followed a new policy under which disk jockeys no longer can play records of their own selection but must follow a list prescribed by the BBC.

...taste the Greatness of historic OLD CROW bourbon

TODAY- LIGHTER, MILDER 86 PROOF

GEN. BASIL DUKE in New York at Civil War's end. He called Old Crow "the most famous ever made in Kentucky."

The greatness of Old Crow is a greatness of *quality*... of smoothness, of magnificent maturity, of perfect character. That is why for 127 years, many great men like Mark Twain, Jack London, Henry Clay and Daniel Webster have praised Old Crow. Today, more people buy Old Crow than any other. Why?...Try it.

Preferred by more Americans to any other

OLD CROW
The Greatest Name in Bourbon

LATE SELLING NIPS GRAINS

Chicago (AP) — A late burst of selling virtually wiped out some broad advances in corn futures Wednesday on the Board of Trade and left other commodities generally weak.

At the finish, the only advances were in small fractions and limited to old crop corn deliveries. Rye slumped more than two cents on the May and July contracts and well over a cent on others. Losses ran to a cent in soybeans while wheat was only slightly easier.

At the close, wheat was unchanged to ¼ cent a bushel lower, May $2.09¾; corn ⅜ higher to ⅜ lower, May $1.12⅜-½; oats ¼-½ lower, May 69⅞-70; rye 1⅜-2⅜ lower, May $1.28⅜-¼; soybeans ¼-1 cent lower, May $2.49⅞.

BUTCHER HOGS STEADY, WEAK

Omaha (AP) — Butcher hogs were steady to 25c lower, mostly steady to weak on the Omaha market Wednesday.

Prices on fed steers were steady to 25 cents lower, but heifers held steady.

The lamb market was not sufficient to establish a trend.

OMAHA

Hogs: salable Wednesday 10,500; barrows and gilts steady to 25 lower, mostly steady to weak; sows steady to 25 lower; No. 1 and 2 usually sorted 200-240 lbs. 16.25-16.50; No. 1-3 190-250 lbs. 15.75-16.25; 250-270 lbs. 15.25-15.75, some 16.00; sows 300-400 lbs. 13.75-14.50; 400-600 lbs. 13.00-13.75; few 400 lbs. 14.00; some over 600 lbs sows 12.75.

Cattle: salable 7,500; calves 25; steers steady to 25 lower; heifers steady; standard and good weak to 25 lower; cows steady to 25 higher; bulls and vealers generally steady; feeders about steady; choice 1,165 lbs. steers 27.00; choice 25.75-26.75; mixed good and choice 25.25-25.75; good 22.75-25.00; choice 925-975 lbs. heifers 26.50; most choice 25.75-26.35; mixed good and low choice 21.75-25.50; utility cows 15.25-16.50; few high utility and commercial 16.75-17.00; few individual commercial 17.50; canners and cutters 12.50-15.00; high yielding and borderline cutter and low utility 15.25.

Sheep: 2,000; old crop slaughter lambs uneven, steady to 75 lower; spring slaughter lambs 25-50 lower; ewes steady; choice 85-110 lbs wooled slaughter lambs 17.50-17.75; choice 96 lbs shorn slaughter lambs No. 2 pelts 17.00; choice with an end prime 96 lbs Kansas spring 19.50; few choice 18.50; cull to good shorn ewes 3.50-5.50.

CHICAGO

Butcher hog prices closed weak to 25 cents a hundredweight lower Wednesday.

Mixed No. 1 and 2 grades topped at $17 for 190-225 pounders. The mixed 1-3 grades up to 240 lbs reached $16.75 and heavier weights cleared at $15-16.25. Sows were $12.50-14.50.

Slaughter steers grading nigh choice and prime sold as much as 50 cents a hundredweight lower but average choice and below were steady.

A load of prime which weighted 1,276 lbs brought the $31.25 top. High choice, mixed choice and prime and some mostly prime cleared at $28.50-30.50 and the good to average choice at $23.75-28.50.

Heifers, vealers and bulls were steady. Heifers reached $27.75 for high choice and prime and $27 for strictly average choice. Good vealers sold up to $29, bulls to $21.

Spring slaughter lambs brought $20 for 90 lb choice and $16 for 125 lb mixed good and choice.

Hogs: 7,000; butchers steady to mostly 25 lower; mostly 1-2 190-225 lb. butchers 16.75-17.00; mixed 1-3 180-240 lbs. 16.25-16.75; 230-250 lbs. 16.00-16.25; 2-3 240-270 lbs. 15.50-16.00; 270-300 lbs. 15.00-15.50; mixed 1-3 360-450 lb. sows 13.50-14.50; 2-3 450-650 lbs. 12.50-13.50.

Cattle: 11,500; calves none; slaughter steers steady to 50 lower; load prime 1,276 lb. slaughter steers 31.25; mostly prime 1,175-1,325 lbs. 30.00-30.50; high choice and mixed choice and prime 1,150-1,300 lbs. 28.50-30.00; bulk choice 950-1,250 lbs. 27.00-28.50; mixed good and choice 1,150-1,300 lbs. 26.25-27.00; mixed good and choice 950-1,150 lbs. 25.75-26.25; good 23.75-26.50; choice heifers 26.00-27.00, mixed good and choice 25.50-26.00; good 23.00-25.50; commercial cows 16.00-18.00; utility 15.50-17.00; utility and commercial bulls 18.75-21.00; standard vealers 21.00-25.00.

Sheep: 200; about steady; choice 90 lb. spring slaughter lambs 20.00; some good and choice around 125 lb. wooled slaughter lambs 16.00; cull to good wooled slaughter ewes 4.50-5.50.

SIOUX CITY

Hogs: 9,000; barrows and gilts steady to 25 lower; sows steady; No. 1-2 200-240 lbs 16.25-16.50; No. 1-3 190-240 lbs 15.75-16.00; sows 12.50-14.75.

Cattle: 6,000; calves 50; slaughter steers steady to 25 instances 50 lower; heifers, cows steady to weak; bulls steady; high choice to mostly prime 1,225 lbs steers 28.15; high choice with some prime 1,350 lbs 27.75; high choice 25.75-27.00; good and low choice 25.25-25.75; good 22.00-25.25; choice 950-1,075 lbs heafers 25.50-26.25; high good and low choice 25.00-25.50; good 21.50-25.00; utility and commercial cows 15.00-16.50, some 17.00; canners and cutters 13.00-14.00.

Sheep: 1,000; slaughter wooled lambs fully steady; ewes fully steady; shorn lambs not established; choice with prime 105 lbs 18.75; choice including a few prime 102 lbs 18.50; utility ewes 6.00.

Journal and Star Want Ads

Your low-cost Want Ad appears daily in the Lincoln Star (Morning) and the Lincoln Journal (Evening) or the Sunday Journal and Star at the following cash rates:

Words	Lines	DAYS 1	4	7	10
—	10	2	.80	2.56	3.64	4.00
11-15	3	1.05	3.60	5.25	5.70
16-20	4	1.32	4.64	6.44	7.20
21-25	5	1.60	5.60	8.05	9.00
26-30	6	1.86	6.48	9.24	10.20
31-35	7	2.10	7.28	10.29	11.90

These low-cost rates apply to Want Ads which are placed for consecutive days and are paid for within 10 days after the ad expires or is canceled.

Single paper rates either evening Journal or morning Star, are 95% of the combination rates. These ads would appear under "Too Late To Classify" column.

DEADLINES FOR FAMILY WANT ADS—**Lincoln Journal** (Evening)—Call before 10 a.m. Monday through Saturday for publication the same day. **Lincoln Star** (Morning)—Call before 6 p.m. Monday through Friday for publication on following day. Call before 5 p.m. Saturdays for Monday morning publication. **Sunday Journal and Star**—Call anytime before 1 p.m. on Saturdays for publication Sunday.

ERRORS: Advertisers should check their ad on first insertion and report any errors at once. Dial GRover 7-8902.

ADJUSTMENTS: The company is responsible for typographical errors or misclassification only to cancel the first day's charge on that portion of an ad that may be rendered valueless by that error. All ads will be classified properly.

AD ANSWER: Answers your phone when you can't. To have this service, include your own phone number and the words "or call Ad Answer GR 7-7873" in your ad. Dial GRover 7-7873 to receive names and phone numbers taken in your absence.

BLIND BOX SERVICE: There is a 50c additional charge for this confidential service. When using a Blind Box Number, add 4 additional words to your Want Ad copy, figure the charges from the above table and add 50c for Blind Box Service Charges.

OFFICE HOURS: Daily, 8 a.m. to 6 p.m., Saturday, 8 a.m. to 5 p.m.; Sunday, 9 a.m. to 12 noon.

TO PLACE ADS:
Dial GRover 7-8902

Visit Want Ad counter or mail copy to Journal-Star, 926 "P" Street, Lincoln, Nebr.

ANNOUNCING
. . . THE NEW
EXCLUSIVE
LOOMIS & HOYT
"TRADE-IN"
PLAN
Don't get caught in a two house squeeze. If you must sell the house you presently own before you can buy your new home, you are faced with the problem of being caught between houses.
Our exclusive "Trade-In" Plan permits you to "Buy Before You Sell" with complete confidence. The plan is designed to permit you to select and purchase your new home now, before your present home is sold.
With the current market in a definite rising trend you can take advantage of today's fine values and not have to wait until the prices are higher.
If your home qualifies and you don't wish to trade it in, we will provide you with the equity money until your home is sold.

Ban Lifts; Servicemen's Families To Travel Overseas

Washington (AP) — Secretary of Defense Robert S. McNamara gave out the good news Wednesday: Thousands of servicemen in Europe will be reunited with their families after months of separation.

McNamara ordered an immediate end to a nearly 7-month ban on government-paid travel of military wives and children to Europe.

The Army and Air Force said it will take about a month to restart the flow of dependents across the Atlantic.

Both services ruled men who have been overseas longest will be the first to have families join them. Government housing will be allotted on the same basis.

The ban was put into effect last Oct. 9 to free ships and planes for movement of 40,000 Army reinforcements and supplies at a time when the the Russians were threatening the Western position in Berlin.

After that movement was completed, the restriction was retained to hold down the flow of U.S. gold and dollars abroad.

In his announcement, McNamara said the Pentagon's policy is that officers and men serving overseas "should not be separated from their families except during emergencies or for short tours."

Such separation, he said "has adverse effects on the morale and career incentives of military personnel."

The defense secretary said the army will try short tour rotations of units without dependents to curb dollar spending outside the country.

At the time McNamara was making his announcement, the Army said a battle group of the 4th Infantry Division at Ft. Lewis, Wash., will be sent to Europe in an airlift exercise May 7-12. It will replace another battle group to be rotated to Ft. Lewis after a 4-month stay in Germany.

McNamara stressed there are no plans to reduce U.S. combat strength in Europe.

The outflow of gold is still serious, McNamara said. "We are going to have to take further action."

The goal is to reduce dollar spending per dependent by $80 a year, he added.

McNamara estimated about 6,000 dependents a month will go abroad in the future. Before the ban, the monthly average was more than 9,000.

A month ago, there were nearly 319,000 military dependents in Europe. Most were Army and Air Force dependents. Only about 10,000 were in Navy families.

The Army said men whose European duty was extended involuntarily will come home on a first over, first back basis.
